**The Cutting Edge** Rod Millen,2014-08-15 One of New Zealand's greatest rally drivers and a hill-climbing superstar tells his inspiring story for the very first time. Rod Millen was a hero of New Zealand rallying in the 1970s. Having won several championships he quickly established himself as New Zealand's number one driver. But thereafter Millen went on to do what very few Kiwis have achieved, finding podium success in American motorsport. He won the North American Race and Rally Championship in 1979, 1980 and 1981, then in 1989 Millen achieved perhaps his

greatest feat, winning the Pikes Peak International Hill Climb, America's second oldest motor-racing event. Writing his name into history, he went on to win the race more times than any driver. The hill-climb is often referred to as 'Millen's Mountain'. Rod Millen is also a highly successful businessman. As a continuation of his off-road driving interests, he founded Millenworks in California in 1980, specializing in cutting-edge light tactical vehicles, armored and off-road vehicles and subsystems for the US military and theme parks. Millen has recently returned to New Zealand, building a 140-acre, ocean-front estate at Hahei with a racetrack as a driveway, modeled on his favourite hill-climb corners around the world. He's also established Leadfoot Festival, a unique weekend held every two years at the estate, bringing together a mix of classic cars, vintage motorcycles and motorsport legends, inspired by the famous British Goodwood Festival of Speed. Aside from rallying, Rod is well known for other forms racing such as super touring, drifting and extreme off-road races like the Baja 1000 (often considered the most dangerous race in the world) and Transsyberia rally (which he won in 2007). Rod also won the Race to the Sky hill-climb in New Zealand in 2002 and posted the fastest time at the 2002 Goodwood Festival of Speed in England - and he still has the record up his own front driveway. The Cutting Edge is Rod's story, in his own words, of a life lived pushing the boundaries, of record-breaking off-road driving, working at the forefront of motorsport technology, and of creating the ultimate petrol-head heaven, right in his own backyard.

*Uniontown Hill Climb Program 1915* Marci Lynn McGuinness, 2013-10 Forty pages of action with times filled in. The Summit Mountain Hill Climbs of Uniontown, Pennsylvania ran three miles from Hopwood to the top of Summit Mountain. **Finnish Video Games** Juho Kuorikoski, 2015-05-11 In the past three decades Finland's video game industry has become the backbone of Finnish cultural export. Angry Birds and Clash of Clans are dominating sales around the world and the small Nordic nation has become a gaming superpower. Drawing on more than 60 interviews, this book covers the Finnish video game phenomenon as told by the people behind its success. The history of the industry is documented in detail for the first time. Two hundred game reviews are included, presenting the best (and worst) of commercial video games made in Finland.

**A Corinthian Endeavour** Paul Jones, 2015-06-10 Every year on the last weekend of October the death knell of the cycling season is sounded by the National Hill Climb Championship. It's been won by luminaries like Brian Robinson, Chris Boardman and Malcolm Elliott, and yet the story of the championship is one of ordinary people doing extraordinary things, of amateur cyclists prevailing against the professionals. The violence of the race is set against the beauty of the landscape, from the supernatural past of Pendle Moor to the granite outcrops of

Dartmoor, from the glacial High Peak to the bucolic charms of the Cotswolds. This book traces the full history of the event from its inception in 1944 through to 2014, and the incorporation of a Women's Championship from 1998 onwards.

Extreme Eiger Peter Gillman, Leni Gillman, 2016-02-16 •The classic story of a notorious climb, now revised, updated, and expanded by the original author with new information •Literally a race to ascend Europe's most formidable mountain wall—Brits and Americans versus Germans The North Face of the Eiger was long renowned as the most dangerous climb in the Swiss Alps, one that had cost the lives of numerous skilled mountaineers. In February 1966, two teams—one German, the other British/American—aimed to climb it in a straight line from bottom to top. Astonishingly, the two teams knew almost nothing about each other's attempt until both arrived at the foot of the face. The race was on. The Anglo-American team of John Harlin, Layton Kor, and Dougal Haston intended to make a dash to the summit when conditions were right. The Germans, with an eight-man team and a mass of equipment, planned a slow, relentless ascent. Watching all was a young journalist, Peter Gillman. Now, fifty years later, Gillman recalls the dramatic events on the North Face, and assesses their effect on those who took part. The charismatic and controversial American climber John Harlin was killed before the summit was reached, while others were permanently injured through frostbite. For British photographer Chris Bonington, who was sucked into the action, it opened a path to a career and reputation as Britain's foremost mountaineer. "It was incredibly challenging and probably some of the hardest climbing done in the Alps to that time," remembers Bonington. "Being involved was absolutely fantastic. There's never been anything like it for me, before or since." This title is part of our LEGENDS AND LORE series. [Click here >](#) to learn more.

*Hangdog Days* Jeff Smoot,2019-03-01 Fast-paced history-cum-memoir about rock climbing in the wild-and-wooly '80s Highlights ground-breaking achievements from the era Hangdog Days vividly chronicles the era when rock climbing exploded in popularity, attracting a new generation of talented climbers eager to reach new heights via harder routes and faster ascents. This contentious, often entertaining period gave rise to sport climbing, climbing gyms, and competitive climbing--indelibly transforming the sport. Jeff Smoot was one of those brash young climbers, and here he traces the development of traditional climbing "rules," enforced first through peer pressure, then later through intimidation and sabotage. In the late '70s, several climbers began introducing new tactics including "hangdogging," hanging on gear to practice moves, that the old guard considered cheating. As more climbers broke ranks with traditional style, the new gymnastic approach pushed the limits of climbing from 5.12 to 5.13. When French climber Jean-Baptiste Tribout ascended To Bolt or Not to Be, 5.14a, at Smith Rock in 1986, he cracked a barrier many people had considered impenetrable. In his lively, fast-paced history enriched with insightful firsthand experience, Smoot focuses on the climbing achievements of three of the era's superstars: John Bachar, Todd Skinner, and Alan Watts, while not neglecting the likes of Ray Jardine, Lynn Hill, Mark Hudon, Tony Yaniro, and Peter Croft. He deftly brings to life the characters and events of this raucous, revolutionary time in rock climbing, exploring, as he says, "what happened and why it mattered, not only to me but to the people involved and those who have followed."
