HTC Marketing Plan Tobias Kleinmann,Xin Chen,Ben Jaderstrom,Jolie Pinkerton,Stephanie ONeil,2012-02-20 Project Report from the year 2011 in the subject Business economics - Offline Marketing and Online Marketing, grade: 1,7, San Diego State University (Marketing Department), language: English, abstract: HTC quickly emerged on the smartphone scene with the remarkable success of The Sense, one of its first models, and broke many industry sales records. People were asking, "Who is HTC?" Our research indicates that HTC's rapid rise to success was because of innovation and technological capabilities. Even though the HTC brand was not widely recognized, its smartphones were generating interest. In our primary research, we discovered that some people owned an HTC phone but did not know that HTC was the manufacturer. Obviously, brand awareness was relatively low. For HTC to stay relevant in the hypercompetitive smartphone industry, it needs serious revamping of its marketing plan. With smartphone market penetration increasing to more than 20 percent in the past five years and reaching 46.8 percent in Q3 2011, HTC has tremendous opportunities to establish a solid market position. After examining the market conditions and current HTC performance in the U.S., our team proposes that HTC position itself as a technological leader by targeting consumers ages 18 to 34. This promising segment has potential sales of $2.5 million. We analyzed the industry and examined external factors that could impact HTC's bottom line. This analysis gave us crucial insight into the smartphone market. We also analyzed the competitive environment that includes Apple, Motorola, and RIM (Blackberry). HTC, which has a positive reputation on the merits of its technology, needs to boldly differentiate itself in the marketplace. Through market analysis, we discovered that HTC has a strong market size, market potential, and distinct target markets. We recommend that HTC take specific steps through segmenting, targeting, and positioning to execute its marketing plan. We are confident that our plan can increase HTC's market share by 2 percent each year. By the end of 2012, our marketing objective is to reach a 24 percent market share of the smartphone industry, which equals 18.7 million HTC customers. The plan includes recommendations and precautions at distribution channels so that HTC differentiates itself from the other brands. We developed a budget for the marketing plan and devised procedures to monitor each effort in order to reach our projected market share increase. We are confident that our marketing plan can take HTC from an emerging brand to a dominant market leader.

Htc M10 Scott Casterson,2016-05-05 The new HTC 10 was released on April 12 of this year following the HTC One M9. The new HTC mobile phones are made available to customers who want to order them, but they will not be shipped until the middle of May 2016. The company has placed a lot more emphasis on improving the audio and as well as the quality of the camera. HTC promises a complete experience with the new HTC 10, so users do not need to go and purchase other phone accessories as everything is included to increase the performance of the mobile phone. This 5.2-inch screen mobile phone is the first in its class to offer optical image stabilisation for both the rear and front facing cameras.

HTC One M9: A Guide for Beginners Matthew Hollinder,2015-04-17 The third generation HTC One M9 was announced in March of 2015. The phone has numerous upgraded features compared to the HTC One M8 including individual notifications, better camera quality, battery saving options, high quality audio and a higher resolution screen. The phone is programmed so that it works to personalize its features to work with the habits and activities of individual users and offer helpful apps and information at the right time. It also has many useful default apps and a large selection of additional apps which add to the user's experience. An enhanced user interface, which runs on the latest version of Android, also makes the phone simpler to use than its predecessors. One of the top advantages of the phone over its competitors is the large storage capacity and it is a favorite among music lovers who want to listen to quality audio and be able to save more of their music on a mobile device.

Supply Chain Management for Engineers Samuel H. Huang,2013-06-11 Originally taught mainly in business schools, supply chain management has become a common elective and graduate course in engineering

colleges. The increasing demand for engineers with supply chain knowledge has fed this shift. However, supply chain management textbooks that have a reasonable coverage of quantitative analysis techniques are few and far between. Concise, straightforward, and easy-to-read, Supply Chain Management for Engineers uses practical problems to introduce key concepts and cultivate students' problem-solving skills. Helping students hone their analytical skills and develop the ability to solve real-world problems, the book: Includes a simulation game for practicing supply chain management skills Covers the use of practical software tools including Gurobi Optimizer and Microsoft EXCEL Facilitates the use of problem-based learning (PBL) pedagogy Provides a theoretical framework for supply chain design and supplier selection Focusing on quantitative aspects, this book uses example problems to introduce key concepts and case studies to strengthen students' analysis and synthesis skills. In addition to exercises, this book also provides several problems that are relatively complicated and can be used as mini projects that link theoretical concepts to practical problem solving. It also presents a simulation game where students can play the roles of suppliers, OEMs, and retailers within a supply chain environment to practice the skills they acquire. It also stresses the importance of integrating engineering optimization techniques with business strategic thinking. These features and more give students the supply chain knowledge and problem-solving skills increasingly required for engineers entering the work force.
