Proceedings of the International Conference on Information Engineering, Management and Security 2015 Vignesh Ramakrishnan, Prasanth Venugopal, Tuhin Mukherjee, 2015-08-13 ICIEMS 2015 is the conference aim is to provide a platform for researchers, engineers, academicians as well as industrial professionals from all over the world to present their research results and development activities in Engineering Technology, Industrial Engineering, Application Level Security and Management Science. This conference provides opportunities for the delegates to exchange new ideas and application experiences face to face, to establish business or research relations and to find global partners for future collaboration.

The Beginner's Photography Guide, 2013-05-01 In contrast to the jargon-filled manuals that come with most digital cameras, The Beginner's Photography Guide presents step-by-step digital slr camera basics, while introducing and demonstrating a wide variety of techniques that will inspire the novice digital photographer. Grouped together by themes-color, composition, natural light, framing, and more-each camera technique is broken down into an easy-to-follow step-by-step sequence, and features annotated photographs and suggestions on getting the best from digital slr cameras and taking eye-catching photos.

Descendants of Danu Chidinma Onuoha, 2020-02-12 Seventeen-year-old Nora Walsh has spent her entire life running. As the forbidden offspring of a demon and a magic-wielding psychic, she possesses unique powers far beyond those typically held within the psychic realm, but her powers have branded her an outsider and a potential danger to her people, the descendants of the Tuatha de Danaan. When Nora senses that the Council is close, she flees to Hagen High in Maine. But from the moment she arrives, she discovers the Council may have been one step ahead. Populating the halls of Hagen High are fellow psychics, ones who may or may not have been tasked with eliminating her

where she stands. And deep in the woods surrounding the campus, another threat lies in wait, a dark and mysterious creature who's been stalking Nora for years. Soon, a series of puzzling deaths and disappearances throw the school into chaos. With the entirety of the psychic realm in jeopardy, can Nora prove her worth to fight a common enemy?

Advances in Intelligent Informatics El-Sayed M. El-Alfy, Sabu M. Thampi, Hideyuki Takagi, Selwyn Piramuthu, Thomas Hanne, 2014-09-08 This book contains a selection of refereed and revised papers of Intelligent Informatics Track originally presented at the third International Symposium on Intelligent Informatics (ISI-2014), September 24-27, 2014, Delhi, India. The papers selected for this Track cover several intelligent informatics and related topics including signal processing, pattern recognition, image processing data mining and their applications.

Computational Vision and Bio-Inspired Computing S. Smys, João Manuel R. S. Tavares, Valentina Emilia Balas, Abdullah M. Ilyasu, 2020-01-06 This proceedings book presents state-of-the-art research innovations in computational vision and bio-inspired techniques. Due to the rapid advances in the emerging information, communication and computing technologies, the Internet of Things, cloud and edge computing, and artificial intelligence play a significant role in the computational vision context. In recent years, computational vision has contributed to enhancing the methods of controlling the operations in biological systems, like ant colony optimization, neural networks, and immune systems. Moreover, the ability of computational vision to process a large number of data streams by implementing new computing paradigms has been demonstrated in numerous studies incorporating computational techniques in the emerging bio-inspired models. The book reveals the theoretical and

practical aspects of bio-inspired computing techniques, like machine learning, sensor-based models, evolutionary optimization, and big data modeling and management, that make use of effectual computing processes in the bio-inspired systems. As such it contributes to the novel research that focuses on developing bio-inspired computing solutions for various domains, such as human-computer interaction, image processing, sensor-based single processing, recommender systems, and facial recognition, which play an indispensable part in smart agriculture, smart city, biomedical and business intelligence applications.

