Franchise Era Fleury James Fleury, 2019-04-01 As Hollywood shifts towards the digital era, the role of the media franchise has become more prominent. This edited collection, from a range of international scholars, argues that the franchise is now an integral element of American media culture. As such, the collection explores the production, distribution and marketing of franchises as a historical form of media-making - analysing the complex industrial practice of managing franchises across interconnected online platforms. Examining how traditional media incumbents like studios and networks have responded to the rise of new entrants from the technology sector (such as Facebook, Apple, Amazon, Netflix and Google), the authors take a critical look at the way new and old industrial logics collide in an increasingly fragmented and consolidated mediascape.

What Objects Mean Arthur Asa Berger, 2016-06-16 Arthur Asa Berger, author of an array of texts in communication, popular culture, and social theory, is back with the second edition of his popular, user-friendly guide for students who want to understand the social meanings of objects. In this broadly interdisciplinary text, Berger takes the reader through half a dozen theoretical models that are commonly used to analyze objects. He then describes and analyzes eleven objects, many of them new to this edition—including smartphones, Facebook, hair dye, and the American flag—showing how they demonstrate concepts like globalization, identity, and nationalism. The book includes a series of exercises that allow students to analyse objects in their own environment. Brief and inexpensive, this introductory guide will be used in courses ranging from anthropology to art history, pop culture to psychology.

Groundhog Day Ryan Gilbey, 2019-07-25 It is becoming clearer and clearer that Groundhog Day (1993), directed by Harold Ramis, is one of the masterpieces of 1990s Hollywood cinema. One of the first films to use a science-fiction premise as the basis for romantic comedy, it tells the story of a splenetic TV weatherman, Phil Connors (Bill Murray at his disreputable best), who finds himself repeating indefinitely one drab day in the milk-and-cookies town of Punxsutawney, Pennsylvania. At first glance it seems like a feel-good parable in the tradition of Frank Capra's *It's a Wonderful Life* (1943). But on closer inspection it is a deeply ambivalent fable, with strong echoes of Samuel Beckett: before he finds redemption Phil must plumb the depths of suicidal despair - and even after he has survived this, the film offers no guarantees that he will live happily ever after. Ryan Gilbey begins his account of Groundhog Day with the long and unlucky gestation of the script by Danny Rubin (who was interviewed specially for this book) which formed the basis of the finished film. Gilbey celebrates the inspired casting of Murray, alongside Andie MacDowell and less well-known actors such as Stephen Tobolowsky (who plays the reptilian sa

The Martian Andy Weir, 2014-02-11 Nominated as one of America's best-loved novels by PBS's The Great American Read Six days ago, astronaut Mark Watney became one of the first people to walk on Mars. Now, he's sure he'll be the first person to die there. After a dust storm nearly kills him and forces his crew to evacuate while thinking him dead, Mark finds himself stranded and completely alone with no way to even signal Earth that he's alive—and even if he could get word out, his supplies would be gone long before a rescue could arrive. Chances are, though, he won't have time to starve to death. The damaged machinery, unforgiving environment, or plain-old human error are much more likely to kill him first. But Mark isn't ready to give up yet. Drawing on his ingenuity, his engineering skills—and a relentless, dogged refusal to quit—he steadfastly confronts one seemingly insurmountable obstacle after the next. Will his resourcefulness be enough to overcome the impossible odds against him?

Drawing Futures Bob Sheil,Frédéric Migayrou,Luke Pearson,Laura Allen,2016-11-11 Drawing Futures brings together international designers and artists for speculations in contemporary drawing for art and architecture.Despite numerous developments in technological manufacture and computational design that provide new grounds for designers, the act of drawing still plays a central role as a vehicle for speculation. There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world. In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world, the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation. Drawing Futures will present a compendium of projects, writings and interviews that critically reassess the act of drawing and where its future may lie.Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments. The book coincides with an international conference of the same name, taking place at The Bartlett School of Architecture, UCL, in November 2016. Bringing together practitioners from many creative fields, the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas.

Bargainin' for Salvation Steven Heine,2009-05 Throughout his various stages, Dylan's work reveals an affinity with the Zen worldview, where enlightenment can be attained through self-contemplation and intuition rather than through faith and devotion. Much has been made of Dylan's Christian periods, but never before has a book engaged Dylan's deep and rich oeuvre through a Buddhist lens.--Back cover.

American Vaudeville as Ritual Albert F. McLeanJr.,2021-10-21 This study affords an entirely new view of the nature of modern popular entertainment. American vaudeville is here regarded as the carefully elaborated ritual serving the different and paradoxical myth of the new urban folk. It demonstrates that the compulsive myth-making faculty in man is not limited to primitive ethnic groups or to serious art, that vaudeville cannot be dismissed as meaningless and irrelevant simply because it fits neither the criteria of formal criticism or the familiar patterns of anthropological study. Using the methods for criticism developed by Susanne K. Langer and others, the author evaluates American vaudeville as a symbolic manifestation of basic values shared by the American people during the period 1885-1930. By examining vaudeville as folk ritual, the book reveals the unconscious symbolism basic to vaudeville-in its humor, magic, animal acts, music, and playlets, and also in the performers and the managers—which gave form to the dominant American myth of success. This striking view of the new mass man as a folk and of his mythology rooted in the very empirical science devoted to dispelling myth has implications for the serious study of all forms of mass entertainment in America. The book is illustrated with a number of striking photographs.
