**The Secret of Our Success** Joseph Henrich, 2017-10-17 How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other

species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, *The Secret of Our Success* explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

*The Raw Shark Texts* Steven Hall, 2008-04-08 This genre-bending national bestseller is “a horror-dystopic-philosophical mash-up, drawing comparisons to Borges, *The Matrix* and *Jaws*” (*The New York Times Magazine*). Eric Sanderson wakes up in a house he doesn't recognize, unable to remember anything of his life. A note instructs him to call a Dr. Randle,

who informs him that he is undergoing yet another episode of memory loss, and that for the last two years—since the tragic death of his great love, Clio, while vacationing in Greece—he’s been suffering from an acute dissociative disorder. But there may be more to the story, or it may be a different story altogether. With the help of allies found on the fringes of society, Eric embarks on an edge-of-your-seat journey to uncover the truth about himself and escape the predatory forces that threaten to consume him. Moving with the pace and momentum of a superb thriller, exploring ideas about language and information, as well as identity, this is ultimately a novel about the magnitude of love and the devastating effect of losing that love. “Paced like a thriller, it reads like a deluge . . . Herman Melville meets Michael Crichton, or Thomas Pynchon meets Douglas Adams.” —San Francisco Chronicle “Rousingly inventive.” —The Washington Post “Unforgettable fiction.” —Playboy “A thriller that will haunt you.” —GQ “Sharp and clear . . . Writing on the edge of the form.” —Los Angeles Times “Huge fun, and I gleefully recommend it.” —Audrey Niffenegger, international-bestselling author of *The Time Traveler’s Wife* “Fast, sexy, intriguing, intelligent.” —Toby Litt

*Shark and Crab Big Book Edition* Julie Ellis, 2014 Sharks are very big and strong. They are fast and hungry, too. Sometimes little animals are stronger than big animals. Do you know how a little animal could help a big animal? Reading Level 14/F&P Level H

**Gristle & Bone** Duncan Ralston, 2018-09-23 Seven Terrifyingly Delectable Short Stories and Novellas in the vein of Stephen King and Clive Barker. Beware of Dog - Disgraced soldier Dean Vogel returns to his hometown and confronts the bullies, and a violent incident, from his past. Viral - A reporter uncovers what really happened to the latest internet sensation, a troubled teenage girl who vanished on camera. Artifact (#37) - Gonzo pornographers learn a brutal lesson following a tragedy they inadvertently caused when life imitated art. //END USER - Anti-social conspiracy theorist Mason Adler's life is turned upside-down when he begins receiving eerily personal and prophetic spam that could be heralding the Apocalypse. Fat of the Land - A couple discovers the secret of a tourist town's prosperity may lie in its sinfully delicious cuisine, and they might be on the menu. Scavengers - When successful restaurant owners confess to a grisly series of small town murders, their neighbor learns the gruesome truth that led them to kill. **The Frilled Shark** Sara Green,2007-01-01 Named for its gills that look like a frilly collar, the frilled shark is unlike any other. Having changed little since prehistoric times, this eel-like shark resembles a mythical sea serpent. Sightings are rare, as the frilled shark prefers the dark waters of the deep sea. Readers will explore what is known of the fascinating species, and what is yet to be discovered.

**Demon Fish** Juliet Eilperin,2011-06-14 A group of traders huddles around a pile of dried shark fins on a gleaming white floor in Hong Kong. A Papua New Guinean elder shoves off in his hand-carved canoe, ready to summon a shark with ancient magic. A scientist finds a rare shark in Indonesia and forges a deal with villagers so it and other species can survive. In this eye-opening adventure that spans the globe, Juliet Eilperin investigates the fascinating ways different individuals and cultures relate to the ocean's top predator. Along the way, she reminds us why, after millions of years, sharks remain among nature's most awe-inspiring creatures. From Belize to South Africa, from Shanghai to Bimini, we see that sharks are still the object of an obsession that may eventually lead to their extinction. This is why movie stars and professional athletes go shark hunting in Miami and why shark's fin soup remains a coveted status symbol in China. Yet we also see glimpses of how people and sharks can exist alongside one another: surfers tolerating their presence off Cape Town and ecotourists swimming with sharks that locals in the Yucatán no longer have to hunt. With a reporter's instinct for a good story and a scientist's curiosity, Eilperin offers us an up-close understanding of these extraordinary, mysterious creatures in the most entertaining and illuminating shark encounter you're likely to find outside a steel cage.

**Jaws** Peter Benchley,2017-09-07 A special edition of Jaws by Peter Benchley reissued

with a bright retro design to celebrate Pan's 70th anniversary. It was just another day in the life of a small Atlantic resort until the terror from the deep came to prey on unwary holiday makers. The first sign of trouble - a warning of what was to come - took the form of a young woman's body, or what was left of it, washed up on the long, white stretch of beach . . . A summer of terror had begun. Peter Benchley's Jaws first appeared in 1974. It has sold over twenty million copies around the world, creating a legend that refuses to die - it's never safe to go back in the water . . .
