Race, Gender, and the Politics of Skin Tone Margaret L. Hunter,2013-05-13 *Race, Gender, and the Politics of Skin Tone* tackles the hidden yet painful issue of colorism in the African American and Mexican American communities. Beginning with a historical discussion of slavery and colonization in the Americas, the book quickly moves forward to a contemporary analysis of how skin tone continues to plague people of color today. This is the first book to explore this well-known, yet rarely discussed phenomenon.

Whiter Nikki Khanna,2020-03-10 Heartfelt personal accounts from Asian American women on their experiences with skin color bias, from being labeled “too dark” to becoming empowered to challenge beauty standards “I have a vivid memory of standing in my grandmother’s kitchen, where, by the table, she closely watched me as I played. When I finally looked up to ask why she was staring, her expression changed from that of intent observer to one of guilt and shame. . . . ‘My anak (dear child),’ she began, ‘you are so beautiful. It is a shame that you are so dark. No Filipino man will ever want to marry you.’”—“Shade of Brown,” Noelle Marie Falcis How does skin color impact the lives of Asian American women? In *Whiter*, thirty Asian American women provide first-hand accounts of their experiences with colorism in this collection of powerful, accessible, and brutally honest essays, edited by Nikki Khanna. Featuring contributors of many ages, nationalities, and professions, this compelling collection covers a wide range of topics, including light-skin privilege, aspirational whiteness, and anti-blackness. From skin-whitening creams to cosmetic surgery, *Whiter* amplifies the diverse voices of Asian American women who continue to bravely challenge the power of skin color in their own lives.

Studies of Skin Color in the Early Royal Society Cristina Malcolmson,2016-04-01 Arguing that the early Royal Society moved science toward racialization by giving skin color a new prominence as an object of experiment and observation, Cristina Malcolmson provides the first book-length examination of studies of skin color in the Society. She also brings new light to the relationship between early modern literature, science, and the establishment of scientific racism in the nineteenth century. Malcolmson demonstrates how unstable the idea of race remained in England at the end of the seventeenth century, and yet how extensively the intertwined institutions of government, colonialism, the slave trade, and science were collaborating to usher it into public view. Malcolmson places the genre of the voyage to the moon in the context of early modern discourses about human difference, and argues that Cavendish’s *Blazing World* and Swift’s *Gulliver’s Travels* satirize the Society’s emphasis on skin color.

Color Stories JeffriAnne Wilder,2015-10-26 This book offers an in-depth sociological exploration of present-day colorism in the lives of black women, investigating the lived experiences of a phenomenon that continues to affect women of African descent. Race still matters. And for black women, the related issues of skin tone are just as important today as in decades past. Part cultural commentary, part empirical analysis, this book offers a compelling study and discussion of colorism—a widely discussed but understudied issue in post-racial America—that demonstrates how powerful a factor skin color remains in the everyday lives of young black women. Author JeffriAnne Wilder conducted interviews with dozens of young black women about the role of colorism in their everyday lives. Collectively, these findings offer a compelling empirical and theoretical analysis of colorism in key areas of 21st-century life, including within family and school settings, in the media, and in intimate relationships. The culmination of nearly two decades of the author’s deep entrenchment in colorism studies, *Color Stories: Black Women and Colorism in the 21st Century* provides a new perspective on a controversial issue that has been a part of black culture and academic study for generations by exploring how the contemporary nature of colorism—from Facebook to the First Lady to Beyoncé—impacts the ideas and experiences of black women. This work serves as essential reading for anyone interested in learning more about the historical and contemporary significance of colorism in modern-day America, regardless of the reader’s race, sex, or age.

