Using Games to Enhance Learning and Teaching Nicola Whitton, Alex

Moseley, 2012-05-23 Using Games to Enhance Learning and Teaching provides educators with easy and practical ways of using games to support student engagement and learning. Despite growing interest in digital game-based learning and teaching, until now most teachers have lacked the resources or technical knowledge to create games that meet their needs. The only realistic option for many has been to use existing games which too often are out of step with curriculum goals, difficult to integrate, and require high-end technology. Using Games to Enhance Learning and Teaching offers a comprehensive solution, presenting five principles for games that can be embedded into traditional or online learning environments to enhance student engagement and interactivity. Extensive case studies explore specific academic perspectives, and featured insights from professional game designers show how educational games can be designed using readily accessible, low-end technologies, providing an explicit link between theory and practice. Practical in nature, the book has a sound theoretical base that draws from a range of international literature and research.

Gamechanger Spencer FC, 2018-08-09 How one man went from gaming and making

videos at home to becoming a football club owner 'The bizarre new world of football' Guardian I lifted the trophy triumphantly over my head, just as I'd seen so many FA Cup, World Cup and Champions League winners do on TV. It was quite simply the best moment of my life. Hashtag United had won. So, how on earth did this happen? How did a kid who at one point couldn't even get in his school team end up playing at Wembley Stadium in front of 20,000 people? How did someone who spent his life playing computer games get to play football in the same side as World Cup- and Champions League-winning players? I'm hardly sure myself. But here's my attempt to tell the story.

Les nouveaux discours publicitaires Marc Bonhomme, 2013 Suite à la mutation des contextes sociomédiatiques et à l'épuisement de ses modèles traditionnels, la publicité s'est profondément renouvelée au tournant du XXIème siècle. Alors que les supports publicitaires se sont diversifiés avec le développement des médias électroniques, les stratégies publicitaires privilégient progressivement la promotion des marques au détriment des produits. Parallèlement, les publicités récentes tendent à brouiller leurs messages en les parasitant par des contenus a priori étrangers au marketing. Quant au langage publicitaire lui-même, il évolue de plus en plus vers le second degré et les pratiques métadiscursives en jouant avec la culture du public et les codes médiatiques. Cette livraison de Semen se propose de rendre compte des transformations proprement discursives des pratiques publicitaires depuis une quinzaine d'années, en s'intéressant aux répercussions que ces pratiques ont sur la dimension linguistique et iconique des annonces. En quoi les nouveaux discours publicitaires affectent-ils la rhétorique des messages commerciaux ? Quelles incidences ont-ils sur leur fonctionnement communicationnel ? Comment se concrétisent-ils dans la production des slogans, des textes et des images ? Réunissant neuf contributions de chercheurs provenant d'horizons divers (France, Suisse, Italie, Chili), ce numéro offre une réflexion approfondie sur les tendances publicitaires les plus actuelles, à travers leur diversité : stratégies dialogiques, pratiques intertextuelles, émergence de l'éthos des marques, dépublicitarisation, brand content, buzz, marketing viral, publicité ethnique.

Memoirs of the Life and Correspondence of Mrs. Hannah Moore William Roberts, 1845

Music and Theatre in Handel's World Donald Burrows, Rosemary Dunhill, James Harris, 2002 James Harris (1709-80) was an author of philosophical treatises and an enthusiastic amateur musician who directed the concerts and music festivals at Salisbury for nearly fifty years. His family and social circle

had close connections with London's music-making: his brother was a witness to Handel's will, and his correspondents sent him lively reports on all aspects of musical life in the capital—opera, oratorio, concerts, but also about the leading performers, music copyists, and instrument makers. In 1761 Harris became a member of Parliament and thereafter divided his time between London and Salisbury. His letters and diaries provide an unrivalled record of concert- and theatre-going in London, including exchanges of letters with David Garrick about a production at Drury Lane. As his children grew up an engaging family correspondence emerged. We learn of his daughters' involvement in concerts and amateur theatrical productions; his son, who pursued a diplomatic career, reported on operas, concerts, and plays in the court of Frederick the Great and Catherine the Great. Now, for the first time, it is possible to enjoy in full the lively first-hand descriptions from Harris's family papers, which contribute fascinating insights into contemporary eighteenth-century musical and theatrical life.
