*Chinese Entrepreneurship* Fu-Lai Tony Yu, Diana S. Kwan, 2015-07-24 After more than 30 years of reformations in agriculture, manufacturing and trade and industry, China's economy has grown to become the second largest in the world. This book examines the contributions of dynamic entrepreneurs to the economic development of mainland China and Hong Kong – an analysis that is largely lacking in existing studies China's economic stronghold. This book adopts theories of entrepreneurship and market processes as major analytical frameworks to conclude that entrepreneurship is the true engine of growth in mainland China and Hong Kong. *Chinese Entrepreneurship* focuses on the knowledge drivers and systemic challenges of these businesses to examine how entrepreneurs under uncertainty identify and pursue profit opportunities, and how their efforts have enhanced China's economic dynamics. This book offers vital insight to students, teachers and researchers of Chinese business and economics, along with Chinese culture and expanding economies.

**The Evolving Landscape of Media and Communication in Hong Kong** Yu Huang, Yunya Song, 2019 Over the last twenty years Hong Kong society has witnessed dramatic change, and nowhere is this better reflected than in the realm of media and communications. Across the fields of journalism, public relations and advertising, we can see the changing trends in terms of audience consumption and interaction. From technological developments to the shift in audience participation, the expectations and functions of these professions have been greatly altered. While many of these changes are occurring worldwide, within Hong Kong the processes of change have been further complicated by recent social and political events. Through a selection of essays by field experts, this volume explores the evolution of media itself as well as the complex causes underlying these developments. It identifies not only the difficulties and opportunities for media professionals today, but also the evolving role of the audience.

**Hong Kong Society** Stephen WK Chiu, Kaxton YK Siu, 2022-02-23 This book borrows the concept of “high-definition” from digital broadcasting to highlight our unique approach to Hong Kong society, which gives a sharper image than analyses. It intends to highlight contrasts with many common and taken-for-granted stories, myths and representations of Hong Kong— which often presented with a low level of detail, lacking proper connections between grounded personal experiences and the macro social context. With chapters covering various salient dimensions of Hong Kong's society, including migration, economy, inequality, identity and social movements, our “high-definition” approach presents images with high enough “resolution” to match multiple layers of experiences from walks of life of Hong Kong people, contributing to an understanding of how global transformation impacts local people's experiences, as well as Hong Kong's significance in the regional and global system.

Securitization of the Umbrella Movement in Hong Kong Cora Y.T. Hui, 2019-07-05 In recent years, the city many hoped would help democratize China has instead become a research setting in which to study China's increasing intolerance of dissent. Since Hong Kong's return to Chinese sovereignty in 1997, China's treatment of Hong Kong could be divided into three stages: non-intervention, intervention, and securitization. If the July 1 march in 2003 is a watershed that marked Beijing's change from non-intervention to intervention, this book suggests that the Umbrella Movement in 2014 is another watershed that marked Beijing's change from intervention to securitization. This book is a theoretically driven case study of the Umbrella Movement, a massive sit-in that paralyzed key business and retail districts for 79 days in Hong Kong in 2014. Many Hongkongers believe that they have the right to a fair election of the chief executive, and Beijing's insistence on vetting candidates prompted the outbreak of the Umbrella Movement. Drawing insights from the securitization theory and fear appeal literature, the book proposes the framework of “security appeal.” It argues that the outbreak of the Umbrella Movement resulted from a premature use of hard repression, that is, before the government convinced the general public that the Umbrella Movement was a threat. The eventual successful securitization entails a general acceptance of the threatening nature of the Umbrella Movement and agreement with its crackdown. This book concludes that one of the consequences of the securitization of the Umbrella

Movement is Beijing's eventual switch to the policy of "patriotocracy" – a system that allocates power and resources based on one's professed patriotism – in lieu of One Country, Two Systems. The policy implications and theoretical and methodological contributions of this book will be of interest to scholars and students of security studies; Chinese politics; and various social science disciplines, including political science, psychology, criminology, and sociology.

