Inflight Science Brian Clegg,2011-04-07 The perfect companion to any flight - a guide to the science on view from your window seat. There are few times when science is so immediate as when you're in a plane. Your life is in the hands of the scientists and engineers who enable tons of metal and plastic to hurtle through the sky at hundreds of miles an hour. Inflight Science shows how you stay alive up there - but that's only the beginning. Brian Clegg explains the ever changing view, whether it's crop circles or clouds, mountains or river deltas, and describes simple experiments to show how a wing provides lift, or what happens if you try to open a door in midair (don't!). On a plane you'll experience the impact of relativity, the power of natural radiation and the effect of altitude on the boiling point of tea. Among the many things you'll learn is why the sky is blue, the cause of thunderstorms and the impact of volcanic ash in an enjoyable tour of mid-air science. Every moment of your journey is an opportunity to experience science in action: Inflight Science will be your guide.

The Future of Inflight Entertainment in Europe, According to Passenger Expectations: Why Airlines Should Embrace Consumer Technology Jasmin Schawalder,2014-04-15 Consumerization - passengers toting their tablets, laptops, smartphones and e-readers on planes - has forced airlines to re-think. Should they continue to invest heavily into Inflight Entertainment (IFE) systems, or just concentrate on offering Wi-Fi and power in the cabin? The goal of this research was to define the IFE offer of the future. Four barriers that split the world into the three regions Europe, Asia and USA in terms of IFE development were identified: the cultural, the commercial, the technological and the legal barrier. This book focuses on Europe, which lags mostly behind with IFE out of these three regions. For example, as opposed to the US, no major European airline offers inflight Wi-Fi widely on its network, and in contrast to leading Middle Eastern airlines none offers inflight live TV or the usage of mobile phones without restriction, like on the ground. The target was to define IFE from a consumer perspective. To capture the latter the author evaluated consumer satisfaction methodologies and decided to go with the Kano approach, which categorizes alternatives of a product or service, in this case IFE, in must-be, attractive and indifferent elements. A representative online survey revealed movies and power to be must-be, TV and Wi-Fi to be attractive and the rest, e-books, music, games and duty free onboard, to be indifferent elements of IFE. The majority of people indicated that they would pay for movies and Wi-Fi but not for power supply, TV or other content. Differently said, content-wise passengers only insisted in the supply of movies, for the rest they expected the airline to provide Internet and power so they themselves could get the content. Further, sub-groups were analysed - people within the sample with mutual characteristics like gender, travel frequency or ownership of smart devices. So was music on a plane a must for women and owners of iPhones were more willing to pay for apps than others. Overall, country of residence, travel purp

Inflight Denise A. Dixon,2016-11-26 Dixie is looking forward to her flight from Portland to Seattle. For the senior flight attendant, it will be the last chance to work with her friend Suzanne. Dixie doesn't realize that the flight will be memorable for an entirely different reason. The flight is over the wild forests of the Pacific Northwest when the man in seat 25C makes his intentions known. He has a bomb, wants quite a lot of money, and isn't

afraid to blow them all to kingdom come if he doesn't get his requests granted. As the authorities on the ground rush to comply, Dixie realizes something about the skyjacker, but before she can alert anyone, she is viciously attacked and left for dead. The plane lands safely, but her assailant gets away. Once she regains consciousness at the hospital, she can't remember any details of the horrible event. Worst of all, the assault killed her unborn baby. As Dixie struggles to regain her memories and move on with her husband, Marceau, Suzanne suspects that the key to finding the skyjacker lies in Dixie's buried memories. Dixie will go on a long quest that will force her to choose between justice and vengeance.

In Flight R K Lilley, 2023-06-24 When reserved flight attendant Bianca gets one look at billionaire hotel owner James Cavendish, she loses all of her hard-won composure. For a girl who can easily juggle a tray of champagne flutes at thirty-five thousand feet in three-inch heels, she finds herself shockingly weak-kneed from their first encounter. The normally unruffled Bianca can't seem to look away from his electrifying turquoise gaze. They hold a challenge, and a promise, that she finds impossible to resist, and she is a girl who is used to saying no and meaning it. Bianca is accustomed to dealing with supermodels and movie stars in her job as a first class flight attendant, but James Cavendish puts them all to shame in the looks department. If only it were just his looks that she found so irresistible about the intimidating man, Bianca could have ignored his attentions. But what tempts her like never before is the dominant pull he seems to have over her from the moment they meet. and the promise of pleasure, and pain, that she reads in his eyes. This book is intended for readers age 18 and up.
