Gospel Shaped Outreach Leader's Guide Erik Raymond,2015-04-13 Leader's Guide for the Outreach track of Gospel Shaped Church from The Gospel Coalition, exploring what it means to be a community focused on mission. Gospel Shaped Church is a curriculum from The Gospel Coalition that will help whole congregations pause and think carefully and prayerfully about the kind of church they are called to be. This nine-week whole-church resource will help members see both the priority of evangelism for our churches, and to see the role that everyone can play in reaching out to those who are lost without Christ. The Leader's Guide contains everything you need to lead this flexible course. Many Christians are nervous about telling someone else about Jesus. We prefer to leave it up to the preacher, or to those we see as particularly gifted for evangelism in our congregations. But all believers are called to make disciples. The nine sessions in this curriculum don't offer quick fixes or evangelism gimmicks. But by continually pointing us back to the gospel, they will give us the proper motivation to work together as a church to share the gospel message with those who are lost without Christ. This flexible resource will train your whole church through teaching, preaching, daily reading and small-group Bible study and discussion-or any combination of those elements. The overall aim is that your church will embark on a journey to discover the kind of people they should be as they are shaped by the gospel of Jesus Christ. Works alongside the Gospel Shaped Outreach DVD and the Gospel Shaped Outreach Handbook for use by church members.

Gospel Shaped Worship Leader's Guide Jared Wilson,2015-04-13 Leader's Guide for the Worship track of Gospel Shaped Church from The Gospel Coalition, exploring how a church should be a worshipping community. Gospel Shaped Church is a curriculum from The Gospel Coalition that will help whole congregations pause and think carefully and prayerfully about the kind of church they are called to be. This seven-week whole-church curriculum explores what it means to be a worshipping community. The Leader's Guide contains everything you need to lead this flexible course. Christians are people who have discovered that the one true object of our worship is the God who has revealed himself in and through Jesus Christ. For most believers, worship is what happens for an hour on Sunday morning as we sing and pray together. But the Bible reveals a much bigger vision for what worship really is and how it should shape our lives. So what exactly is worship? What should we be doing when we meet together for “church” on Sundays? And how does that connect with what we do the rest of the week? As we search the scriptures together we will discover that true worship is more than this-it is to encompass the whole of life. This engaging and flexible resource will challenge us to worship God every day of the week, with all our heart, mind, soul and strength. This flexible resource will train your whole church through teaching, preaching, daily reading and small-group Bible study and discussion-or any combination of those elements. The overall aim is that your church will embark on a journey to discover the kind of people they should be as they are shaped by the gospel of Jesus Christ. Works alongside the Gospel Shaped Worship DVD and the Gospel Shaped Worship Handbook for use by church members.

Running Mac OS X on Windows Wei-Meng Lee, 2006-08-31 For a long time, a lot of Windows users have been clamoring for the opportunity to run the Mac OS X operating system on their Windows PCs. As Mac OS X was designed to run on a different CPU architecture (PowerPC), running Mac OS X directly on Intel's CPU would not work. It wasn't until recently that PC users saw a ray of hope, when Apple announced that it was moving to Intel's CPU

architecture and would hence port Mac OS X to run natively on Intel's x86 CPU architecture. However, the joy was short-lived, as Mac OS X can still run properly only on Apple's customized hardware, not commodity PCs that run Windows. (There are hacks to make Mac OS X run natively on PC hardware, but that is not the legal way to do it). The only logical means of running the Mac OS X operating system on your Windows PC is to run it in an emulator capable of emulating the PowerPC CPU architecture. While popular virtualization software programs like Virtual PC and VMware have been around in the market for a long time, none support running Mac OS X. Fortunately, an open source project, PearPC, makes it possible to run Mac OS X on Windows. PearPC is an architecture-independent PowerPC platform emulator. (It is released under the General Public License (GPL)-a freely used free software license.) PearPC emulates the PowerPC architecture by using a JIT (Just-in-Time) emulator to dynamically translate PowerPC code into x86 code. In this Short Cut, you will learn how to install Mac OS X on your Windows PC using PearPC. I will walk you through all the steps needed to successfully get Mac OS X working, as well as configure additional settings to make Mac OS functional.