**Traditional Chinese Medicine—Professionalization and Integration in Hong Kong** Kara Chan & Dong Dong, 2019-04-01 Chinese medicine has a rich history that has only been made more complex by its integration with "Western" biomedicine. Legitimization of Chinese medicine in biomedicine-dominated health systems, such as that in Hong Kong, has posed significant issues. This anthology of articles explores relevant social issues related to various Chinese medicine treatments, including acupuncture and medicinal oils, as well as insight into practitioner licensing and public perception. Each chapter tackles a topic related to the complicated process of legitimizing knowledge and power within a specific social and historical context. Written by professors and researchers with extensive knowledge of Chinese medicine, government regulation, and sociology, this collection provides an overview of the challenges and current social context of Chinese medicine that affect students and practitioners of Chinese medicine, health and para-health biomedical professionals, and patients alike. Traditional Chinese Medicine: Professionalization and Integration in Hong Kong is the first book in the Mediated Health Series, which focuses on the effects of media, lifestyle, doctor-patient communication, and the economy on health and aims to help inform medical decisions and enhance the wellbeing of individuals. This well-researched book provides deep insight into the landscape of traditional Chinese Medicine (CM), focusing on ethnic and esoteric interpretations of "Chinese" and "Western" medicine. The discussion of legitimation and perception, acupuncture, and hybridization and integration of CM provides a unique contribution into the domain. CM academics, enthusiasts, and practitioners will certainly find this book insightful, compelling, and intriguing. – Prof Ian Phau, School of Marketing, Curtin Business School

**Women in the Hong Kong Police Force** Annie Hau-Nung Chan, Lawrence Ka-Ki Ho, 2017-11-29 This book examines the development of women in the Hong Kong Police Force (HKP) over the past 68 years, beginning from the early colonial years when calls to include women in law enforcement first emerged, to the recruitment of the first female sub-inspector in 1949, and through to the current situation where policewomen constitute 15% of the total HKP establishment. What accounts for these developments and what do they tell us about organisational culture, gender and colonial policing? This interdisciplinary work is relevant to fields including women's studies, gender studies, policing studies, criminology, colonial history, sociology, and

organisational studies, and will appeal to academics, students and lay readers interested in the development of women in policing.

**Regulating Information Asymmetry in the Residential Real Estate Market** Devin Lin, 2017-07-06 This book conducts a detailed examination of the current form of the Hong Kong residential property regulatory system: the 2013 Residential Properties (Firsthand Sales) Ordinance (Cap 621). The author sheds light on how the new legislation promotes a number of values including information symmetry, consumer protection, the free market and business efficacy. It provides a detailed account of how the regulatory mechanism has evolved over the past three decades to catch unconscionable sales tactics (such as selective information and/or misrepresentation of location, size, completion date and past transactions) and monitor sales practices in order to protect the interests of stakeholders in this ever-changing first-hand residential property market. This book breaks down this complicated subject matter by focusing a number of chapters each on a specific attribute of the residential property on sale. It then examines the various channels through which the information is communicated to the prospective buyer and discusses misrepresentation of the key information in sales of residential properties as criminal liability. The tension between consumer's rights on one hand and the pursuit of free market principles on the other is but one example of the conflicting values thoroughly discussed in the book, others include superstition vs. modernization and clarity vs. flexibility. Aimed at those with an interest in consumer protection and transparency-orientated legislation in commercialized real estate transactions, this book seeks to provide an in-depth discussion of the latest trends and directions of travel.

