*100 Ideas for Primary Teachers: Developing Thinking Skills* Steve Bowkett,2014-02-16 No matter what you teach, there is a 100 Ideas title for you! The 100 Ideas series offers teachers practical, easy-to-implement strategies and activities for the classroom. Each author is an expert in their field and is passionate about sharing best practice with their peers. Each title includes at least ten additional extra-creative Bonus Ideas that won't fail to inspire and engage all learners. Thinking skills are the cornerstones of effective learning. When children are familiar with their 'thinking toolkit' they will engage more actively and confidently with the knowledge and information you teach them. In this brand new edition, author and education consultant Steve Bowkett offers 100 tried and tested activities and techniques to help children become more creative, analytical and flexible in their thinking. Whether you are an experienced teacher or you are just starting your teaching career, there are strategies in this book that you can apply across a wide age and ability range and areas of the primary curriculum. Dip in and use the activities as 'mind warm-ups' and lesson starters, or combine techniques to form the basis of whole topics and more extended programmes of study.

**Understanding the World Through Narrative** Steve Bowkett,Tony Hitchman,2023-10-02 While many educational books focus on creative and critical thinking skills, this ground-breaking work is the first to deal specifically with the ability to understand, question and evaluate information presented, broadly speaking, in story form. Story or narrative is central to our understanding of and interaction with the world around us. We only have to think of the 'mini stories' encapsulated in many advertisements; the way that topics in science – the story of human evolution for example, in history and other subjects present themselves; the power of myths and legends to act as guides to moral behaviour; and the pervasive way that gossip, rumour and superstition can spread – to recognise the benefits of heightening such awareness in young learners. Understanding the World Through Narrative explores the narrative structure of fiction, but uses this as a template to show how the story form appears in mythology and modern urban folklore, science, history, the media – including advertising; in our internal dialogues (stories we tell ourselves about ourselves and others), and how narrative structure can be used in curriculum planning to enhance children's learning. The book contains over 160 thinking/discussing/researching activities for use in the classroom and as project work. Chapters can be used independently, although they are arranged with increasing degrees of sophistication and challenge. This fascinating work is an essential resource for any teacher of upper primary and lower secondary students, covering not only children's evolving intellectual ability and promoting curiosity and critical engagement but also enhancing their mental and emotional wellbeing.
