A Thesaurus of African Languages Michael Mann,David Dalby,2017-09-18 Originally published in 1987, this thesaurus is concerned with the spoken languages of Africa. Languages are grouped into a relatively large number of sets and subsets within which the relationship of languages to one another is locally apparent and uncontroversial. The volume presents the languages in classified order with notes on each language, their variant names and immediate classification, and reference to the sources consulted. One section offers an exhaustive list of the languages spoken as home languages by local communities in each state, together with details of languages widely used for inter-group communication, given official recognition, or used in education or the media. There are brief phonological analyses of a broad sample of some 20 African languages and a comprehensive bibliography

and language index to the whole work

Biblical Egyptology Daniel G. McCrillis, Th. D.,2014 The chapters enclosed will bring to light how the Bible and Egyptology have a most inspiring correlation. From the studies of Egyptology, learn about the Pyramid Era in light of the Holy Scriptures, the three famines in Genesis, the hospitality of Egypt, Israel's bondage, and the betrayal of the Hyksos. The following questions will be addressed as we discover why Egypt's geography and contributions are important to modern-day theological thought. · How Does Ancient Egypt correlate with the Scriptures? · Is the Great Pyramid Mentioned in Scripture? · Is Moses Mentioned in the Secular Record of Egyptology? · Is there a Workable Model in the 18th Dynasty for the Exodus? · Is the Shift Theory Credible? Is the Late Date Theory Workable? Is the Early Date Theory Scriptural? · Find out why the Common Date Theory is the Most Probable! · The Bible Gives us Three Dates for Israel's Sojourning in Egypt. Which One is Accurate, or are they All? · What is Significant about Sothic Dating? · How could the Most Primitive Civilization Possess Such Great Intelligence to Build the Pyramids, Chart the Stars, etc.? · Was Hatshepsut Moses' Step-Mother? · Who was the Pharaoh of the Oppression? · Who was the Pharaoh of the Red Sea Episode? · Is there a Biblical 40-Year Marker in Egyptology's Record? · Is there a Biblical 80-Year Marker in Egyptology's Record? Embark on an archeological expedition in search for the Bible's Egyptian epochs as this book unlocks mysteries that – before now – were unpublished and widely unknown. Unravel two blocks of time: the first, spanning the flood of Noah to Abraham's Covenant, and the second, covering Abraham's Covenant to the Exodus. Unveil the Biblical Pharaohs of the Exodus and a possible identity of Moses in his Egyptian life. Discover that this is only the beginning of the magnificent study of Biblical Egyptology! A Must for Every Bible Student!

Human Factors Challenges in Emergency Management Christine Owen,2017-09-29 This book provides an overview of state-of-the-art research that has been conducted within Australia, funded by the Bushfire Cooperative Research Centre. The chapters source and contextualize their own research practice within the context of the international research literature. Therefore, while the research has occurred within Australia it will be of particular interest to scholars, students and practitioners in a number of other countries, particularly within the United States of America and in Europe. The fire and emergency services is a particularly large industry - in Australia alone it employs 250,000 personnel - yet there is very little by way of published human factors books addressing this sector directly. Emergency events frequently involve problems for which there may be unanticipated consequences and highly interdependent consequential effects. In short, emergency events are not necessarily as containable as may be work in other domains. As Karl Weick once commented, emergency events do not 'play by the rules'. This means that these research chapters tell us something about a potential future world of work that is highly dynamic, interdependent and for which improvisation and critical thinking and problem-solving are necessary pre-requisites. The discussions about individual and team performance will also be pertinent to others working in similar high-reliability, high-consequence domains. The chapters connect into an integrated body of work about individual and group performance and their limitations.
