Thermal Power Plants Mohammad Rasul,2013-04-17 Thermal power plants are one of the most important process industries for engineering professionals. Over the past decades, the power sector is facing a number of critical issues; however, the most fundamental challenge is meeting the growing power demand in sustainable and efficient ways. Practicing power plant engineers not only look after operation and maintenance of the plant, but, also look after range of activities including research and development, starting from power generation to environmental aspects of power plants. The book Thermal Power Plants - Advanced Applications introduces analysis of plant performance, energy efficiency, combustion, heat transfer, renewable power generation, catalytic reduction of dissolved oxygen and environmental aspects of combustion residues. This book addresses issues related to both coal fired and steam power plants. The book is suitable for both undergraduate and research higher degree students, and of course for practicing power plant engineers.

Burning Bright Melissa Scott,2021-03-20 In *Burning Bright*, Scott tells a passionate, colorful tale of love and death, her best yet. Setting her story on the free-port planet of Burning Bright, nexus of trade, politically balanced between the human and Hsai empires in space, and center of virtual reality gaming for all of civilization, Scott weaves a network of intrigue and suspense. When space pilot and ambitious young game developer Quinn Lioe gets shore leave on Burning Bright, determined to play the game at its brilliant center, she becomes enmeshed in the conflict between two great empires, a key figure upon whom the fates of fortune turn. Once again, Scott constructs a brilliantly complex future society and tells a story that involves the mind and the heart. This is science fiction adventure at its classic best.

Make Disciples of All Nations John D. Massey, Mike Morris, W. Madison Grace II, 2021-07-20 A contemporary evaluation of the history and present status of Southern Baptist Missions For more than 175 years the International Mission Board of the Southern Baptist Convention has been sending missionaries around the world to spread the gospel of Jesus Christ. It has also developed strategies and methods that have been adopted by numerous other missions groups. *Make Disciples of All Nations* tells the story of this groundbreaking organization, including its most recent developments. Besides recounting its historical development, the contributors to this volume critically evaluate the IMB's strategies and methods, as well as examine its controversies, regional developments, and organizational changes. The concluding chapter explores how Southern Baptist missions can best adapt to an era of global Christianity. Students, missionaries, and those involved in supporting them will be informed and encouraged by this account of one of the oldest and largest missions organizations in the world.

The Bir Messaouda Basilica Richard Miles,Simon Greenslade,2019-12-31 This volume charts the radical transformation of an inner city neighbourhood in late antique Carthage which was excavated over a five-year period by a team from the University of Cambridge. Bordering the main thoroughfare leading from the Brysa Hill to the ports, the neighbourhood remained primarily a residential one from the second century until 530s AD when a substantial basilica was constructed over the eastern half of the insula. Further extensive modifications were made to the basilica half-a-century later when the structures on the western half of the insula were demolished and the basilica greatly enlarged with the addition of a new east-west aisles, a large monumental baptistery and a crypt. By carefully reconstructing the complex architectural plan of this innovative building, this study shows how the re-modelled Bir Messaouda basilica was transformed into a major pilgrimage centre overturning established tradition that located such complexes outside the city walls. The Bir Messaouda basilica provides important insights into the transition between Vandal and Byzantine control of the city, the development of a new Christian inter-mural urban landscape in the sixth century AD, and the significance of the pilgrimage in reinforcing ecclesiastical authority in post-Justinianic North Africa.
