Strategic IQ John Wells, 2013-01-11 In today's world, only the smartest survive. The competitive landscape is littered with graves of well-known firms whose revenues, profits and stock prices rose for decades until they suddenly imploded. In fast-changing business environments, firms must adapt their strategies and innovate to remain at the top. But many successful firms fail to do so. Instead, they succumb to inertia, hesitate, or stick blindly to their old strategies, until it is too late. The ability to adapt to change is a measure of intelligence; so why do firms demonstrate such low Strategic IQ? What causes inertia and why is it so deadly? How can leaders help their firms to act more intelligently? This book identifies the key sources of inertia - strategic, structural and human - and provides practical advice on how they can be overcome to create smarter corporations. It is both a wake-up call for successful firms and a lifeline for firms struggling to succeed. To successful firms - beware! You may already be dead! To struggling firms - have hope! It is possible to pass powerful competitors by raising your strategic, structural and human IQ. Praise for Strategic IQ Hard-hitting and stimulating, Wells' thesis carries a robust message that should make business leaders the world over sit up and think. —Archie Norman, Chairman of ITV, UK Wells makes a compelling case for dramatic change. —Ron Sargent, CEO of Staples, USA

Small Nations, High Ambitions X. Hubert Rioux, 2020-02-24 Given the importance that entrepreneurship and start-up businesses in technology-intensive sectors like life sciences, renewable energy, artificial intelligence, financial technologies, software and others have come to assume in economic development, the access of entrepreneurs to appropriate levels of finance has become a major focus of policymakers in recent decades. Yet, this prominence has led to a variety of policy models across countries and even within countries, as different levels of government have adapted to new challenges by refining or transforming pre-existing institutions and crafting new policy tools. *Small Nations, High Ambitions* investigates the roots of such policy diversity at the “subnational” level, offering in-depth accounts of the evolution of Quebec’s and Scotland’s policy strategies in the entrepreneurial finance sector and venture capital more specifically. As compared to other regions and provinces in the United Kingdom and Canada, Quebec and Scottish venture capital ecosystems rely on a high degree of state intervention, either direct (through public investment funds) or indirect (through government-backed, hybrid, or tax-advantaged funds). These two regions can thus be described as “sponsor states,” heavily involved in the strategic backing of innovative businesses. Whereas most of the literature on venture capital has focused on economic variables to explain variations in policy models, this book seeks to explain policy divergence in Quebec and Scotland through political and ideological lenses. Its main argument is that the development of venture capital ecosystems in these regions was underpinned by Québécois and Scottish nationalisms, which induced preferences for policy asymmetry and state intervention.

Independence Hall Roland Smith,2013-05-20 Thirteen-year-old Quest (Q) isn't sure he's ready for a new family. For a long time it's just been him and his mom, Blaze. But everything changes when Blaze falls in love with Roger and they start a new rock band called Match. Now they're married, have a hit record, and Match is going out on a year-long driving tour across the country. Q, along with new stepsister Angela, will take a year off from school and travel with the band. For now, home will be a luxury motor coach and homework will be a Web site diary of their travels. Perfect-Q can practice his magic tricks and Angela can read her spy novels. What can go wrong? As Q and Angela settle into their new life and new relationship as siblings, they start to notice that certain coincidences don't seem coincidental. For example, how does a band roadie named Boone find them in the middle of a desert where their coach just happens to break down? Why does a man from their parents' wedding keep showing up in the same cities they stop at? When they reach Philadelphia, Q and Angela realize this tour is definitely not the trip their parents had planned and that the City of Brotherly Love is full of mysteries and secrets that could threaten their new life together. In addition to his action adventure books, Roland is the author of many award-winning books for children including *Journey of the Red Wolf*; *The Captain's Dog: My Journey with the Lewis and Clark Tribe*; and *Thunder Cave*, which was a 1996 Notable Children's Trade Book in the field of Social Studies. Leadership Intelligence Andrew Kakabadse, Ali Qassim Jawad,2019-02-21 In today's complex corporate world, contemporary governance calls for a varied and versatile cognitive approach to problems – demanding times require nimble minds and rounded perspectives. The authors' research has identified five key leadership intelligences – the 5Qs – which high-performing leaders need to simultaneously employ in order to achieve transformational change. These are: IQ (cognitive intelligence); EQ (emotional intelligence); PQ (political intelligence); RQ (resilience quotient); and MQ (moral intelligence). The 5Qs come together to inform every aspect of leadership, and each of them can, in different ways, be nurtured and practised through learning and development. Andrew Kakabadse and Ali Qassim Jawad have tested the 5Qs on leaders worldwide, applying them at all levels of leadership in order to explore the combinations of intelligences needed to become a well-rounded, effective leader in any situation.

