“Die” Vorschriften über die Führung des Handelsregisters Otto Rudorff,1882

The Law of Business Organizations Martin Schulz,Oliver Wasmeier,2012-01-05

This book gives a concise introduction to the German law of business organizations and is meant to help business practitioners and international students to familiarize themselves with its key concepts and legal issues. After outlining some characteristic features of the German legal system the book describes the various types of German business organizations with a special focus on the German Limited Liability Company (GmbH) and the German Stock Corporation (AG). The book discusses some typical problems faced by companies engaged in cross-border activities and also provides a brief outline of some recent developments in European company law with a special focus on the new multinational corporate form of the European Company (SE).

Erstes Buch. Einleitung; §§1-104 Peter Balzer,Klaus P. Berger,Volker Emmerich,Martin Henssler,Harald Herrmann,Jochen Hoffmann,Norbert Horn,Willi Joachim,Stefan Kröll,Harro Otto,Jörn Rohrmann,Jürgen Sonnenschein,Andreas Schlüter,Rainer Walz,Birgit Weitemeyer,2012-08-28

Zambia, Mining, and Neoliberalism A. Fraser,M. Larmer,2010-12-20 This book paints a vivid picture of Zambia's experience riding the copper price rollercoaster. It brings together the best of recent research on Zambia's mining industry from eminent scholars in history, geography, anthropology, politics, sociology and economics. The authors discuss how aid donors pressed Zambia to privatize its key industry and how multinational mining houses took advantage of tax-breaks and lax regulation. It considers the opportunities and dangers presented by Chinese investment, how both companies and the Zambian state responded to dramatic instabilities in global commodity markets since 2004, and how frustration with the courting of mining multinationals has led to the rise of populist opposition. This detailed study of a key

industry in a poor Central African state tells us a great deal about the unstable nature and uneven impacts of the whole global economic system.

Final Sale in Berlin Christoph Kreutzmüller, 2015-08 Before the Nazis took power, Jewish businesspeople in Berlin thrived alongside their non-Jewish neighbors. But Nazi racism changed that, gradually destroying Jewish businesses before murdering the Jews themselves. Reconstructing the fate of more than 8,000 companies, this book offers the first comprehensive analysis of Jewish economic activity and its obliteration. Rather than just examining the steps taken by the persecutors, it also tells the stories of Jewish strategies in countering the effects of persecution. In doing so, this book exposes a fascinating paradox where Berlin, serving as the administrative heart of the Third Reich, was also the site of a dense network for Jewish self-help and assertion.

The German Stock Corporation Act Germany, Hannes Schneider, Martin H. Heidenhain, 2000-04-21 This book contains an English translation of the German Stock Corporation Act. The English and German texts are synoptically arranged. The introduction provides a concise overview of the main elements of the law and facilitates an understanding of the complex statutory provisions for the English-speaking reader. The main characteristics of both types of stock corporations in Germany, the AG and the KgaA, are described and explained. Several legal aspects of stock corporations, such as their formation and management, shareholders, minority rights, capital,

integration, and mergers, are treated in this book. The index is also arranged in bilingual form. The authors are partners of the law firm Hengeler Mueller Weitzel Wirtz. This second edition of the book reflects the prevailing state of legislation and will prove valuable to foreign lawyers and business people dealing with stock corporations.
