### **Swaminarayan Hinduism** Raymond Brady Williams,Yogi

Trivedi,2016-05-12 Towards the end of the eighteenth century, a lone pilgrim reached Gujarat and joined a small ashram in Loj. In time, his followers not only accepted him as the leader of the ashram but also as the manifestation of deity and called him Swaminarayan. His followers increased rapidly and today Swaminarayan Hinduism is a transnational religious movement with major centers in India, East Africa, UK, USA, and Australasia. In a first multidisciplinary study of the movement, this volume provides new and vital information about its history, theology, as well as its transnational development, and brings forth current academic research from fields as diverse as the arts, architecture, sociology, and migration studies, among others. It analyses the philosophy, conduct, and principles that guide Swaminarayan Hindus and provides a case study of the historical and social processes of adapting religious traditions to shape new identities in response to evolving social, economic, and political changes.

### Anthropological Perspectives on the Religious Uses of Mobile

Apps Jacqueline H. Fewkes,2019-10-10 This edited volume deploys

digital ethnography in varied contexts to explore the cultural roles of mobile apps that focus on religious practice and communities, as well as those used for religious purposes (whether or not they were originally developed for that purpose). Combining analyses of local contexts with insights and methods from the global subfield of digital anthropology, the contributors here recognize the complex ways that in-app and on-ground worlds interact in a wide range of communities and traditions. While some of the case studies emphasize the cultural significance of use in local contexts and relationships to pre-existing knowledge networks and/or non-digital relationships of power, others explore the globalizing and democratizing influences of mobile apps as communication technologies. From Catholic confession apps to Jewish Kaddish assistance apps and Muslim halal food apps, readers will see how religious-themed mobile apps create complex sites for potential new forms of religious expression, worship, discussion, and practices.

The Hindu Religious Year M. Underhill, 2015-06-02 Excerpt from The Hindu Religious Year A few years ago I published a small book under the name of The Hindu Year: a Primer on the Hindu Calendar of Maharashtra. It consisted of the Calendar which forms Chapter VII of the present book, with very short comments in the form of footnotes. It was pointed out by several readers at the time that there was room for a much fuller book on the same subject, which, while dealing in detail with customs in Maharashtra, should describe the festivals common to the whole of Hindu India, and so prove useful to a much wider circle. An attempt to do this has been made in the present book. A mere list of feasts is unsatisfactory. Some attempt to trace customs back to their sources is necessary. The study of Anthropology in India still leaves large fields untouched, and much yet remains to be done. But in Chapters III to VI, the existing feasts have been related in

each case to what I believe to be their origins, whether Sun worship with resultant Seasonal feasts. Moon worship with resultant Monthly feasts. Planet worship, the worship of Siva and Vishnu, or the worship of Animistic deities. Chapter I deals with the Hindu method of reckoning time, Chapter II with Auspicious and Inauspicious seasons, while Chapter VIII applies only to Maharashtra, being a list, with notes, of the principal Religious Fairs of the country. Dr. Ved Prakash,

Hanuman Prasad Poddar : An Exalted Divinity O.P.

Gupta,2018-08-19 You are holding in your hands the first book containing an authentic biography of two greatest divinities of this country about which people are not well acquainted. It contains a unique account not found elsewhere about the actual meetings of Bhaijee—Shri Hanuman Prasad Poddar with Lord Vishnu in 1927 at Jasidih in front of several gentlemen and again in Gorakhpur. Second important event is the exclusive appearance of saint Narad and great sage Angira in front of Bhaijee in 1936. Conversation of Bhaijee with a Parsee ghost would certainly convince readers about the importance of Shraddh to be performed after one's death. Bhaijee was not only a true saint and social reformer but was also involved in independence movement of India. Founder editor of famous 'Kalyan'; Bhaijee did herculean efforts to translate

rare and ancient scriptures like Ramayana & Mahabharat from Sanskrit to Hindi and made them available to everyone at very nominal price. Bhaijee showed an evidence for a brightest identity of the sweet love towards Radha-Krishna and explored its feasibility to achieve it with an utmost simplicity through his discourses and texts. He did an extraordinary campaign for divine name and religious devotion (Bhakti) amidst general public. Inclusion of a short biography of another divinity—Sethji Shri Jaidayal Goyandka is another feature of this seminal book. The credit for establishment of Gita Press in Gorakhpur; Govind Bhawan in Kolkata; Gita Bhawan of Swargashram at Rishikesh and Rishikul Ashram in Churu including a unique; authentic and excellent commentary on Gita goes to him only.

