NeuroDancer Austin Dragon,2017-03-31 The Cyberpunk Detective Series Continues to Thrill in NeuroDancer! Liquid Cool is the action-packed (and funny), debut cyberpunk detective series. Has Cruz met his supervillain match in NeuroDancer? Liquid Cool is a Blade Runner meets the Maltese Falcon. He should have listened to his instincts when she strolled into his office to hire him. “I knew I wasn’t gonna touch this case with a 10-foot pole. It had danger written all over it, back and front.” But he did take the Case of the NeuroDancer. Is this the private eye story where the bad “guy” rides off into the sunset and the hero lies flat on his back waiting for the meat wagon to fly down in their hoverambulance. Which is crazier, indeed: the criminal—or the client? Welcome to the high-tech, low-life world of Liquid Cool.

The Ascendant Harrison Smith, 2019-09-27 It is the twenty-third century and Elijah Harms is anything but ordinary. He, the one who has a special connection to light, came to New Haven City after his parents died in a conflict between naturally-born humans and the modified. War, hardship, and being the father figure to his younger siblings has made Elijah feel older than most twenty-year-olds. Despite his challenges, Elijah's spirits are buoyed by his friendships with Honoria Eden and Endre Gran. One day as the three friends gather in the center of the city to hear who has been chosen to join the Sanctum, become a paladin, and push for peace with The Dominion, everything changes in moments. After a sudden attack by unknown forces robs the city of its baron, its peace, and many of its citizens, Elijah soon realizes that the world he once knew no longer exists. After he separates from his injured friends to check on his family, Elijah is pursued by evil mercenaries. He is

their target, but why? When he is unexpectedly saved by the paladin of the Sanctum's infantry unit, Elijah and his friends are led down a path none ever could have imagined. In this futuristic tale, a young man, his friends, and a paladin must band together to combat a group of malicious mercenaries intent on destroying their world.

Mechwarrior: Dark Age #15: Sword of Sedition Loren Coleman, 2005-04-05 Newly elected Exarch Jonah Levin is still trying to come to terms with the responsibilities of his office. With his recent discovery of treachery in The Republic's Senate, he can trust very few people—and not even his own Paladins have been immune to murderous intrigue . . . Tensions are heating up between Exarch Levin and the senators determined to fight what they call the “injustice being done to The Republic's government.” Some are even agitating for Levin's censure—a move that could accomplish the same thing as the recent attempted coup that killed legendary Paladin Victor Steiner-Davion. One of The Republic's last hopes is the summit of Inner Sphere leaders gathering on Terra. Ostensibly a tribute to the assassinated Steiner-Davion, it also has the potential to halt the escalating violence of the last few years. And although Victor would not have wanted his death to be the cause of more political maneuvering, Levin knows that the great man would not begrudge The Republic this one final service. Now, if only it isn't too late . . .

The Throwaways Tony Suits, 2024-02-29 Tom Duvall is number two in Creo Vargas's vast criminal empire in Southern California. Vargas orders a clean sweep of a rival's crack den, but when Tom finds a crack mother nursing her newborn child in the den, he kills his crew to protect her and her child. Before the three of them can get away, two strangers appear—a tattooed blonde surfer and a muscle-bound professor. They have come for Tom. Carla Vega is far from her poor Mexico village. She stays in luxury hotels in Miami Beach and owns a corvette. She also lures young girls into a trade that she was forced into at age thirteen. Lila is just any other little girl, so why does Carla care about her so much that she will risk everything to run with her? Carla's handlers catch them before they can run. Three strangers suddenly appear and prevent her handlers from harming her and Lila, but these same strangers have come for Carla. Reed Elliott wakes up in a strange studio apartment. Was he drugged the previous night? Reed is happy with his life as a meth dealer in Vegas, but has that life led him to this strange apartment? Reed hears voices coming from an air duct of the apartment, voices from a young man named Tom and a young woman named Carla. The Throwaways: Broken Fever is a look at the end times through the eyes of three young adults who have all but rejected the love of Jesus Christ. They are brought to the campus, where they witness supernatural events, are taught about their own unique gifts, and experience God's true love, compassion, and long-suffering nature. They must choose a path, one that could lead to prison, destruction, freedom, or salvation. Whatever their choice, their lives will be changed forever.

But what she must do to accomplish it will test her mettle as a knight—and as a human being. Hunter Mannheim is descended from a long line of military leaders, and feels he must continue the tradition of excellence in service and sacrifice in battle. But what he must sacrifice in the name of duty may be more than he can bear. Kristoff Erbe is a man burdened by shame. His father was a collaborator who

Supercities On, Under, and Beyond the Earth Jeff Dondero, 2020-02-08 As more and more people inhabit the Earth and live longer on it, Super Cities, will explode with populations of 20, 30, even 100 millions or more. But how will these cities accommodate such masses? Who will build them and where? How can they be sustained and their inhabitants provided for? Here, Jeff Dondero imagines the super cities of the future and explores the ways in which they can be sustainably built, how transportation will move masses of people without cars, how people will be fed and where waste will go, and how we will move to cities underground, under the sea, in the atmosphere, into space and on to other planets. It describes some of the smart systems for buildings and homes and some of the new ways food and materials enough for such masses will be supplied. Will super cities be the answer to our bursting population? And if they will, how can we best sustain and supply them? Dondero offers suggestions and a blueprint for the future.