**China's New United Front Work in Hong Kong** Sonny Shiu-Hing Lo, Steven Chung-Fun Hung, Jeff Hai-Chi Loo, 2019-07-15 This book explores the dynamics of China's new united front work in Hong Kong. Mainland Chinese penetrative politics can be seen in the activities of local pro-Beijing political parties, clans and neighborhood associations, labor unions, women and media organizations, district federations, and some religious groups. However, united front work in the educational and youth sectors of civil society has encountered strong resistance because many Hong Kong people are post-materialistic and uphold their core values of human rights, the rule of law and transparency. China's new united front work in Hong Kong has been influenced by its domestic turn toward "hard" authoritarianism, making Beijing see Hong Kong's democratic activists and radicals as political enemies. Hong Kong's "one country, two systems" is drifting toward "one country, two mixed systems" with some degree of convergence. Yet, Taiwan and some foreign countries have seen China's united front work as politically destabilizing and penetrative. This book will be of use to scholars, journalists, and observers in other countries seeking to reckon with Chinese influence.

**New Hong Kong Cinema** Ruby Cheung, 2015-11-01 The trajectory of Hong Kong films had been drastically affected long before the city's official sovereignty transfer from the British to the Chinese in 1997. The change in course has become more visible in recent years as China has aggressively developed its national film industry and assumed the role of powerhouse in East Asia's cinematic landscape. The author introduces the "Cinema of Transitions" to study the New Hong Kong Cinema and on- and off-screen life against this background. Using examples from the 1980s to the present, this book offers a fresh perspective on how Hong Kong-related Chinese-language films, filmmakers, audiences, and the workings of film business in East Asia have become major platforms on which "transitions" are negotiated.

**Studying Hong Kong: 20 Years Of Political, Economic And Social Developments** Kong Tuan Yuen, Lim Tai Wei, 2018-04-27 This book captures the essence of Hong Kong's development in the past two decades from 1997 to 2017. It is broken into four parts -- economics, society, politics and culture. Hong Kong's role remains as a gateway for global trading houses, businessmen, investors and traders. Hong Kong continues to be an open economy and has stuck to free trade policies, as one of the former four successful tiger economies in East Asia. In the political and international relations realm, this book examines Hong Kong's relations with China, other major powers and the world at large. It also covers domestic developments, including legal developments. Other chapters in the book examine cultural developments in Hong Kong from specific case studies of

iconic animation character to trans-boundary popularity of Hong Kong popular culture in China. With contributions from Alvin CAMBA, Henry CHAN, Yoshihisa GODO, Wing Lok HUNG, Sean KING, Tuan Yuen KONG, Tai Wei LIM, Carol MA, Samantha MA, Parama SINHA PALIT, Zhengqi PAN, SIM Japanese Culture and Gaming Society, Hiroshi TAKAHASHI, Ghim Yeow TAN, Katherine TSENG, Elim WONG, Kai Keat YEO and Chun Wang YEUNG, this book provides a snapshot of Hong Kong in the past twenty years and is a fascinating read. Contents: Readership: This book is intended for students as well as professionals and the general public interested in understanding Hong Kong culture, history and politics. Keywords: Hong Kong;China;East Asia;;1997;Economic;PoliticsReview: Hong Kong is often referred to as a crossroad of the East and West. However, Hong Kong is not merely an intersection of China and the Western world, but has unique history and culture. When I started learning Cantonese in Tokyo, many other students who were similarly motivated were from an older generation than me, and interested in Hong Kong films. This is proof that Hong Kong shown on the screen attracted the Japanese audience as a unique city. Hong Kong has been depicted as a city that is 'exotic' and 'chaotic' in popular media in Japan and the West. Of course, it is certain that orientalism of Japan and the West is present. However, what promotes such imagination and description seems to be the 'freedom' that Hong Kong possesses. I am particularly interested in how this free and somehow chaotic atmosphere of Hong Kong, 20 years after the handover of sovereignty, will generate new culture and evoke our new imagination. I recommend this publication to readers who want to better understand Hong Kong in all its facets and from different perspectives. Masakazu MATSUOKA Hitotsubashi University Key Features: The book is timely as it deals with a topic that is in the news in 2017. The future of Hong Kong has been debated and scrutinized intensely since the 2014 Occupy Central and 2012 National Education protests. Since then, Hong Kong has been forging a new relationship with a new administration in Beijing It has regional and international implications. Hong Kong's One Country Two Systems served as a model for possible reunification with Taiwan. Regionally, observers are using Hong Kong as a barometer for the future of Chinese governance. Internationally, Hong Kong's international financial center makes it an important node in the globalized world Very often, Hong Kong's popular culture is left out of academic analyses on the city state. There are macro and micro case studies examined by different scholars in this publication and they explain the popularity of Hong Kong popular cultural characters like the animation McDull and also classic cop films that resonate with an East Asian and even international audience The diversity of scholars in this volume makes