### **A SEARCH IN SECRET(SACRED)HINDUISM**

t.s.viswanathan,2014-06-16 An Introduction: The purpose of writing the book is to provide a brief idea and knowledge about the various Vedic religious, rituals, practices,science, mathematics, beliefs prevalent in Hinduism. In short, to reveal the secrets of Hinduism. In India one should know that there were the intellectuals like rishis and saints and also tribals. The rishis and seers gave the written form of Vedas, Vedangas, languages, sciences, and all forms of knowledge. Sages and seers developed all faculties for Human knowledge, right from medicine to maths, philosophy, physics, astronomy and so on. The concept of re incarnation was one of the highest secrets of Hinduism and followed subsequently by other eastern religions.Though all were in pure Sanskrit it formed the base for the entire world to

accelerate their development in all spheres of life. These were all introduced by seers in India through spirituality obtained from incessant meditation. The core practice is meditation. Since tribals living in India were accepted into the Hindu fold their practice still continues though reforms by Shankaracharya had its impact. These tribal practices were commonly criticized as a practice of Hinduism by westerners and other foreigners which is not true. Hinduism allowed their system also to flourish without much intervention. This book shall serve as an eye opener to all especially the younger generation who in the midst of their busy work may not have sufficient time to go deep into the Vedas and realize them. In whatever permissible context I have quoted the relevant portions of the Vedas and other texts to substantiate the authority of the writing. This book has also been written keeping in mind the innumerable NRI families and other foreigners belonging to various religions and cultures, across the globe, who would like to know about Hinduism and its secrets, and who at the same time have not been much exposed to its vast culture. Attempt has been made to analyse every topic to its semantics and explain to the reader for his understanding. Though India is divided by its language it is united by its culture which is Hinduism. However it must be noted that all Indian languages have their base in Sanskrit. The culture of religion was introduced by those ancient seers through epics, puranas emanating from the Vedas. Thus this culture is being experienced by the people in India called as Hindus. Hinduism has been a very tolerant society and over a period of civilizations has assimilated and welcomed many diverse cultures. Hinduism is not a religion in the strict modern sense, but is a composite culture. People living on the other side of river Sindhu were called as Hindus by the Persians (modern Iran) as they shared a common border with the ancient India (now in the region of West Pakistan). In the ancient Persian language they did not have phonetics or syllable for “sa or saa”, hence instead of being called as Sindhus they called as Hindus. “The swastika the

early symbol of Hinduism has been widely found in Neolithic European ruins during the past two centuries of archaeological excavations. This has convinced scholars during Past and present that prehistoric Europeans practiced an early form of Hinduism with high spiritual concepts of eternal soul, transmigration, karma, yoga, the third eye and the Nirvana” says Richard Cassaro, Journalist and speaker. Most of us living in the modern age, especially the younger generation , would not have a holistic idea of the practices, science and technology prevalent in this culture especially from vedic times, and therefore this book is an attempt to impart and reveal in a nutshell of the wide beneficial practices prevalent in this ancient culture for the welfare of Humanity.

