Vincent Risoli-Black

**WRONG TURN: The Fifth Season of Love** Vincent Risoli-Black,2010-09-23 Using the Bible (especially the Gospels) as a source of consolation for the believed potential devastation that would result in the Wrath of God once seen imminent through Global Warming, one is led through by the author to view positive signs of God’s mercy and a new City of God that the Bible promises in Revelations. The dolphins trapped in our rivers were our delight as we witnessed the twists and turns brought upon life through our eco-systems and society. Also a film-maker, Risoli-Black details this additional dialog in the novel with anecdotes and criticisms of films of the fifties, sixties and seventies when one had choices of decent role models with ideal standards, not idols that led away from God. **WRONG TURN: The Fifth Season of Love** is a novel of true events where the townsfolk are the heavies that recall plots like Peyton Place and Town Without Pity. Also includes the novella, “The Song of the Bow” about the love between Jonathan and David, a love greater than the love of women.

**4 3 2 1** Paul Auster,2017-01-31 \* \* \* Shortlisted for the Man Booker Prize \* \* \* Named a Best Book of the Year by The Washington Post, The New York Times Book Review, NPR, The Globe and Mail, Kirkus Reviews, Huffington Post, and The Spectator UK “An epic bildungsroman . . . . Original and complex . . . . A monumental assemblage of competing and complementary fictions, a novel that contains multitudes.”—Tom Perrotta, The New York Times Book Review “A stunningly ambitious novel, and a pleasure to read. . . . An incredibly moving, true journey.”—NPR New York Times Bestseller, Los Angeles Times Bestseller, Boston Globe Bestseller, National Indiebound Bestseller Paul Auster’s greatest, most heartbreaking and satisfying novel—a sweeping and surprising story of birthright and possibility, of love and of life itself. Nearly two weeks early, on March 3, 1947, in the maternity ward of Beth Israel Hospital in Newark, New Jersey, Archibald Isaac Ferguson, the one and only child of Rose and Stanley Ferguson, is born. From that single beginning, Ferguson’s life will take four simultaneous and independent fictional paths. Four identical Fergusons made of the same DNA, four boys who are the same boy, go on to lead four parallel and entirely different lives. Family fortunes diverge. Athletic skills and sex lives and friendships and intellectual passions contrast. Each Ferguson falls under the spell of the magnificent Amy Schneiderman, yet each Amy and each Ferguson have a relationship like no other. Meanwhile, readers will take in each Ferguson’s pleasures and ache from each Ferguson’s pains, as the mortal plot of each Ferguson’s life rushes on. As inventive and dexterously constructed as anything Paul Auster has ever written, yet with a passion for realism and a great tenderness and fierce attachment to history and to life itself that readers have never seen from Auster before. 4 3 2 1 is a marvelous and unforgettably affecting tour de force.

