**Indian Silver Screen** Dr. Paramveer Singh,2021-08-05 Indian Silver Screen Television in India has been a medium of entertainment as well as social and economic awareness. It was started under government control as a medium of social awareness, but now this medium has become an industry. There was a time when Doordarshan was the only channel on television in India, but today, hundreds of channels broadcast programs day and night. In India today, there are many channels based on sports, news, film, documentary, and music. There was a time when television programs could be viewed only through television sets, but today, through devices such as computers, laptops, and mobiles, viewers can watch their favorite programs at their convenient location, and time. The main objective of this book written on Indian television is to make students aware of the history and status of Indian television. The book begins with the story of the introduction of television in various countries. It describes the development of television in Britain, America, Australia, China, Africa, and other countries of the continent of Asia. After this, the early experiments, projects, and history and current status of television in India are told. Many of the chapters in the book are about the major television business groups in India that have deep penetration into the Indian television industry. The book also introduces programs that have become famous in India, which have proved to be milestones in Indian television history and reached heights of popularity. Apart from this, the book describes the laws of India which have been implemented to control the television industry. A chapter in the book is written about various television broadcasting techniques practiced in the country. Apart from this, there is a chapter about Direct to Home, which tells the story of the development of DTH in India. Television rating points determine the popularity of television channels and programs. The book introduces various agencies and institutions that determine TRP in India. In addition to this, the history of television journalism in India has also been discussed. A chapter about television journalism in various languages of India such as Hindi, Punjabi, Gujarati, Marathi, Tamil,

Telugu, Kannada, Malayalam, Bengali, and Assamese is described in detail. The last chapter of the book discusses various international television channels that are broadcasting in India.

The objective of the book is to give hands-on experience and learning of global retail practices to the students of management studies. Key Features • Thorough coverage of retailing in modern context, including e-retailing • Case-studies, caselets and examples to make students industry-ready • Bullet-point approach for key topics to highlight important information • Graphics to generate students' interest and make learning easy Target Audience • MBA, PGDM and PGPBA • Marketing professionals and trainers

**Big Data and Cloud Computing for Development** Nir Kshetri, Torbjörn Fredriksson, Diana Carolina Rojas Torres, 2017-03-27 This book provides a framework for evaluating big data and cloud computing based on how they evolve to fit users' needs in developing countries in key areas, such as agriculture and education. The authors discuss how this framework can be utilized by businesses, governments, and consumers to accelerate economic growth and overcome information and communication barriers. By examining the ways in which cloud computing can drive social, economic, and environmental transformation, readers gain a nuanced understanding of the opportunities and challenges these technologies offer. The authors also provide an authoritative and up-to-date account of big data's diffusion into a wide range of developing economies, such as Brazil and China, illustrating key concepts through in-depth case studies. Special attention is paid to economic development in the context of the new Sustainable Development Goals formulated by the United Nations, introducing readers to the most modern standard of economic evaluation. Students of information management, entrepreneurship, and development, as well as policy makers, researchers, and practitioners, will find Big Data and Cloud Computing for Development an interesting read and a useful reference source.

The Tip of the Iceberg Suveen K Sinha, 2016-08-16 A wave of entrepreneurship has been sweeping across India. The success of start-ups like Flipkart, Snapdeal, Paytm, Ola and others has veered the discourse towards high valuations. But what we mostly see is very much the tip of the iceberg. Behind every high valuation of today is a story of blood, sweat, toil and tears. For every entrepreneur who has an amazing success story to tell, there are countless others who have fallen by the wayside. The going has often been a far cry from the presumed romance of breaking the mould, disrupting the order and changing the world. It is a desire to change the world that drives successful entrepreneurs, for they alone have the blind passion that is often the difference between success and failure, and they are the ones who love the journey more than the destination. Today, when questions are being asked whether the start-up party is nearing its end, whether we will soon see a rerun of the dot com bust of the early noughties, it is time to remember India's start-up warriors. This is the story of their remarkable journeys. Some found their destination. Some did not.
