Phyllis Reynolds Naylor

YouTube Famous Rosie Matheson,2015-05-06 YouTube has changed the viewing habits of millions around the world and it was pioneering vloggers such as Zoella Sugg, Jack and Finn Harries, Caspar Lee, Marcus Butler and many others who built their channels up from scratch, that broke the mould and put their lives online for all to see. They used to be called 'the most famous stars you've never heard of', but since then they've gone on to win worldwide fame (by popular demand, Zoella and Alfie Deynes even have their own waxworks in Madame Tussauds). Complete with tips to help you produce your own content, this is their story.

The Boy with the Helium Head Phyllis Reynolds Naylor,1998 Jonathan goes to the doctor for a flu shot and accidentally gets shot with a dose of helium. Now all he can do is float around. That's one way to avoid Duke, the school bully. But how long can Jonathan stay up, up, and away?

Abstract Video Gabrielle Jennings,Kate Mondloch,2015-09-15 Offering historical and theoretical positions from a variety of art historians, artists, curators, and writers, this groundbreaking collection is the first substantive sourcebook on abstraction in moving-image media. With a particular focus on art since 2000, Abstract Video addresses a longer history of experimentation in video, net art, installation, new media, expanded cinema, visual music, and experimental film. Editor Gabrielle JenningsNa video artist herselfÑreveals as never before how works of abstract video are not merely, as the renowned curator Kirk Varnedoe once put it, Opictures of nothing,Ó but rather amorphous, ungovernable spaces that encourage contemplation and innovation. In explorations of the work of celebrated artists such as Jeremy Blake, Mona Hatoum, Pierre Huyghe, Ryoji Ikeda, Takeshi Murata, Diana Thater, and Jennifer West, alongside emerging artists, this volume presents fresh and vigorous perspectives on a burgeoning and ever-changing arena of contemporary art.

The Liberal Redneck Manifesto Trae Crowder,Corey Ryan Forrester,Drew Morgan,2017-10-10 The Liberal Rednecks--a three-man stand-up comedy group doing scathing political satire--celebrate all that's good about the South while leading the Redneck Revolution and standing proudly blue in a sea of red. Smart, hilarious, and incisive, the Liberal Rednecks confront outdated traditions and intolerant attitudes, tackling everything people think they know about the South--the good, the bad, the glorious, and the shameful--in a laugh-out-loud funny and lively manifesto for the rise of a New South. Home to some of the best music, athletes, soldiers, whiskey, waffles, and weather the country has to offer, the South has also been bathing in backward bathroom bills and other bigoted legislation that Trae Crowder has targeted in his Liberal Redneck videos, which have gone viral with over 50 million views. Perfect for fans of Stuff White People Like and I Am America (And So Can You), The Liberal Redneck Manifesto skewers political and religious hypocrisies in witty stories and hilarious graphics--such as the Ten Commandments of the New South--and much more! While celebrating the South as one of the richest sources of American culture, this entertaining book issues a wake-up call and a reminder that the South's problems and dreams aren't that far off from the rest of America's--

Bird Lovers, Backyard Thalia Field,2010-04-23 Thalia Field’s third book with New Directions is a tour de force of blending literary genres (poetry, prose, essay, and drama) and examining our control of the natural world. Bird Lovers, Backyard continues Thalia Field’s interrogation of the act of storytelling and her experimentation with literary genre. Field’s illuminating essays, or stories, in poetic form, place scientists, philosophers, animals, even the military, in real and imagined events. Her open questioning brings in subjects as diverse as pigeons, chat rooms, nuclear testing, the building of the Kennedy Space Center, the development of seaside beaches, Konrad Lorenz, the American author and animal trainer Vicki Hearne, and the Swiss zoologist Heini Hediger. Throughout, she intermingles fact and fiction, probing the porous boundaries between human and animal, calling into question “what we are willing to do with words,” and spinning a world where life is haunted by echoes. Story and event survive through daring language, and the elegies of history.

Breaking the Chains of Gravity Amy Shira Teitel,2015-10-22 The incredible story of spaceflight before the establishment of NASA. NASA's history is a familiar story, one that typically peaks with Neil Armstrong taking his small step on the Moon in 1969. But America's space agency wasn't created in a vacuum. It was assembled from pre-existing parts, drawing together some of the best minds the non-Soviet world had to offer. In the 1930s, rockets were all the rage in Germany, the focus both of scientists hoping to fly into space and of the German armed forces, looking to circumvent the restrictions of the Treaty of Versailles. One of the key figures in this period was Wernher von Braun, an engineer who designed the rockets that became the devastating V-2. As the war came to its chaotic conclusion, von Braun escaped from the ruins of Nazi Germany, and was taken to America where he began developing missiles for the US Army. Meanwhile, the US Air Force was looking ahead to a time when men would fly in space, and test pilots like Neil Armstrong were flying cutting-edge, rocket-powered aircraft in the thin upper atmosphere. Breaking the Chains of Gravity tells the story of America's nascent space program, its scientific advances, its personalities and the rivalries it caused between the various arms of the US military. At this point getting a man in space became a national imperative, leading to the creation of the National Aeronautics and Space Administration, otherwise known as NASA.

Religious Talk Online Stephen Pihlaja,2018-02-28 In the online world, people argue about anything and everything - religion is no exception. Stephen Pihlaja investigates how several prominent social media figures present views about religion in an environment where their positions are challenged. The analysis shows how conflict creates a space for users to share, explain, and develop their opinions and beliefs, by making appeals to both a core audience of like-minded viewers and a broader audience of viewers who are potentially interested in the claims, ambivalent, or openly hostile. The book argues that in the back and forth of these arguments, the positions that users take in response to the arguments of others have consequences for how religious talk develops, and potentially for how people understand and practice their beliefs in the twenty-first century. Based on original empirical research, it addresses long-debated questions in sociolinguistics and discourse analysis regarding the role of language in building solidarity, defining identity and establishing genres and registers of interaction.
