Intrusion Ken MacLeod, 2013 Imagine a near future city, say London, where medical science has advanced beyond our own and a single dose pill has been developed that, taken when pregnant, eradicates many common genetic defects from an unborn child. Hope Morrison, mother of a hyperactive four year old, is expecting her second child. She refuses to take The Fix, as the pill is known. This divides her family and friends and puts her and her husband in danger of imprisonment or worse. Is her decision a private matter of individual choice, or is it tantamount to willful neglect of her unborn child?.

Intrusion (A Relative Invasion Book 1) Rosalind Minett, 2015-05-05 BOOK 1 of the trilogy, A RELATIVE INVASION. 70,000 words. A powerful and compelling narrative with strong and relatable characters. (It) offers an evocative portrayal of England's war-time home front," Harper Collins. ... thoroughly enjoyed the book. The research is meticulously done with convincing historical detail... Historical Novel Society. 1937 London. With ruthless Hitler in Europe and manipulative Cousin Kenneth at the doorstep, young Billy is unknowingly facing war. A fateful rivalry is born ... The frail and artistic Kenneth is hideously devious, Uncle Frank is an outright bully while Billy's parents fail to see Kenneth's darker soul. The same emotions that enable Hitler's rise - envy over strength, desire for new territory - now ferment in the Wilson home. When Billy secretly sets eyes on a precious Cossack sabre, he imagines he owns it and its power. While Kenneth sets out to invade Billy's emotional space the sabre becomes an icon that sustains Billy through the hardships, but is

it destined to damage as well as protect? Intrusion is a tale of rivalry that mirrors world conflict. Every character in the novel comes to life under Minett's insightful prose. . ." Casee Clow, USA

Salt Intrusion, Tides and Mixing in Multi-Channel Estuaries Anh Duc Nguyen,2008-11-01 Multi-channel estuaries, such as the Mekong Delta in Vietnam and the Scheldt in the Netherlands, have characteristics of both the river and the sea, forming a unique environment influenced by tidal movements of the sea and freshwater flow of the river. This study addresses a number of knowledge gaps in multi-channel estuaries by developing a predictive analytical approach for salinity intrusion and discharge estimate in multi-channel estuaries. The new approach agrees well with 1-D hydrodynamic models and observations, indicating its applicability in practice. Most importantly, the study has successfully developed a new theory and a new equation to quantify tidal pumping due to ebb-flood channel residual circulation and the related salt dispersion.

Salt Water Intrusion Samuel F. Atkinson,2018-01-18 This book provides a summary of the status and potential for salt water intrusion into ground water in the contiguous united states. Alien Intrusion Gary Bates,2004 Most people at one time or

another have probably been curious to know, What could account for all of those strange objects in the sky that many credible witnesses see? Or, what about the modern mystery of alien abductions and stories of visitations by beings claiming to be from other planets or star systems? Are aliens really making contact with human beings? Is it important anyway? At last, an easy-to-understand book traces the history of this strange phenomenon utilizing the research of many of the heavyweights of UFOlogy -- and it's been making sense to a lot of people. This is a book for everyone. The author's research and conclusions will surprise you and challenge your thinking, not just about UFOs, but about the nature of life itself. This is a landmark volume that brings together the most important evidences, coming to conclusions far more sinister -- yet profound -- than most could imagine. - Publisher.

Intrusion Detection in Distributed Systems Peng Ning,Sushil Jajodia,X. Sean Wang,2004 Intrusion Detection In Distributed Systems: An Abstraction-Based Approach presents research contributions in three areas with respect to intrusion detection in distributed systems. The first contribution is an abstraction-based approach to addressing heterogeneity and autonomy of distributed environments. The second contribution is a formal framework for modeling requests among cooperative IDSs and its application to Common Intrusion Detection Framework (CIDF). The third contribution is a novel approach to coordinating different IDSs for distributed event correlation.

Recent Advances in Intrusion Detection Somesh Jha, Robin Sommer, Christian Kreibich, 2010-09-02 On behalf of the Program Committee, it is our pleasure to present the proceedings of the 13th International Symposium on Recent Advances in Intrusion Detection Systems (RAID 2010), which took place in Ottawa, Ontario, Canada, during September 15-17, 2010. As in the past, the symposium brought together leading researchers and practitioners from academia, government, and industry to discuss intrusion detection research and practice. There were eight technical sessions presenting full research papers on network protection, high performance, malware detection and defense (2 sessions), evaluation, forensics, anomaly detection and access protection, and Web security. Furthermore, there was a poster session presenting emerging research areas and case studies. The RAID 2010 Program Committee received 102 full-paper submissions from all over the world. All submissions were carefully reviewed by independent reviewers on the basis of technical quality, topic, space, and overall balance. The final decision took place at a Program Committee meeting held during May 19-20 in Oakland, California, where 24 papers were eventually selected for presentation at the conference and publication in the proceedings. As a continued feature, the symposium later also accepted 15 poster presentations reporting early-stage research, demonstration of applications, or case studies. The authors of accepted posters were also offered the opportunity to have an extended abstract of their work

included in the proceedings.

Sunshine: The Intrusion Thomas Elmer,2014-04-09 A floatplane attempts to land on the lake waters while Wade Hampton watches. After crashing into the water a helicopter shows up to fire rounds from a mini-gun into the planes remaining pontoon to sink it. When the helicopter leaves Wade races out on his boat, he ends up pulling two kids out of the cold lake water. While planning to hike the two kids out the helicopter shows up again. This time though there are four of them. The race to Juneau, Alaska begins sixty miles of being hunted for something that Wade will have to figure out for himself. Maybe the kids hold the secrets that he needs to survive the run to safety. Jose Hernandez a drug dealer finds himself in big trouble with his backers. They are going to want their money real soon. Tony Carroll had stolen his bank account numbers then he escaped with his family in Jose's plane and flew off. Tony hoped that Jose wouldn't risk losing his account numbers, but then Jose's voice came from the radio ordering him to return to Juneau, Alaska. An armed helicopter was not far behind him and his family. Greg Woods was being forced to work for Jose Hernandez. His four helicopters were at Jose's beck and call now. Maybe with Jose out at this unknown person's cabin Greg can get his company back and stop running drugs. First he would have to free his own family. Jose Hernandez wants the kids for leverage against their father, so he invades Wade's cabin home, now Wade has to get the kids to safety plus take his home back.
