**Ido in Autismland** Ido Kedar,2012 Ido in Autismland opens a window into non-verbal autism through dozens of short, autobiographical essays each offering new insights into autism symptoms, effective and ineffective treatments and the inner emotional life of a severely autistic boy. In his pithy essays, author Ido Kedar, a brilliant sixteen year old with autism, challenges what he believes are misconceptions in many theories that dominate autism treatment today while he simultaneously chronicles his personal growth in his struggles to overcome his limitations. Ido spent the first half of his life locked internally, in silence, trapped in a remedial educational system that presumed he lacked the most basic comprehension, and unable to show the world that he understood everything. But at the age of seven, Ido was finally able to show that he had an intact mind and could understand. This led to the quest to find a system of communication that he could use despite his impaired motor control. Through the use of a letter board, and now an iPad, Ido has triumphed communicatively, enabling him to flourish in a regular high school in all general education classes. But Ido has a larger goal. He does not want to be seen as an isolated autistic exception with miraculously advanced cognitive and communication abilities. He wants people to see that thousands of other severely autistic individuals have the same capacity, but remain trapped and locked-in, as he was, unable to show their true capacities. These individuals desperately need new theories and new methods to help them break free too. Of importance to neuro-researchers, educators, psychologists, doctors, parents, friends, family and people with autism, Ido in Autismland will change our collective understanding of severe autism. PRAISE FOR Ido in Autismland There are doubtless many Idos in this world, unable to speak, yet possessing good intellectual ability and, most certainly, a rich emotional life. And yet, precisely because they cannot communicate, nonverbal individuals with autism are nearly always consigned to the junk heap of mental deficiency, branded as incapable of understanding language or even having feelings... We need to help change things for this terribly neglected group... Reading Ido's book is a good beginning. - Portia Iversen, Co-founder, Cure Autism Now and the Autism Genetic Resource Exchange Gene Bank. Author of Strange Son Ido is a brilliant communicator. His words bring us inside the world of autism. His gift of writing enlightens, inspires, educates. Every person who loves or works with someone with autism - educator, therapist, karent, grandparent, neighbor - should read Ido in Autismland. - Elaine Hall, Author of Now I See the Moon, co-author of Seven Keys to Unlock Autism. Featured in Autism: The Musical Ido's book touches any heart, not only because it is well written, but because it reveals a mind that has learned how to speak to the world through spelling every word on a letter board and keyboard. His book is indeed a great gift to the world. Thank you, Ido. - Soma Mukhopadhyay, Executive Director of Education, HALO, Author of Understanding Autism through Rapid Prompting Method
