Give Me Liberty and Give Me a Drink! C. Jarrett Dieterle, 2020-09-15 “An impassioned case against a senseless system . . . Come for the cocktail recipes, stay for the call to arms.” —Clay Risen, author of *American Whiskey, Bourbon, and Rye* “A potent, thought-provoking mixture of fun and ‘what the hell’ awareness.” —Lew Bryson, author of *Whiskey Master Class* Across this nation, in breweries, liquor stores, bars, and even our own homes, we’re being stripped of our most basic boozy rights. Thanks to Prohibition and its 100-year hangover, some of the most outdated, bizarre, and laughably loony laws still on the books today center around alcohol and how we drink it. In New Mexico, \$1 margaritas are illegal. In Utah, cocktails must be mixed behind a barrier called the “Zion curtain.” And forget about happy hour in Massachusetts—the state banned it in 1984. But we don’t have to stand down and dry up—it’s time to take to liquid protest. Created by the nation’s leading alcohol policy expert, *Give Me Liberty and Give Me a Drink!* combines the thirst-inducing pleasure of trivia with 65 recipes for classic and innovative cocktails. So arm yourself with a mezcal-based One Pint, Two Pint, inspired by Vermont’s ban on beer pitchers, or The Boiling Point, a beer cocktail that is highly illegal in Virginia, and get ready to drink your way to a revolution on the rocks.

A People's History of Heaven Mathangi Subramanian, 2019-03-19 “Everything about *A People's History of Heaven* is wonderful: the lyrical, light touch of the narrator, the story, the humor, and most of all, the girls. Faced with bigotry and bulldozers, these girls know exactly what to do: stick together and help each other learn, love, see, fight. These are girls who save the world.” —Minal Hajratwala, award-winning author of *Leaving India* In the tight-knit community known as Heaven, a ramshackle slum hidden between luxury high-rises in Bangalore, India, five girls on the cusp of womanhood forge an unbreakable bond. Muslim, Christian, and Hindu; queer and straight; they are full of life, and they love and accept one another unconditionally. Whatever they have, they share. Marginalized women, they are determined to transcend their surroundings. When the local government threatens to demolish their tin shacks in order to build a shopping mall, the girls and their mothers refuse to be erased. Together they wage war on the bulldozers sent to bury their homes, and, ultimately, on the city that wishes that families like them would remain hidden forever. Elegant, poetic, and vibrant, *A People's History of Heaven* takes a clear-eyed look at adversity and geography--and dazzles in its depiction of these women's fierceness and determination not just to survive, but to triumph.

Liquid Intelligence: The Art and Science of the Perfect Cocktail Dave Arnold, 2014-11-10 Winner of the 2015 James Beard Award for Best Beverage Book and the 2015 IACP Jane Grigson Award. A revolutionary approach to making better-looking, better-tasting drinks. In Dave Arnold's world, the shape of an ice cube, the sugars and acids in an apple, and the bubbles in a bottle of champagne are all ingredients to be measured, tested, and tweaked. With *Liquid Intelligence*, the creative force at work in Booker & Dax, New York City's high-tech bar, brings readers behind the counter and into the lab. There, Arnold and his collaborators investigate temperature, carbonation, sugar concentration, and acidity in search of ways to enhance classic cocktails and invent new ones that revolutionize your expectations about what a drink can look and taste like. Years of rigorous experimentation and study—botched attempts and inspired solutions—have yielded the recipes and techniques found in these pages. Featuring more than 120 recipes and nearly 450 color photographs, *Liquid Intelligence* begins with the simple—how ice forms and how to make crystal-clear cubes in your own freezer—and then progresses into advanced techniques like clarifying cloudy lime juice with enzymes, nitro-muddling fresh basil to prevent browning, and infusing vodka with coffee, orange, or peppercorns. Practical tips for preparing drinks by the pitcher, making homemade sodas, and building a specialized bar in your own home are exactly what drink enthusiasts need to know. For devotees seeking the cutting edge, chapters on liquid nitrogen, chitosan/gellan washing, and the applications of a centrifuge expand the boundaries of traditional cocktail craft. Arnold's book is the beginning of a new method of making drinks, a problem-solving approach grounded in attentive observation and creative techniques. Readers will learn how to extract the sweet flavor of peppers without the spice, why bottling certain drinks beforehand beats shaking them at the bar, and why quinine powder and succinic acid lead to the perfect gin and tonic. *Liquid Intelligence* is about satisfying your curiosity and refining your technique, from red-hot pokers to the elegance of an old-fashioned. Whether you're in search of astounding drinks or a one-of-a-kind journey into the next generation of cocktail making, *Liquid Intelligence* is the ultimate standard—one that no bartender or drink enthusiast should be without.
