Moving Pictures Anne Hollander, 1989 Hollander explores the premise that paintings, prints, and movies move us similarly by virtue of their narrative element, which evokes our memories and

feelings. She argues that we respond to the depiction of glimpses of human life, to the realization that we cannot see everything at once, and how the rendering of light and spatial composition translates them and keeps them moving into our awareness. Thus there is a continuum from the paintings and graphic arts of 15th century northern Europe to the proto-cinematic arts of the present. ISBN 0-394-57400-1: \$29.95.

Breasts Ellen Cole, Esther D Rothblum, 2012-09-10 **Breasts: The Women's Perspective on an American Obsession** describes and explores our national breast fetish, which is defined as a culturally constructed obsession that is deeply interwoven with beauty standards, breastfeeding practices, and sexuality. By tracing the complex history of this erotic fascination and discovering how it affects men's and women's sexuality and their relationships, this book will help women accept their breasts as they are and provide male readers with insight into how women think and feel about their bodies. This awareness will enable them to better understand and empathize with women's experiences as objects of a cultural fetish. Focusing on adult joys and anxieties about breasts, sex, and breastfeeding, this text uses research and expert opinions from several different fields, including psychology, anthropology, sociology, mythology, and sexology. You will find several other issues in **Breasts: The Women's Perspective on an American Obsession** that involve men's and women's struggles with this obsession, such as: breast implants human psychology and breasts beauty standards and breast sexuality how breasts are portrayed in mythology and art how ancient religions saw the breast as a sign of motherhood and giver of life "breast men" debates on how and why the breast evolved adolescent girls and breasts breast activists, such as La Leche League, who are proponents of

breastfeeding in public Through personal interviews with men and women, *Breasts: The Women's Perspective on an American Obsession* also addresses women's pride and shame about their breasts and their confusion about the attention their breasts receive. Ultimately, this exploration of breast obsession sheds light on our society's general fear of and ambivalence toward women's bodies. *Breasts: The Women's Perspective on an American Obsession* shows you that breasts have a venerable history and urges you to see beyond the contemporary standards of visual perfection to give you an overall sense of the female body's power and worth.

Criminal Procedure Prof. Carlton Bailey, 2015-03-05 In a criminal procedure class, students are asked to determine whether a citizen's constitutional rights were violated, and this question is consistently posed under a myriad of factual circumstances. In order to answer the query, students would need to examine and discuss the United States Supreme Court's interpretations of the Fourth, Fifth, Sixth, and Fourteenth Amendments of the US Constitution, identifying many tests and standards from those examinations and spirited discussions. *Criminal Procedure: Model Problems and Outstanding Answers* documents a few of the United States Supreme Court's tests and standards from these amendments to provide a more accurate assessment of whether a right under the Constitution has retained its full vitality, or whether it has been modified or made less vital than originally intended. Oxford University Press equips students with an accessible guide to acing challenging criminal procedure law exams. In *Criminal Procedure: Model Problems and Outstanding Answers*, Carlton Bailey helps students demonstrate their knowledge of criminal procedure in the structured and sophisticated manner that professors expect on law school exams. This book provides clear introductions on the fundamental topics in criminal procedure, provides hypotheticals similar to those that students can expect to see on an exam (including multi-issue questions), and offers model answers to those hypotheticals. Professor Bailey then coaches students in how to evaluate their own work with a comprehensive self-analysis section. This book prepares students by challenging them to use the law they learn in class while also explaining the best way to express sophisticated answers on law school exams.

Crime and Punishment in Indonesia Tim Lindsey,Helen Pausacker,2020-12-14 Indonesia's criminal law system faces major challenges. Despite the country's transition to democracy, both the Criminal Code and the Criminal Procedure Code are badly out of date, the former only superficially changed since colonial times and the latter remaining as it was under Soeharto's authoritarian New Order regime. Law enforcement officers and judges are widely seen as corrupt or incompetent, and new laws, including new Islamic laws passed at the regional level, often contradict the Criminal Code and national statutes, including human rights laws. This book, based on extensive original research by leading scholars in the field, provides an overall assessment of the state of criminal law, law enforcement and penal policy in Indonesia, considers in depth a wide range of specific areas of criminal law, and discusses recent efforts at reform and their prospects for success.

"Have You Seen . . . ?" David Thomson,2008-10-14 In 1975, David Thomson published his Biographical Dictionary of Film, and few film

books have enjoyed better press or such steady sales. Now, thirty-three years later, we have the companion volume, a second book of more than 1,000 pages in one voice—that of our most provocative contemporary film critic and historian. Juxtaposing the fanciful and the fabulous, the old favorites and the forgotten, this sweeping collection presents the films that Thomson offers in response to the question he gets asked most often—“What should I see?” This new book is a generous history of film and an enticing critical appraisal written with as much humor and passion as historical knowledge. Not content to choose his own top films (though they are here), Thomson has created a list that will surprise and delight you—and send you to your best movie rental service. But he also probes the question: after one hundred years of film, which ones are the best, and why? “Have You Seen . . . ?” suggests a true canon of cinema and one that’s almost completely accessible now, thanks to DVDs. This book is a must for anyone who loves the silver screen: the perfect confection to dip into at any point for a taste of controversy, little-known facts, and ideas about what to see. This is a volume you’ll want to return to again and again, like a dear but argumentative friend in the dark at the movies.