Energy Transitions in Japan and China Tai Wei Lim,2016-11-23 This volume focuses on the topic of energy transitions in the coal mining industries of China and Japan by adopting a Sino-Japanese comparative approach in area studies to examine the experiences between the two major East Asian economies. In China, rapid industrialization led to dramatic growth in energy demand and much of this energy demand was fueled by affordable coal energy. With growing social concerns about the environment and an increasingly vocal middle class in contemporary China, the authorities and state-owned enterprises are studying the use of coal fuels for its future development. In Japan, coal was also an affordable main source of energy for Japan's early post-war heavy industrialization until it was gradually replaced by oil in the 1960s. The oil shocks of the 1970s compelled Japan to look for cleaner and cheaper fuels, including nuclear power. In these energy transitions from coal to oil and then onto non-fossil fuels, the story of coal power in both countries is highlighted in this publication as a comparative study. This volume is a crucial contribution to the discussion of China's energy reforms, and required reading for scholars of climate change and society.

The Sports Development of Hong Kong and Macau Brian Bridges,Marcus P. Chu,2019-10-23 China's sports history and its contemporary role in the global sporting community have become well-known, but the sporting history and development of China's two Special Administrative Regions – Hong Kong and Macau – have not received the coverage they deserve either in their historical contexts or since the handovers of control to the People's Republic. By drawing on a multi-national group of scholars and practitioners, this volume makes a unique contribution to the understanding of sports

development in greater China. The essays in this anthology examine the evolution of key sports, the hosting of sporting mega-events, the nexus of sports and politics, identity issues, and the role of sporting diplomacy. The chapters provide not only an analysis of colonial legacies but also in-depth accounts of the challenges to and outcomes of sports development in Hong Kong after 1997 and Macau after 1999. The chapters in this book were originally published in various special issues of The International Journal of the History of Sport.

**Catholics and Everyday Life in Macau** Chen Hon-Fai, 2017-03-16 Catholicism has had an important place in Macau since the earliest days of Portuguese colonization in the sixteenth century. This book, based on extensive original research including in-depth interviews, examines in detail the everyday life of Catholics in Macau at present. It outlines the tremendous societal pressures which Macau is currently undergoing – sovereignty handover and its consequences, the growth of casinos and tourism and the transformation of a serene and somewhat obscure colony into a vibrantly developing city. It shows how, although the formal structures of Catholicism no longer share in rule by the colonial power, and although formal religious observance is declining, nevertheless the personal piety and ethical religious outlook of individual Catholics continue to be strong, and have a huge, and possibly increasing, impact on public life through the application of personal religious ethics to issues of human rights and social justice and in the fields of education and social services.

*Evaluation of the C. Y. Leung Administration* Joseph Yu-shek CHENG, 2020-06-01 Did C. Y. Leung achieve his goals? Did he perform his duty to the Hong Kong people as their third Chief Executive? To answer these questions, this book presents a rational, research-based critique of the C. Y. Leung Administration (2012 - 2017). It is a sweeping and original publication that covers various aspects of governance, including politics, economics, healthcare, human rights, civil service, housing, urban planning, youth, and Legislative Council elections as well as Hong Kong's relationships with Taiwan, Mainland China, and Western countries. Written by a team of expert authors from various fields, this book is one of the first comprehensive academic discourses on the issues this administration faced while in office. The first chapter sets the tone of the book, with the subsequent chapters providing additional details confirming the general conclusions of the authors concerning the C. Y. Leung Administration. Written for scholars and community members interested in Hong Kong governance, this anthology presents a complex and comprehensive critique of one specific Chief Executive's period of influence and how his administration's policies still affect the Hong Kong community today.

