**Information Economy Report 2015** United Nations Conference on Trade and Development (UNCTAD),2015-06-19 Electronic commerce (e-commerce) is rapidly transforming the way in which enterprises are interacting among each other as well as with consumers and governments. Despite important potential benefits, businesses and consumers in developing countries were for a long time slow to exploit e-commerce. As a result of changes in the evolving landscape for information and communications technologies (ICTs), this pattern is now changing, and e-commerce is growing rapidly in emerging markets and developing economies. Against this background, this publication revisits the potential opportunities and risks of e-commerce and examines how countries can benefit the most from the phenomenon in today's Information Society. Using official statistics and private sector data, it provides an up-to-date review of global and regional trends related to e-commerce in view of changes in the ICT landscape, focusing on developing countries while drawing lessons from developed countries.

*Krishna Key* Ashwin Sanghi,2022-06-24 Five thousand years ago, there came to earth a magical being called Krishna, who brought about innumerable miracles for the good of mankind. Humanity despaired of its fate if the Blue God were to die but was reassured that he would return in a fresh avatar when needed in the eventual Dark Age-the Kaliyug. In modern times, a poor little rich boy grows up believing that he is that final avatar. Only, he is a serial killer. In this heart-stopping tale, the arrival of a murderer who executes his gruesome and

brilliantly thought-out schemes in the name of God is the first clue to a sinister conspiracy to expose an ancient secret-Krishna's priceless legacy to mankind. Historian Ravi Mohan Saini must breathlessly dash from the submerged remains of Dwarka and the mysterious lingam of Somnath to the icy heights of Mount Kailash, in a quest to discover the cryptic location of Krishna's most prized possession. From the sand-washed ruins of Kalibangan to a Vrindavan temple destroyed by Aurangzeb, Saini must also delve into antiquity to prevent a gross miscarriage of justice. Ashwin Sanghi brings you yet another exhaustively researched whopper of a plot, while providing an incredible alternative interpretation of the Vedic Age that will be relished by conspiracy buffs and thriller-addicts alike.

**What The Ceo Really Wants From You : The 4As For Managerial Success** R. Gopalakrishnan,2012-09-28 There are many books on leadership. What the CEO Really Wants from You is one of the few to address the question that is uppermost in the mind of any manager: What he should be doing to make his or her boss his partner rather than his opponent. We spend most of our lives at work or thinking about it. Starting from a young age, fired by boundless

energy and optimism, we launch into our careers sure of our abilities. Yet, things do not always turn out as we expect they would. It is not our abilities alone. The business environment is one of change and ambiguity. It is no easy task for any manager to negotiate the journey to success. As Paul Polman, CEO of Unilever, points out in his foreword, partnerships with others, but above all with your direct boss and organization, are more important than ever before. Not only that, a good boss has an instinct for the right people, and getting them to do better. A good manager, by eliciting his help, helps himself. Few people are better qualified to guide on this journey than R. Gopalakrishnan. He brings forty-five years of experience to this subject in some of the most challenging jobs. In this immensely practical book informed by the wisdom he has gleaned over the years, he offers the reader the benefit of all he has learnt, summarized in the four As - Accomplishment, Affability, Advocacy and Authenticity. This is a book that will be of immense use to any manager, and one that just might bring him the answers it takes years to find - what the CEO really expects from him.
