Rosina Ehmann

Hounds of the Road Carlton Jackson,1984 The bus system that came to be known as the Greyhound Bus Company was founded by Carl Eric Wickman, an enterprising Swede of Hibbing, Minnesota. The first bus was a seven-passenger Hupmobile touring car that was used to transport miners across the Mesaba Iron Range to and from work. Wickman was soon joined by another Swede, Andrew Anderson, and they began operating in earnest the route from a saloon in Hibbing to the fire-hall in Alice. From this lowly beginning grew the Greyhound Corporation, a multi-million dollar company which, through the years, has owned everything from a chain of hamburger restaurants to a soap company.

**Go The Greyhound Way** Robert Gabrick,2009-10-01 It is hard to imagine an America without the Greyhound Bus. It is an institution woven into the fabric of the nation. It has provided the mobility that American's have always treasured. When personal transportation was in its infancy and car ownership limited, Greyhound provided fast, reliable, safe, and economical local and regional transportation for the masses. Increasingly, the company grew in size and scope, achieving the goal of its founders—to develop a nationwide system of transportation. Profusely illustrated with period advertisements, travel brochures, post cards, and archival photographs of depots and buses, this history of the Greyhound Bus Lines offers a unique journey through America's physical and cultural landscape. Readers can accept this invitation from Greyhound: "There is a graceful Greyhound coach waiting to carry you over Roads of Romance.... Adventure seems to lurk around every corner as you speed along in the sturdy, blue and white Greyhound bus. All the color and romance, all the scenic and historic interest of this American Wonderland are yours to enjoy when you go the Greyhound way."

*Greyhound Tales from Route 66* ,2004 From small laughs to huge tragedies, ballerinas to teenage runaways, Suttle's years as a motorcoach driver along the nation's famous Mother Road left him with great tales about the human condition and spirit.

**The Matter of the Vanishing Greyhound** Steve, Levi,2016-07-15 How can a Greyhound Bus with four bank robbers, \$10 million in cash, the contents of all of the safety deposit boxes and 12 hostages being follow by the San Francisco Police vanish off the Golden Gate Bridge? The police are stumped so a specialist in impossible crimes, Captain Heinz Noonan, the Bearded Holmes, is sent to San Francisco to solve the crime. With the clock ticking, Noonan will have to unravel how the bus was able to disappear – and why there are still hostages if the money has already been stolen and the bank robbers have vanished. Ride along with Captain Heinz Noonan, the nation's foremost impossible crime sleuth, and see if you can solve the crime as fast as he does!

*Traveling With Greyhound* Robert Gabrick,2014-08-15 Bringing Americans together by bus for 100 years, Greyhound is one of the top iconic names of the Twentieth Century with their running dog logo. It all started with Carl Wickman and partners when they offered a fare of 15 cents one way or 25 cents

round-trip between Alice and Hibbing Minnesota, in a large Hupmobile -which was a hit amongst the iron mine workers. The business quickly prospered and eventually became the empire that it is today. Greyhound's goal of providing city to city service helped lead the country in bus travel, allowing the public a chance to sight-see coast-to-coast and border-to-border, visit far-away loved ones, or escape to vaster lands with greener pastures. By expanding bus lines, building bus depots and Post Houses, and with outstanding promotional efforts, Greyhound pioneered an industry. As the full story of the Greyhound company unfolds, the book is illustrated with wonderful old bus photos, artistic ads and timetables that depict a more fanciful era (one that made riding on a Greyhound romantic) and then takes a journey through the eras that follow (like the one with the famous Scenicruiser) and into today's modern buses.

**Greyhound Buses** William A. Luke,2000-10-23 When Americans think of buses, the name Greyhound inevitably comes to mind. Avid bus enthusiast and historian, William A. Luke compiles ten dozen fascinating photographs depicting the great variety of buses the company has used from its beginning in 1914 to present. In addition to standard models from the Big Gray Dog's fleet there are examples of experimental models, unusual types operated at the 1933 Chicago World's Fair and the 1940 New York World's Fair, and timetables and sales brochures.

Greyhound in Postcards John Dockendorf,2004-11-11 Relive the days when traveling by Greyhound was so popular. As part of Greyhound's objective to establish the nation's largest national intercity bus system, the company began an aggressive campaign to build its own terminals in the 1930s, an era of ''art deco'' styling. And to better serve the traveling public, Greyhound also began building a network of restaurants and rest stops. This collection of vintage Greyhound Bus postcards portrays the buses, depots and post houses from a variety of regions all across America and Canada. A visual treat for all bus enthusiasts and postcard collectors.

**Greyhound** Alex Roggero,Tony Beadle,1995 This book details the history of an American bus company that had its origins in the early 1920s, and went on to become one of the most celebrated transportation networks in American history.

**Greyhound Scenicruiser** Tom McNally,Fred Rayman,2013-03-01 When we deem things iconic, they have naturally become part of history and have earned a permanent status of importance to us—one such object is a particular intercity coach, the Greyhound PD-4501 Scenicruiser bus, built by the GM Corporation during 1954-‘56. After nearly 60 years, its popularity, even today, is almost cult-like. Throughout the history of intercity coaches in the U.S., there have not been more toys, advertising pieces, souvenirs, or memorabilia centered on any other bus. The Scenicruiser starred in several

movies, was featured on record album covers, and appeared on endless TV shows through the years. Starting with prototypes, this book covers all the various models of the Scenicruiser's heritage, and even highlights many of the restored and still operating legends today.

*Making Connections* Margaret Walsh, 2017-05-15 This book argues that legal persuasion results from making and breaking mental connections. To support this argument, it follows a cognitive science roadmap while the authors road test the directions through rhetorical analysis. By taking a rhetorical approach to persuasion, the authors are able to integrate research from cognitive science with classical and contemporary rhetorical theory, and then to apply both to the taking apart and the putting together of effective legal arguments. The combination of rhetorical analysis and cognitive science yields a new way of seeing and understanding legal persuasion, one that promises theoretical and practical gains. The work has three main functions. First, it brings together the leading models of persuasion from cognitive science and rhetorical theory, blurring boundaries and leverage connections between the often-separate spheres of science and rhetoric. Second, it illustrates this persuasive synthesis by working through concrete examples of persuasion from real-life legal contexts. In this way, the book demonstrates the advantages of a deeper and more nuanced understanding of persuasion. Third, the volume assesses and explains why, how, and when certain persuasive methods and techniques are more effective than others. The book is designed to appeal to scholars in law, rhetoric, persuasion science, and psychology; to students learning the practice of law; and to judges and practicing lawyers who engage in persuasion.