*Identity, Trauma, Sensitive and Controversial Issues in the Teaching of History* Hilary Cooper, Jon Nichol, 2015-10-13 History Education is a politically contested subject. It can be used to both promote xenophobia and to develop critical thinking, multiple perspectives, and tolerance. Accordingly, this book critically examines complex issues and constructivist approaches that make history relevant to students' understanding of the modern world. As such, it has global appeal especially in North and South America, Canada, Europe and Asia. The book's authors address the major challenges that History Education faces in an era of globalisation, digital revolution and international terror, nationalism and sectarian and religious conflict and warfare. Central to this volume are controversial issues, trauma, and questions of personal and national identity from a wide range of international settings and perspectives. The research in this book was undertaken by leading history educators from every continent. Their interdisciplinary research represents an important contribution to the teaching of social sciences, social psychology, civic education programmes, history and history education in schools, colleges and universities. The book offers new approaches to history educators at all levels. In addition, the chapters offer potential as required reading for students to both develop an international perspective and to compare and contrast their own situations with those that the book covers. Section I considers issues related to identity; how can history education promote social coherence in multicultural societies, in societies divided by sectarianism, or countries adapting to regime changes, whether Communist or Fascist, including, for example, South Africa, previously Communist countries of Eastern Europe, and previous dictatorships in South America and Western Europe. It discusses such questions as: How important is it that

students learn the content of history through the processes of historical enquiry? What should that content be and who should decide it, educators or politicians? What is the role of textbooks and who should write and select them? Should history be taught as a discrete discipline or as part of a citizenship or social sciences curriculum? Sections II and III explore ways in which memory of sensitive issues related to the past, to war, or to massacres may be addressed. Are there new methodologies or approaches which make this possible? How can students understand situations involving intolerance and injustice?

The Constitutional System of the Hong Kong SAR Albert H Y Chen, Po Jen Yap, 2023-08-17 This book provides an account of the evolving constitutional arrangement known as "One Country, Two Systems", as practised in the Hong Kong Special Administrative Region of the People's Republic of China (PRC). The British colony of Hong Kong, one of the "Four Little Dragons" of East Asia, reverted to Chinese rule in 1997. Since then, Hong Kong has continued to be an international financial centre, a free market, and a cosmopolitan city. At the same time, the tensions and contradictions inherent in "One Country, Two Systems" have given rise to constitutional controversies and social movements, culminating in the Umbrella movement of 2014, the anti-extradition law movement of 2019, the enactment of a National Security Law in 2020, and the electoral overhaul of 2021. This book discusses the structure and operations of Hong Kong's legal, judicial and political systems and their interactions with the national authorities of the PRC. The book provides a useful case study in comparative constitutional law, especially on autonomy and devolution issues within sovereign States. This comparative study is particularly interesting because Hong Kong is a common law jurisdiction within the PRC's socialist legal system. It will therefore be of interest to students and scholars of Chinese law, Hong Kong law and comparative politics, as well as lawyers whose practice involves Hong Kong.

Covering the 2019 Hong Kong Protests Luwei Rose Luqiu, 2021-09-11 This book explores the impact of governmental, institutional, and individual factors on journalists covering protests, using the 2019 Hong Kong Anti-Extradition Bill Movement as a case study. The discussion surveys the challenges frontline journalists have faced while covering protests that unfolded in complex and rapidly evolving geopolitical contexts and media ecologies. Complementing this is an analysis of the Chinese government's efforts to suppress social movements by curtailing press freedom to silence criticism of the government and keep information about the protest efforts from the public. Separate chapters explore these issues from the perspectives of the citizen journalists, student journalists, and independent journalists who have played key roles in the most recent social movements in Hong Kong. It concludes with a look at the future of press freedom in the city after the passage of the National Security Law.
