Sie bietet jede Menge neue Funktionen und eine deutlich verbesserte Hardware - und das zu einem ausgesprochen günstigen Preis. Sie können Ihre Dreambox auch über ein Netzwerk ansprechen oder mithilfe Ihres Smartphones mal schnell noch einen Film aufnehmen und, und, und. Ihrer Kreativität sind kaum Grenzen gesetzt. Es gibt kaum etwas, was dieses Gerät nicht leisten kann. In diesem Buch lässt Sie der Autor teilhaben an seinen Erfahrungen. ##

*Creating Exhibitions* Polly McKenna-Cress, Janet

Kamien, 2013-09-27 "This is a must-read for the nervous novice as well as the world-weary veteran. The book guides you through every aspect of exhibit making, from concept to completion. They say the devil is in the details, but so is the divine. This carefully crafted tome helps you to avoid the pitfalls in the process, so you can have fun creating something inspirational. It perfectly supports the dictum—if you don't have fun making an exhibit, the visitor won't have fun using it." —Jeff Hoke, Senior Exhibit Designer at Monterey Bay Aquarium and Author of *The Museum of Lost Wonder* Structured around the key phases of the exhibition

design process, this guide offers complete coverage of the tools and processes required to develop successful exhibitions. Intended to appeal to the broad range of stakeholders in any exhibition design process, the book offers this critical information in the context of a collaborative process intended to drive innovation for exhibition design. It is indispensable reading for students and professionals in exhibit design, graphic design, environmental design, industrial design, interior design, and architecture.

*The Curator's Handbook* Adrian George, 2015-08-11 A step-by-step guide to every aspect of putting on an art exhibition, with tips from a range of influential curators *The Curator's Handbook* is the essential handbook for curators and curatorial students, mapping every stage of the process of putting on an exhibition, no matter how traditional the venue, from initial idea to final installation. An introduction explores curatorial work from its origins in the seventeenth century onward and outlines the various roles of the curator today. Twelve chapters then trace the various stages of the exhibition process in clear, informative language and using helpful diagrams and tables, from developing the concept to writing contracts and loan requests; putting together budgets and schedules; producing exhibition catalogues and interpretation materials; designing gallery spaces; working with artists, lenders, and art handlers; organizing private views; and documenting and evaluating a show. With advice and tips from a cast of international museum directors and curators—including Daniel Birnbaum (Moderna Museet, Stockholm); Aric Chen (M+, Hong Kong); Elizabeth Macgregor (Museum of Contemporary Art, Sydney); Hans Ulrich Obrist (Serpentine Gallery, London); Gao Peng (Today Art Museum, Beijing); Jennifer Russell (Metropolitan Museum of Art, New York); and Nicholas Serota (Tate, London)—this volume is a crucial guide for anyone involved in, or studying, the dynamic field of curation.

Designing Design Kenya Hara, 2015-01-25 Representing a new

generation of designers in Japan, Kenya Hara (born 1958) pays tribute to his mentors, using long overlooked Japanese icons and images in much of his work. In *Designing Design*, he impresses upon the reader the importance of emptiness in both the visual and philosophical traditions of Japan, and its application to design, made visible by means of numerous examples from his own work: Hara for instance designed the opening and closing ceremony programs for the Nagano Winter Olympic Games 1998. In 2001, he enrolled as a board member for the Japanese label MUJI and has considerably moulded the identity of this successful corporation as communication and design advisor ever since. Kenya Hara, alongside Naoto Fukasawa one of the leading design personalities in Japan, has also called attention to himself with exhibitions such as *Re-Design: The Daily Products of the 21st Century*.

**Manual of Museum Exhibitions** Barry Lord, Maria Piacente, 2014-04-07 All museum activities converge in the public forum of the exhibition – regardless of whether the exhibit is held in the physical museum or is on the Web. Since the first edition of this book in 2002, there has been a world-wide explosion of new galleries and exhibition halls, and new ideas about how exhibitions should look and communicate. The definition of what an exhibition is has changed as exhibitions can now be virtual; non-traditional migratory and pop-up spaces play host to temporary displays; social media has created amazing opportunities for participatory engagement and shifted authority away from experts to the public; and as time-constrained audiences demand more dynamic, interactive, and mobile applications, museum leadership, managers, staff, and designers are rising to these challenges in innovative ways. Drawing on years of experience and top-flight expertise, Barry Lord and Maria Piacente detail the exhibition process in a straightforward way that can be easily adapted by institutions of any size. They

explore the exhibition development process in greater detail, providing the technical and practical methodologies museum professionals need today. They've added new features and expanded chapters on project management, financial planning and interactive multimedia while retaining the essential content related to interpretive planning, curatorship, and roles and responsibilities. This second edition of the standby Manual of Museum Exhibitions is arranged in four parts: Why - Covering the purpose of exhibits, where exhibit ideas come from, and how to measure success Where - Covering facilities and spaces, going into details including security, and interactive spaces What - A look at both permanent collection displays, and non-collection displays, as well as virtual, participatory, temporary, travelling displays, and retail sales How - Who is involved, planning, curatorship, and content development, design, multimedia, fabrication and installation, financial planning, and project management Over 130 figures and photographs illustrate every step of the exhibit process. No museum can be without this critical, detailed guide to an essential function.
