Seeing the Unseen Guoli Chen, Jianggan Li, 2022-09-21 Meet the overnight tech success stories of China's globalizing business landscape In the last few years, we have seen a meteoric rise of Chinese tech companies across the world. Alibaba stock price movements unnerved investors globally, venture capitalists searched for the next Meituan or Pinduoduo in Southeast Asia and Latin America, and of course, Tik Tok, the most popular content platform in the world today, originated from China. The founders of such companies are typically credited with the "tenacity to rough it out," the "courage to venture into the unknown," and the "vision to take their companies to new heights." However, the same can be said about Silicon Valley founders, or any successful entrepreneur. So, what gives Chinese founders and their companies the advantage in becoming multi-billion global enterprises? How does their leadership set strategies? How do they motivate their people? How do they move so fast and defend their turf in China's hyper-competitive tech market? When they expand overseas, how do they determine what they keep and what they need to let go of? And most importantly, what do these things mean to you as a competitor, investor, regulator, or even as an executive or customer of such companies? *Seeing the Unseen: Behind Chinese Tech Giants' Global Venturing* answers these questions and delves into the fascinating world of Chinese logic that shapes how tech leaders make and implement decisions, many of which are seldom seen outside China. In this book, you will gain an accurate, concise understanding of Chinese tech companies' reflections as they scale. You will understand the different generations of Chinese tech giants from Alibaba, Tencent, Baidu and Huawei to Pinduoduo, Meituan, ByteDance, Xiaomi and more. In this *Seeing the Unseen*, the analysis behind the success and lessons learned is summarized into a unique framework that touches on People, Organization, and Product and Leadership (POP-Leadership). The book covers: How Chinese history, folklore and Mao Zedong's political strategies have shaped the strategies of Chinese tech leaders, even today The mindsets of Chinese tech and internet companies and how they have evolved over the last two decades The unique business culture and leadership styles that steered these companies through uncertain and ultra-competitive periods How Chinese companies structure their organizations and products and how they remain agile as they scale The limitations of Chinese POP-Leadership, and what these companies must shed to keep up with international players in global markets How Chinese POP-Leadership is now becoming international, and how international players are leveraging these learnings How the worldwide expansion of Chinese companies will alter the business landscape in the coming decades Chinese firms undertaking overseas ventures can challenge our thinking on global strategy and implementation. This book gives you a better understanding of these emergent players in the global arena.

Birth of the Witch King Charles Nwoko, 2013-06 For thousands of years under one deity, humans, animals, and nature coexisted in peace and harmony in the progressive rainforest enclave called Yoyoland. But now, the arrival of a half-human immigrant from the animal kingdom has brought change. Civilization and adherence to one religion, which characterized Yoyoland and stood it apart, has quickly given way to bloodletting, wars, dark forces, sorceries, and witchcraft. A runaway immigrant named Ikiko dishonored the god of her land and was judged in the highest chamber in her kingdom. She exiled herself and immigrated to Yoyoland. She became pregnant and bore a daughter called Aboma. Aboma, a powerful queen of witches, is dominated by evil forces and is pregnant at birth, bearing a son named Ikenga. With her well-trained army of wizards, warlocks and goblins, she ruthlessly fights any religion and deity that are not hers. Enter Elechi: the one-man army and the ordained parson of Yoyoland, who swears an oath to destroy Aboma and any religion and deity that are not his. *Birth of the Witch King* is the first of four books of the *Chronicles of Ikenga*. Set in a torturous world of live and don't let live, it tells of vicious wars, magic, sorceries, the supernatural, and monsters.

The Golden Tap - The Inside Story of Hyper-Funded Indian Start-Ups Kashyap Deorah, 2015-11-16 Ever wondered why global investors are willing to write million dollar cheques to young and inexperienced entrepreneurs? Why companies are no longer judged on their ability to

make profits? Why the valuation of a startup can dwarf that of its well-established counterpart? Is it a bubble? Or have the rules of the game changed? Can these hyper-funded; technology driven companies become global superpowers? Or is it an unsustainable phenomenon? The Golden Tap gives you the answers. In a remarkably honest, no holds barred account; Kashyap – himself a serial entrepreneur – demystifies the technology ecosystem that exists in India today. From the origins of Amazon and Google, to the remarkable growth of Flipkart and Ola, he meticulously plots and chronicles a connected global sequence of events. Set in this background he recounts his personal roller coaster of a life. A story filled with ambition, greed, vanity, fear and success that all young entrepreneurs can relate to. Is this the business model of the future? Or merely a game of poker played by master investors? The answers pour out of The Golden Tap.

Digital Platforms and the Global South Philippe Bouquillion, Christine Ithurbide, Tristan Mattelart, 2023-12-01 This book addresses the issues raised by digital platforms in the Global South, with an emphasis on the cultural stakes involved. It brings together an interdisciplinary team of researchers – including political economists, socio-economists, geographers, media sociologists or anthropologists – who each explore these issues through an insightful case study at a local, national, regional or international scale. While studying the strategies of some of the main US-based Big Tech platforms or video streaming platforms towards the Global South, the chapters also consider the often-neglected active role local or regional actors play in the expansion of those Western digital

players, and highlight the existence of a constellation of local or regional platforms that have emerged in Africa, Asia, Latin America or the Middle East. In addition to analysing the complex relationships of competition, collaboration or dependence between these diverse actors, this volume examines the ways in which the rise of these digital platforms has generated new forms of cultural entrepreneurship and participated in the reconfiguring of the conditions in which cultural contents are produced and circulated in the Global South. This volume will appeal to readers interested in the transnationalisation of cultural industries or in the social, political, economic, cultural and geopolitical dimensions of digital transformations and will be an important resource for students, teachers and researchers in media, communication, cultural studies, international relations and area studies programmes.

The RedBus.in Saga Amarpreet Singh Ghura,Abhishek,2016 In June 2013 the bus ticketing website redbus.in was acquired by the Ibibo Group, a subsidiary of South Africa based internet and media firm Naspers Ltd, for USD 135 million. Soon after signing the deal, Phanindra Sama - CEO and co-founder of redBus, went for a holiday to London along with his parents. Sama remained incommunicado during the 10 day trip by not acquiring a local number and not accessing his emails. During Sama's absence, senior management team of Alok Goel - COO and Satish Gidugu - CTO at redBus along with three mid-level managers submitted their resignation. Apart from employees of redBus, the Ibibo takeover team was also 'foxed' as desperate calls and emails to Sama elicited no response. This case examines the chaos created due to Sama's absence and helps in understanding the issues when a technology startup is acquired.
