Billy Goats Gruff features the shark in the role of the troll. One day he sees a seahorse and says, I am going to eat you! No, no, no, the seahorse responds. I am much too little. But I know someone bigger. And with that he swims off and sends over the fish. Each time the shark is sent a slightly larger sea animal until finally the dolphin sends over the orca (killer whale). The simple, repetitive text is perfect for beginning readers to read all on their own. Children, as well as adults, will love the bright colors and illustrations.

The Secret of Our Success Joseph Henrich,2017-10-17 How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining

food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking

clues from our ancient past to the present, *The Secret of Our Success* explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

The Raw Shark Texts Steven Hall, 2008-04-08 This genre-bending national bestseller is "a horror-dystopic-philosophical mash-up, drawing comparisons to Borges, *The Matrix* and *Jaws*" (*The New York Times Magazine*). Eric Sanderson wakes up in a house he doesn't recognize, unable to remember anything of his life. A note instructs him to call a Dr. Randle, who informs him that he is undergoing yet another episode of memory loss, and that for the last two years—since the tragic death of his great love, Clio, while vacationing in Greece—he's been suffering from an acute dissociative disorder. But there may be more to the story, or it may be a different story altogether. With the help of allies found on the fringes of society, Eric embarks on an edge-of-your-seat journey to uncover the truth about himself and escape the predatory forces that threaten to consume him. Moving with the pace and momentum of a superb thriller, exploring ideas about language and information, as well as identity, this is ultimately a novel about the magnitude of love and the devastating effect of losing that love. "Paced like a thriller, it reads like a deluge . . . Herman Melville meets Michael Crichton, or Thomas Pynchon meets Douglas Adams." —*San Francisco Chronicle* "Rousingly inventive." —*The Washington Post* "Unforgettable fiction."

–Playboy “A thriller that will haunt you.” –GQ
“Sharp and clear . . . Writing on the edge of the form.” –Los Angeles Times “Huge fun, and I gleefully recommend it.” –Audrey Niffenegger, international–bestselling author of The Time Traveler’s Wife “Fast, sexy, intriguing, intelligent.” –Toby Litt