Story of an Era Told Without Ill-will M K K Nayar,2014-02-24

The author, M K K Nayar's impressionable childhood, schooling and university years began in early 1920s - the most turbulent period of India's independence struggle. Aftergraduating in 1940 and spending two years in Travancore Civil Service, M K K Nayar joined the Ordnance Department of British India in Hyderabad. During this phase of his career, he risked his life more than once to bring nefarious going-ons in the princely state of Hyderabad to the attention of national leaders like Sardar Vallabhai Patel and defuse conspiracies that were jeopardizing India's national interests. In 1948, M K K Nayar joined the IAS and was involved prominently in India's national development - notably in building the Bhilai Steel

Plant and fertilizer plants that also seeded several other industries in the Cochin Industrial Belt, and by propagating modern agriculture throughout South India. His friendship and intimacy with national leaders like Pandit Jawaharlal Nehru, illustrious civil servants like V P Menon, industrialists like J R D Tata and innumerable opinion-leaders all over India gave him a ringside view of and insider information on some the most important and interesting episodes of Indian history until mid 1970s. !Destiny took him to Kerala in 1959 to head India's pioneer fertilizer company, The Fertilisers And Chemicals Travancore Ltd (FACT) which he developed into a multifaceted organization that grew over twenty-fold during the decade of his tenure in it. This period that ended in 1971 also found him raising Kathakali, one of the most stylized forms of mime dance-drama from a destitute existence on the fringes of Kerala's social milieu to the forefront of international recognition. Success in everything he did even outside of his vocation, from resolving political imbroglios to promoting art and literature, took him to the forefront of life in Kerala and the national capital. Jealousies it aroused resulted in court cases being instituted against him on frivolous charges and they took 12 years for him to be fully exonerated. In that time, India lost the services of one of its ablest go-getters during what should have been his peak years. !Between June 1986 until his premature passing away in September 1987, he penned a series of articles about his life and times. It was serialized under the title of Aarodum Paribhavamillathe, Oru Kalaghattathinte Katha in the popular Malayalam weekly, Kala Kaumudi. It was later published as a book which became a big hit with Malayali readers and is printed and published even now. !M K K Nayar emphasizes that this was not an autobiography but an attempt to share without bitterness or ill-will some of his experiences and the joy, pain and terrible sadness they brought him. The renowned historian, author and academician, M G S Narayan says that M K K Nayar's 'memoirs did not get the due recognition it deserved' and acknowledges

it as a &quote;historical chronicle of pre and post independent India&quote;. !The book has been translated into English by Gopakumar M Nair, who was an executive of FACT during a part of M K K Nayar's tenure there. Though Gopakumar is a popular amateur writer from his college days in IIT Madras, this translation named The Story of an Era, Told Without Ill-will is his first book.

*The Great Mathematicians of Bharat* Partha Pratim Ray ,2023-12-20 The Great Mathematicians of Bharat emerges as a seminal work, aligning perfectly with the vision of the National Education Policy (NEP) 2020, which emphasizes the integration and appreciation of Indian Knowledge Systems (IKS) in contemporary education. This book meticulously documents the rich legacy of India's mathematical geniuses, serving as a crucial resource in rekindling interest and respect for Bharat's profound mathematical traditions. It underscores the symbiotic relationship between cultural ethos and scientific inquiry, highlighting how Indian mathematicians not only contributed to the field of mathematics but also how their work was deeply interwoven with Hindu spiritual and cultural practices. By chronicling the journey from ancient sages to modern masters, the book provides a comprehensive view of the evolution of mathematical thought in Bharat, thus fulfilling NEP 2020's objective of integrating indigenous knowledge with modern academic frameworks. In doing so, it not only educates but also inspires, setting a precedent for future academic endeavours to explore and celebrate India's rich intellectual heritage.

Babylonian Horoscopes Francesca Rochberg, 1998 Emerging for the first time in the 5th cent. B.C., horoscopes reflect the application of the idea and practice of celestial divination to the life of the individual. Whereas an omen focuses on a single astronomical phenomenon, the horoscope takes into account the positions of the moon, sun, and five planets at the moment of a birth. As such, Babylonian horoscopes presuppose the concept of the ecliptic and a methodology for obtaining the positions of heavenly bodies when they are not observable. This is the first complete edition of the extant cuneiform horoscopes -- with transcription and philological and astronomical commentary. This study offers a systematic description of the documents as a definable class of Babylonian astronomical/astrological texts.
