How Not to Die Michael Greger, M.D., FACLM, Gene Stone, 2015-12-08 From the physician behind the wildly popular NutritionFacts website, How Not to Die reveals the groundbreaking scientific evidence behind the only diet that can prevent and reverse many of the causes of disease-related death. The vast majority of premature deaths can be prevented through simple changes in diet and lifestyle. In How Not to Die, Dr. Michael Greger, the internationally-renowned nutrition expert, physician, and founder of NutritionFacts.org, examines the fifteen top causes of premature death in America-heart disease, various cancers, diabetes, Parkinson's, high blood pressure, and more-and explains how nutritional and lifestyle interventions can sometimes trump prescription pills and other pharmaceutical and surgical approaches, freeing

us to live healthier lives. The simple truth is that most doctors are good at treating acute illnesses but bad at preventing chronic disease. The fifteen leading causes of death claim the lives of 1.6 million Americans annually. This doesn't have to be the case. By following Dr. Greger's advice, all of it backed up by strong scientific evidence, you will learn which foods to eat and which lifestyle changes to make to live longer. History of prostate cancer in your family? Put down that glass of milk and add flaxseed to your diet whenever you can. Have high blood pressure? Hibiscus tea can work better than a leading hypertensive drug-and without the side effects. Fighting off liver disease? Drinking coffee can reduce liver inflammation. Battling breast cancer? Consuming soy is associated with prolonged survival. Worried about heart disease (the number 1 killer in the United States)? Switch to a whole-food, plant-based diet, which has been repeatedly shown not just to prevent the disease but often stop it in its tracks. In addition to showing what to eat to help treat the top fifteen causes of death, How Not to Die includes Dr. Greger's Daily Dozen -a checklist of the twelve foods we should consume every day.Full of practical, actionable advice and surprising, cutting edge nutritional science, these doctor's orders are just what we need to live longer, healthier lives.

10% Happier Dan Harris, 2014-03-11 #1 New York Times Bestseller REVISED WITH
NEW MATERIAL Winner of the 2014 Living Now Book Award for Inspirational
Memoir An enormously smart, clear-eyed, brave-hearted, and quite personal
look at the benefits of meditation. —Elizabeth Gilbert Nightline anchor Dan
Harris embarks on an unexpected, hilarious, and deeply skeptical odyssey
through the strange worlds of spirituality and self-help, and discovers a way
to get happier that is truly achievable. After having a nationally televised
panic attack, Dan Harris knew he had to make some changes. A lifelong
nonbeliever, he found himself on a bizarre adventure involving a disgraced
pastor, a mysterious self-help guru, and a gaggle of brain scientists.
Eventually, Harris realized that the source of his problems was the very
thing he always thought was his greatest asset: the incessant, insatiable
voice in his head, which had propelled him through the ranks of a
hypercompetitive business, but had also led him to make the profoundly stupid
decisions that provoked his on-air freak-out. Finally, Harris stumbled upon
an effective way to rein in that voice, something he always assumed to be
either impossible or useless: meditation, a tool that research suggests can

do everything from lower your blood pressure to essentially rewire your brain. 10% Happier takes readers on a ride from the outer reaches of neuroscience to the inner sanctum of network news to the bizarre fringes of America's spiritual scene, and leaves them with a takeaway that could actually change their lives.
