How to Shoot Robert Churchill,1927

Shoot to Win Chris Cheng,2018-05-01 A surprising journey from tech support to professional marksman in front of the cameras. Chris Cheng won the title of “Top Shot,” a \$100,000 cash prize, and a professional marksman contract with the show sponsor, Bass Pro Shops. How did a tech support guy who didn’t shoot a lot of guns beat out seventeen other competitors—including seasoned military veterans, law enforcement officers, and pro marksmen—in History Channel’s Top Shot season 4? An excellent guide for beginning shooters, Cheng focuses on the basics and ammunition of pistols, rifles, and shotguns, marksmanship fundamentals, and buying a firearm. Other chapters include: Dry Fire Practice Firearm Accessories Safely Storing Your Firearm Cleaning and Maintaining Your Guns And much more! Additionally, Cheng covers his approach to staying calm under pressure, teamwork, sportsmanship, and leadership. These traits contributed to his coming out on top and staying above the fray. With a foreword written by Top Shot season 3 champion Dustin Ellermann and an afterword written by the original Top Shot champion Iain Harrison, Shoot to Win is sure to please shooters of all stripes, but especially fans of History Channel’s program Top Shot. A Shooting Guide for the Blind Carey McWilliams,2022-08-01 This is a guide regarding the proper application of firearms, especially by those with any degree of visual impairment, with an emphasis on safe firearms usage when engaging in activities such as hunting, target shooting, and even

selfaEURdefense at home or on the street. In these pages, the author, Mr. McWilliams, utilizes his thirty years of certified gun training to teach others with visual impairments, as well as those seeking to train them, all the various methods that have allowed him to pass countless shooting exams to obtain a number of stateaEURissued concealed carry permits and hunting licenses. For this guide's creation, real guns from the author's personal firearms collection were used as props for certain technical sections, as well as old written text and recorded lectures obtained during his training through the National Rifle Association, law enforcement, and even the United States Army. Topics include how to identify, load, unload, and work with different types of firearms without the benefit of sight, how the military's techniques in closeaEURquarters combat governs defensive shooting by the blind, case studies and official government research debunking the myth that blind people pose a greater danger than the sighted regarding firearm usage, and how to find resources to obtain training certification. This book, however, is only intended as a prelude to official gun training by a licensed instructor, not as a standaEURalone manual for perspective blind gun users. It is the author's wish that such information included here bridges the gap between blind Americans and their constitutional right to bear arms.

Instinctive Shooting Buz Fawcett,2013-01-01 Here, point and shoot.? These words from his father propelled Buz Fawcett?s shooting success as a child, gaining him a number of High Gun awards at local trap clubs by the time he was fourteen. Because of his success, his father awarded him his grandfather?s Model 1912 Winchester, which he mastered, even though it ?kicked the whey? out of him. However, his amazing shooting abilities as a kid didn?t follow him into adulthood. Fawcett entered into what he calls his ?Dark Ages? of shooting after accepting an associate editor position at Sports Afield in New York City, where he had to read and edit what other gunmen were writing about shooting techniques. Eventually, he took a position as editor of Guns & Ammo magazine, located in California. He soon found himself in a position where he could shoot as much as he liked. After a number of years and extensive research into shooting methods, Fawcett rediscovered his talents through a technique called ?Instinctive Shooting.? This research and a lot of practice finally led to teaching a workshop on instinctive shooting to help others become adept at this miraculous ?point and shoot? method. Instinctive Shooting is Fawcett?s guide for other gunmen, describing exactly how and what needs to be done to achieve the ultimate shooting instincts. Practical and hands-on, the book covers such topics as determining your dominant eye, achieving proper shotgun fit, how to correct point and shoot, selecting equipment, practice regimens, mounting, and much more.

Taking Your First Shot Lynne Finch, 2013-06-13 Numbers don't lie; more and more women are purchasing guns and learning to shoot! While shooting used to be a male-dominated sport, women across the country have begun discovering that a trip to the range not only is relaxing, but also brings with it a sense of strength and empowerment. *Taking Your First Shot* is an introductory guide perfect for either those stepping out onto the range for the first time or those looking to brush up on their skills. Author Lynne Finch coaches women on the decision to learn to shoot, how to find formal training, selecting and purchasing a handgun, defensive versus practice ammunition, storing and caring for your gun, and concealed carry options. Along with learning the shooting basics, Finch also teaches readers the importance of situational awareness and the basics of self-defense. Sometimes a gun isn't always an answer, and it's important to have a proportional response to the situation. Finch begins with teaching readers how to become aware of their surroundings, what to watch for, and how to respond. From there, she goes on to define proportional response and why carrying pepper spray, a kubotan, or even a whistle can make all the difference. Learning to shoot is a personal decision, but with the proper training and practice, shooting can become both an enjoyable and liberating sport.