Computer Graphics Tosiya L. Kunii, 2012-12-06 In the design of any visual objects, the work becomes much easier if previous designs are utilized. Computer graphics is becoming increasingly important simply because it greatly helps in utilizing such previous designs. Here, previous designs signifies both design results and design procedures. The objects designed are diverse. For engineers, these objects could be machines or electronic circuits, as discussed in Chap. 3, "CA~/CAM. " Physicians often design models of a patient's organs from computed tomography images prior to surgery or to assist in diagnosis. This is the subject of Chap. 8, Medical Graphics. Chapter 7, Computer Art, deals with the way in which artists use computer graphics in creating beautiful visual images. In Chap. 1, Computational Geometry, a firm basis is provided for the definition of shapes in designed objects; this is a typical technical area in which computer graphics is constantly making worldwide progress. Thus, the present volume, reflecting international advances in these and other areas of computer graphics, provides every potential or actual graphics user with the essential up-to-date information. There are, typically, two ways of gathering this current information. One way is to invite international authorities to write on their areas of specialization. Usually this works very well if the areas are sufficiently established that it is possible to

judge exactly who knows what. Since computer graphics, however, is still in its developmental stage, this method cannot be applied.

The Warren Commission Report U.S. Government,President's Commission on the Assassination of President Kennedy,2023-11-13 Warren Commission Report is the result of the investigation regarding the assassination of United States President John F. Kennedy. The U.S. Congress passed Senate Joint Resolution 137 authorizing the Presidential appointed Commission to report on the assassination of President John F. Kennedy, mandating the attendance and testimony of witnesses

and the production of evidence. After eleven months of the investigation the Commission presented its findings in 888-page final report. The key findings presented in this report were that President Kennedy was assassinated by Lee Harvey Oswald, that Oswald acted entirely alone and that Jack Ruby also acted alone when he killed Oswald two days later. The Commission's findings have proven controversial and have been both challenged and supported by later studies.

Antona, 2013-07-03 The three-volume set LNCS 8009-8011 constitutes the refereed proceedings of the 7th International Conference on Universal Access in Human-Computer Interaction, UAHCI 2013, held as part of the 15th International Conference on Human-Computer Interaction, HCII 2013, held in Las Vegas, USA in July 2013, jointly with 12 other thematically similar conferences. The total of 1666 papers and 303 posters presented at the HCII 2013 conferences was carefully reviewed and selected from 5210 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The total of 230 contributions included in the UAHCI proceedings were carefully reviewed and selected for inclusion in this three-volume set. The 74 papers included in this volume are organized in the following topical sections: design for all methods, techniques and tools; eInclusion practice; universal access to the built environment; multi-sensory and multimodal interfaces; brain-computer interfaces.

Alphas Like Us Krista Ritchie, Becca Ritchie, 2018-03-13 His Bodyguard. His Love. Maverick, know-it-all bodyguard Farrow

Keene knows publicly dating American royalty comes with a great cost. Everyone wants a piece of their relationship. And as a protective boyfriend, he's not here for the malicious hands that grab at their love life and seek to rip them apart. But Farrow is confident — he's confident that he could've never prepared for the storm to come. Keep him safe. Maximoff Hale isn't a big fan of change. And to regain the charity CEO position he lost, he agrees to a task that he's always rejected. One that could uproot his unconventional world. But Maximoff is afraid — he's afraid of the consequences that could destroy his boyfriend and his family. Keep him safe. Changes are on the horizon. Big. Messy. Complicated. Changes. Maximoff & Farrow will fight for their forever. And with every breath, they promise that their love story won't end here.

Cruel Heir Vivian Wood, A wealthy prince burdened by the weight of his royal duties. A determined reporter relentlessly chasing her next breaking story. An electrifying night of desire that ignites a scandalous inferno. I'm Prince Stellan, known to the world as the handsome heir to the Danish throne. I'm serious, studious, and single. I bear the heavy weight of my family's expectations and every single move I make is mobbed by the press. So when I have the chance to go incognito for a night of partying in New York City, I jump at it. Desperate for a brief escape, I venture into the enigmatic realm of an underground nightclub. Surrounded by the pulsating lights and rhythmic beats, my gaze locks onto Margot. She's a mesmerizing beauty with vivid pink hair and a fierce glint in her eyes. Her spirited nature and alluring dance moves captivate me instantly. The chemistry between us is insane from the beginning. I know that I can't court Margot seriously. She's a commoner. And even worse, she's an American. My family expects me to choose a noble Danish bride. So I lie about my identity and bring her back to my hotel for a night that neither of us will ever forget. In the morning, before I can sneak Margot out of my hotel room, the paparazzi invade.

