Time in Indian Music Martin Clayton,2008-08-15 Time in Indian Music is the first major study of rhythm, metre, and form in North Indian rag , or classical, music. Martin Clayton presents a theoretical model for the organization of time in this repertory, a model which is related explicitly to other spheres of Indian thought and culture as well as to current ideas on musical time in alternative repertoiresnullincluding that of Western music. This theoretical model is elucidated and illustrated with reference to many musical examples drawn from authentic recorded performances. These examples clarify key Indian musicological concepts such as tal (metre), lay (tempo or rhythm), and laykari (rhythmic variation).

The Life of Music in North India Daniel M. Neuman,1990-03-15 Daniel M. Neuman offers an account of North Indian Hindustani music culture and the changing social context of which it is part, as expressed in the thoughts and actions of its professional musicians. Drawing primarily from fieldwork performed in Delhi in 1969-71—from interviewing musicians, learning and performing on the Indian fiddle, and speaking with music connoisseurs—Neuman examines the cultural and social matrix in which Hindustani music is nurtured, listened and attended to, cultivated, and consumed in contemporary India. Through his interpretation of the impact that modern media, educational institutions, and public performances exert on the music and musicians, Neuman highlights the drama of a great musical tradition engaging a changing world, and presents the adaptive strategies its practitioners employ to practice their art. His work has gained the distinction of introducing a new approach to research on Indian music, and appears in this edition with a new preface by the author.

Rudimentaál Shawn Mativetsky,2020-09-21 RUDIMENTAAL is a collection of rudimental snare drum pieces inspired by the tabla drumming of North India - a gateway into North Indian drumming for drummers and percussionists from all backgrounds. In addition to the pieces contained in this text, are explanations of the solo tabla form and the repertoire of which it is comprised, along with exercises and études in order to further develop one's understanding of the compositional forms, rhythmic devices, and performance practices of this rich musical tradition.The repertoire is presented in a way similar to how one might learn tabla. First, one learns various compositions from the repertoire as separate items. Each item can be seen as an étude, or a short concert piece for performance. Once enough repertoire is learned, one can then connect the various compositions together to create a fully-formed solo. There are a number of compositions provided, along with instructions for how to piece them together, allowing for numerous possible permutations in designing your own solo snare drum performance based on your repertoire preferences. In addition to these shorter compositions that can be used as building blocks for larger pieces, three complete stand alone solo pieces are also included: DANCING HANDS, CHESTERMERE & DELHI, and SEVEN BIRDS.
