Computer Comprehensive Companion Doug Knell, 2018-01-09 This book almost saved my last couple of marriages - Andrew McBain, Computer Hacker Intl Written by an idiot savant who became acquainted with these secrets during a pseudo-religious experience! Preview the book and be saved. Holy Mackerel! My Desktop Computer PC System Just Crashed. What The \$@)*%# Should I Do? An Apple a day may keep the doctor away, but what happens if you have a Windows PC and no computer science degree? The Computer Comprehensive Companion contains over 100 powerful tricks to broaden your computer knowledge, any single one when applied which will save you countless heartaches, money, and time, possibly a marriage. You've seen the encyclopedia-like Windows reference guides for dummies. Who the f-k reads those? You're no geek! What you need is a concise, entertaining, life-changing book to learn about computers that will finally put you in charge of your PC. Your Computer PC is the most important tool on your desktop. Should you remain completely ignorant about something that important? According to PC Magazine, 65% of Americans spend more time with their computer than they do with their spouse. In another magazine article, over 7 in 10 Americans claim they're more dependent on their PC than they were three years ago. For a machine you're so dependent on, don't you think it'd be prudent to better learn how computers work? Ignore another snoozefest book on software or hardware you'll quickly forget. The Computer Comprehensive Companion is packed with just the sort of computer knowledge, well beyond stuff only for dummies, that every Windows PC user needs. BE ABLE TO: *

- Salvage your system or at least minimize damage. By following the computer knowledge in this book before this painful day arrives, you should be reaching for a gin & tonic and not a shotgun.
- * Select the right warranty.
- * Recover accidentally deleted or corrupted files.
- * Keep your PC protected with optimal computer security science.
- * Speed up your Windows PC.
- * Perform backups.
- * Convert your files into universal file formats for sharing.
- * Get rid of hard-to-delete files.
- * View internet video offline on any device.
- * Convert video so it plays anywhere.
- * Build your dream song libraries.
- * Uninstall Windows software the right way.
- * Choose the ideal software without having to consult another book!
- * Use the proper computer science security diagnostic tools to monitor your PC's 'cholesterol.'
- * Compare different PC's for your next purchase.
- * Make the best decision on which software upgrades to book.
- * Monitor the children so they can't abuse the internet and computer's DVD player 24/7.
- * And much more.

You want to know the problems with those other books that try to teach you how computers work? You surely know some since, in the past, you must have bought a number of these cumbersome paperweights posing as a software book. Let me remind you of just two. First, those other books are written in boring techno-geek. They might be packed with some knowledge to learn about computers, but that doesn't do you a whole lot of good when you can't stay awake past the first chapter. You don't have to worry about that here. And second, those other techno geek books focus only on Windows for dummies tricks. What you need to know about Windows is given its due, but the title of this easy-to-understand book is not the Windows Comprehensive Companion. Put into practice just a handful of the computer knowledge you'll be taught, and we're positive you'll consider this book one of the best educational investments you've ever made. This is a companion who will never let you down!

bestselling author of *The Book of Jewish Cooking* and Claudia Roden's *Mediterranean* translates the subtle play of flavors and cooking techniques to our own home kitchens. Interweaving history, stories, and her own observations, she gives us 150 of the most delicious recipes: some of them new discoveries, some reworkings of classic dishes—all of them made even more accessible and delicious for today's home cook. From Morocco, the most exquisite and refined cuisine of North Africa: couscous dishes; multilayered pies; delicately flavored tagines; ways of marrying meat, poultry, or fish with fruit to create extraordinary combinations of spicy, savory, and sweet. From Turkey, a highly sophisticated cuisine that dates back to the Ottoman Empire yet reflects many new influences today: a delicious array of kebabs, fillo pies, eggplant dishes in many guises, bulgur and chickpea salads, stuffed grape leaves and peppers, and sweet puddings. From Lebanon, a cuisine of great diversity: a wide variety of mezze (those tempting appetizers that can make a meal all on their own); dishes featuring sun-drenched Middle Eastern vegetables and dried legumes; and national specialties such as kibbeh, meatballs with pine nuts, and lamb shanks with yogurt.

Hubert Harrison Jeffrey Babcock Perry, 2009 This first full-length biography of Harrison offers a portrait of a man ahead of his time in synthesizing race and class struggles in the U.S. and a leading influence on better known activists from Marcus Garvey to A. Philip Randolph. Harrison emigrated from St. Croix in 1883 and went on to become a foremost organizer for the Socialist Party in New York, the editor of the *Negro World*, and founder and leader of the World War I-era New Negro movement. Harrison's enormous political and intellectual appetites were channeled into his work as an orator, writer, political activist, and critic. He was an avid bibliophile, reportedly the first regular black book reviewer, who helped to develop the public library in Harlem into an international center for research on black culture. But Harrison was a freelancer so candid in his criticism of the establishment-black and white-that he had few allies or people interested in protecting his legacy. Historian Perry's detailed research brings to life a transformative figure who has been little recognized for his contributions to progressive race and class politics. From the mid-1940s through the early 1960s, Niso Ramponi's work was everywhere, from collaborating with friend Federico Fellini in Italy's animation industry to drawing newspaper strips to creating movie posters for Walt Disney. Ramponi made his name, however, in Italy's weekly satire magazines, for which he drew some of the world's prettiest good girl gag cartoons and covers for over a decade. Volume 1 collects over 200 of Kremos' bodacious black & white cartoons and illustrations, while Volume 2 adds 250 of his curvaceous color comics and covers to the set. Combined, these volumes offer a comprehensive overview of the maverick artist when he was at the height of his powers.