Soon, the secret of my royal lineage is revealed. But the real stunner comes from pretty little Margot. She's a reporter for a New York City newspaper who has stumbled onto what could be a huge story about a playboy prince. Bad press is the last thing I need right now. So I offer Margot a deal. A prestigious job in Copenhagen and a luxurious stipend, in exchange for pretending to follow me around for a months' long lifestyle article. I'm notoriously close mouthed around the press, so a story about me will be a real feather in her cap. All she has to do is say yes... From Wall Street Journal and USA Today bestselling author Vivian Wood comes a new royalty-enemies to lovers-billionaire romance. Fans of Ruthless Reign by Aleatha Romig, Twisted Games by Ana Huang, and Cheeky Royal by Nana Malone will love this book. Other Books In This Series: Sinful Princess, Pretend Princess Keywords: queen, princess, rich, wealthy, powerful, prince, king, royal, royalty, heir, inherit, regal, strong-willed, bound by duty, honor, freedom, love, dreams, abdicate, political marriage, protector, bodyguard, kingdom, realm, destroy, fairy tale, happily ever after, Cinderella, off limits, commoner Similar Books: Ruthless Reign by Aleatha Romig, Twisted Games by Ana Huang, Cheeky Royal by Nana Malone, Royally F*cked by Lexie Timms, Broken Prince by Theodora Taylor, Ruthless King by Meghan March, The Prince's Playbook by Pamela Dumond, The Billionaire's Princess by Ava Ryan, The Royal Arrangement by Jeana E. Investigation of the Assassination of President John F. Kennedy United States. Warren Commission, 1964 Warren Commission hearings.

Soapsuds Finola Hughes, Digby Diehl, 2009-01-21 Passion, power, sex, betrayal, and seduction—it's all in a day's work. Having escaped to Hollywood after catching her boyfriend in bed with her best friend, London stage actress Kate McPhee is offered a gig on the popular daytime television series Live for Tomorrow.

As Devon Merrick—police detective, car crash victim, and love interest for at least two men—she knows all the secrets and sins pulsating in fictional Hope Canyon. But the real drama is off the set, where the soap is indeed slippery. Enter Meredith Contini, the show’s power-wielding diva. Meredith has two rules: Know your place and Stay in it. Kate broke both on day one, which is why she suddenly found her character switching sexual orientation. That brilliant solution came from Daphne del Valle, the show’s barking-mad obsessive/compulsive producer, who drives herself and her actors to enthrall the audience. (“Sell the hurt. Sell the rage. Sell the hunger. Sell the looooooove.”) As gay detective Devon Merrick, Kate is a smash. The show is a hit. Kate’s private life seems to be becoming something of a drama itself. Especially since everybody thinks she really is gay, which is a problem since she thinks the best cure for her real-life broken heart is to get a man into her bed. But who? Kirk, her sexy, tan, and talented leading man, is boffing Meredith. There’s Matt, the magician who makes her tea, but will her fourteen-hour days keep them from the promise of tangled sheets? And there’s Wyatt, her handsome new co-star, who Kate believes is the great love of her life. Except that he’s married, and his wife, Christine, is Kate’s new makeup artist and the one sane friend she has made in Los Angeles. As the line between television and reality blurs with increasing speed, tension tightens and passions surge. Does Wyatt want Kate as much as she wants him? Will Christine find out? Will Kate lose her new friend? Will Meredith finally have Kate fired? Will Kate ever get to “come out” as heterosexual on the set? Are her steamy kiss scenes fated to be only with beautiful women? Emmy Award—winning actress Finola Hughes whips up a frothy, scathingly funny novel worthy of any afternoon time slot in this delicious romp that takes readers through the twists, turns, and dish that drive the madness that is daytime television.