**Navigating Souths** Michele Grigsby Coffey,Jodi Skipper,2017-08-01 The work of considering, imagining, and theorizing the U.S. South in regional, national, and global contexts is an intellectual project that has been going on for some time. Scholars in history, literature, and other disciplines have developed an advanced understanding of the historical, social, and cultural forces that have helped to shape the U.S. South. However, most of the debates on these subjects have taken place within specific academic disciplines, with few attempts to cross-engage. Navigating Souths broadens these exchanges by facilitating transdisciplinary conversations about southern studies scholarship. The fourteen original essays in Navigating Souths articulate questions about the significances of the South as a theoretical and literal “home” base for social science and humanities researchers. They also examine challenges faced by researchers who identify as southern studies scholars, as well as by those who live and work in the regional South, and show how researchers have responded to these challenges. In doing so, this book project seeks to reframe the field of southern studies as it is currently being practiced by social science and humanities scholars and thus reshape historical and cultural conceptualizations of the region. **Why Startups Fail** Tom Eisenmann,2021-03-30 If you want your startup to succeed, you need to understand why startups fail. “Whether you’re a first-time founder or looking to bring innovation into a corporate environment, Why Startups Fail is essential reading.”—Eric Ries, founder and CEO, LTSE, and New York Times bestselling author of The Lean Startup and The Startup Way Why do startups fail? That question caught Harvard Business School professor Tom Eisenmann by surprise when he realized he couldn’t answer it. So he launched a multiyear research project to find out. In Why Startups Fail, Eisenmann reveals his findings: six distinct patterns that account for the vast majority of startup failures. • Bad Bedfellows. Startup success is thought to rest largely on the founder’s talents and instincts. But the wrong team, investors, or partners can sink a venture just as quickly. • False Starts. In following the oft-cited advice to “fail fast” and to “launch before you’re ready,” founders risk wasting time and capital on the wrong solutions. • False Promises. Success with early adopters can be misleading and give founders unwarranted confidence to expand. • Speed Traps. Despite the pressure to “get big fast,” hypergrowth can spell disaster for even the most promising ventures. • Help Wanted. Rapidly scaling startups need lots of capital and talent, but they can make mistakes that leave them suddenly in short supply of both. • Cascading Miracles. Silicon Valley exhorts entrepreneurs to dream big. But the bigger the vision, the more things that can go wrong. Drawing on fascinating stories of ventures that failed to fulfill their early promise—from a home-furnishings retailer to a concierge dog-walking service, from a dating app to the inventor of a sophisticated social robot, from a fashion brand to a startup deploying a vast network of charging stations for electric vehicles—Eisenmann offers frameworks for detecting when a venture is vulnerable to these patterns, along with a wealth of strategies and tactics for avoiding them. A must-read for founders at any stage of their entrepreneurial journey, Why Startups Fail is not merely a guide to preventing failure but also a roadmap charting the path to startup success.

**Glitterbomb #3** Jim Zub,2016-11-09 I GAVE HIM A PIECE OF MY MIND... Fan-favorite JIM ZUB (WAYWARD, Thunderbolts) and newcomer DJIBRIL MORISSETTE-PHAN tear into the heart of Hollywood in GLITTERBOMB, a dramatic horror story about fame and failure.

*From Fairy Tale to Film Screenplay* Terence Patrick Murphy,2015-09-15 In Screenplay: The Foundations of Screenwriting (1979), Syd Field first popularized the Three-Act Paradigm of Setup, Confrontation and Resolution for conceptualizing and creating the Hollywood screenplay. For Field, the budding screenwriter needs a clear screenplay structure, one which includes two well-crafted plot points, the first at the end of Act I, the second at the end of Act II. By focusing on the importance of the four essentials of beginning and end, and the two pivotal plot points, Field did the Hollywood film industry an enormous service. Nonetheless, although he handles the issue of overall structure expertly, Field falls down when offering the screenwriter advice on how to successfully build each of the three individual Acts. This is because Field did not recognize the importance of another layer of analysis that underpins the existence of plot points. This is the level of the plot genotype.This book will offer you a richer theory of plot structure than the one Field outlines. It will do this not by contradicting anything Field has to say about the Hollywood paradigm, but by complementing it with a deeper level of analysis. Plot genotypes are the compositional schemas of particular stories. They are sets of instructions, written in the language of the plot function, for executing particular plots. This book outlines the plot genotypes for The Frog Prince, The Robber Bridegroom, Puss-in-Boots, and Little Red Riding Hood and then shows how these genotypes provide the underpinnings for the film screenplays of Pretty Woman, Wrong Turn, The Mask, and Psycho. By means of a detailed study of these four Hollywood screenplays, you will be able to offer a much richer description of what is going on at any particular point in a screenplay. In this way, you will become much sharper at understanding how screenplays work. And you will become much better at learning how to write coherent screenplays yourself.

Racial Stigma on the Hollywood Screen from World War II to the Present Brian Locke,2009-11-23 Racial Stigma on the Hollywood Screen from WWII to the Present charts how the dominant white and black binary of American racial discourse influences Hollywood s representation of the Asian. The Orientalist buddy film draws a scenario in which two buddies, one white and one black, transcend an initial hatred for one another by joining forces against a foreign Asian menace. Alongside an analysis of multiple genres of film, Brian Locke argues that this triangulated rendering of race ameliorates the longstanding historical contradiction between U.S. democratic ideals and white America s persistent domination over blacks.