Virginia International Raceway Chris Holaday,2003-04 From the August 1957 VIR race program: The rolling Virginia hills have been painstakingly clad with an ultra-smooth skin of macadam to provide a course of great natural beauty. The superb spectator visibility is nicely equated to a road layout that will test the best in racing machines and men. In the late 1950s, a group of sports car enthusiasts dreamed of creating a first-class racing facility. The result was Virginia International Raceway, a challenging 3.2-mile course with 12 turns, 2 straightaways, and over 100 feet of elevation change. Located in southern Virginia, east of Danville and just across the North Carolina border, the track opened in 1957. During VIR’s first 18 years of existence, races featured some of the top names in American motorsports including Carroll Shelby, Roger Penske, Walt Hansgen, and Richard Petty. The track also hosted numerous important events including SCCA Nationals, the President’s Cup, a Trans-Am race in the first season of that circuit, as well as IMSA races in the early 1970s. Facing financial difficulties, the track shut down in 1974, and for the next 25 years VIR was a cow pasture. It was reopened in 2000 and the outstanding new facility is again one of the top racing venues in the country.

Color Matters Kimberly Jade Norwood,2013-12-17 In the United States, as in many parts of the world, people are discriminated against based on the color of their skin. This type of skin tone bias, or colorism, is both related to and distinct from discrimination on the basis of race, with which it is often conflated. Preferential treatment of lighter skin tones over darker occurs within racial and ethnic groups as well as between them. While America has made progress in issues of race over the past decades, discrimination on the basis of color continues to be a constant and often unremarked part of life. In *Color Matters*, Kimberly Jade Norwood has collected the most up-to-date research on this insidious form of discrimination, including perspectives from the disciplines of history, law, sociology, and psychology. Anchored with historical chapters that show how the influence and legacy of slavery have shaped the treatment of skin color in American society, the contributors to this volume bring to light the ways in which colorism affects us all--influencing what we wear, who we see on television, and even which child we might pick to adopt. Sure to be an eye-opening collection for anyone curious about how race and color continue to affect society, *Color Matters* provides students of race in America with wide-ranging overview of a crucial topic.

"You Should Be Grateful" Angela Tucker,2023-04-18 An adoption expert and transracial adoptee herself examines the unique perspectives and challenges these adoptees have as they navigate multiple cultures “Your parents are so amazing for adopting you! You should be grateful that you were adopted.” Angela Tucker is a Black woman, adopted from foster care by white parents. She has heard this microaggression her entire life, usually from well-intentioned strangers who view her adoptive parents as noble saviors. She is grateful for many aspects of her life, but being transracially adopted involves layers of rejection, loss, and complexity that cannot be summed up so easily. In “*You Should Be Grateful*,” Tucker centers the experiences of adoptees to share deeply personal stories, well-researched history, and engrossing anecdotes from mentorship sessions with adopted youth. These perspectives challenge the fairy-tale narrative of adoption, giving way to a fuller story that explores the impacts of racism, classism, family, love, and belonging.

The Architecture of Desire Solangel Maldonado,2024-05-21 This book examines how the law influences our most personal and private choices—who we desire and choose as intimate partners—and explores the psychological, economic, and social effects of these choices. It proposes ways to minimize law’s influence over who we desire, love, and bring into our families, including changes to dating platforms, as well as housing, education, and transportation policies--

Shades of Difference Evelyn Nakano Glenn,2009-01-23 *Shades of Difference* addresses the widespread but little studied phenomenon of colorism—the preference for lighter skin and the ranking of individual worth according to skin tone. Examining the social and cultural significance of skin color in a broad range of societies and historical periods, this insightful collection looks at how skin color affects people’s opportunities in Latin America, Asia, Africa, and North America. Is skin color bias distinct from racial bias? How does skin color preference relate to gender, given the association of lightness with desirability and beauty in women? The authors of this volume explore these and other questions as they take a closer look at the role Western-dominated culture and media have played in disseminating the ideal of light skin globally. With its comparative, international focus,

this enlightening book will provide innovative insights and expand the dialogue around race and gender in the social sciences, ethnic studies, African American studies, and gender and women's studies.

The All-American Skin Game, Or Decoy of Race Stanley Crouch,1997-01-14 In this brilliantly acerbic collection of essays--a New York Times Notable Book in 1995--Stanley Crouch confirms that he is one of the most eloquent and unpredictable commentators on race and culture in American society--something already known to anyone who's seen him on 60 Minutes or read his columns in The Village Voice and The New Republic. 288 pp. National media appearances.