Coaching for Emotional Intelligence Bob WALL,2006-10-27 At some point in their careers, all managers face a frustrating and seemingly insurmountable challenge -- the highly intelligent, highly skilled direct report who is failing when he should be excelling. Often, this employee is destroying not only his own career, but also the morale of the rest of the team. While this behavior may initially seem willful, it is more than likely due to a lack of emotional intelligence -- the ability to comprehend one's emotions, empathize with the feelings of others, and interact with people in ways that promote congenial working relationships. More than any other trait, emotional intelligence is the one variable that can transform a mediocre employee into an exceptional one. Managers now have a new and demanding role. They must become coaches who help their employees to develop emotional intelligence and the positive interpersonal relationships that result. And while this kind of corrective coaching may seem daunting and unpleasant to many managers, it is also achievable with the right tools. In *Coaching for Emotional Intelligence*, Bob Wall offers coaching strategies that will enable every manager to elicit excellence by improving the negative behaviors and communications flaws that are undermining an employee's

performance. The book provides a structured format for formulating and delivering both praise and corrective feedback, as well as a step-by-step method and sample scripts for conducting a coaching session. Readers will: Overcome the fear of coaching on sensitive, personal issues. Learn the critical importance of praise--and how to give it. Understand the influences that shaped the behaviors of the individual being coached. Determine whether an employee is responding to corrective coaching, when to keep him -- and when to fire him. Create an action plan for teaching employees to identify and alter unwanted behavior. Master spontaneous coaching: delivering praise in 15-20 seconds -- and corrective feedback within 45 seconds. Formulate structured conversations when corrective coaching isn't working. Create successful, detailed, and clear personal, team, and work evaluations and mission statements. The first book of its kind, *Coaching for Emotional Intelligence* is a thoughtful, realistic, and accessible guide that will change the way managers lead in the workplace -- and will ensure that their employees are reaching their full potential.

Managing Information Quality Martin J. Eppler, 2013-06-05 What makes information useful? This seemingly simple and yet intriguing and complicated question is discussed in this book. It examines ways in which the quality of information can be improved in knowledge-intensive processes (such as on-line communication, strategy, product development, or consulting). Based on existing information quality literature, the book proposes a conceptual framework to manage information quality for knowledge-based content. It presents four proven principles to apply the framework to a variety of information products. Five in-depth company case studies show how information quality

can be managed systematically. The book uses frequent diagrams and tables, as well as diagnostic questions and summary boxes to make its content actionable.

The Psychology of Intelligence Sonja Falck,2020-10-07 What fascinates us about intelligence? How does intelligence impact our daily lives? Why do we sometimes fear intelligence? Human intelligence is a vital resource, yet the study of it is pervaded by neglect and misconceptions. The Psychology of Intelligence helps make sense of the contradictory social attitudes and practices in relation to intelligence that we have seen over the decades, from the idea that it drove eugenicist policies and actions in the past, to our current backlash against experts and critical thinking. Showing how our approach to intelligence impacts our everyday lives in educational, occupational, medical, and legal settings, the book asks if it is possible to lift the taboo and move beyond the prejudices surrounding intelligence. Challenging popular assumptions, The Psychology of Intelligence encourages us to face intelligence in ourselves and others as an important fact of life that we can all benefit from embracing more openly.

The Giving Quilt Jennifer Chiaverini,2013-04-02 When the creative residents of Elm Creek gather the week after Thanksgiving to work on quilts for Project Linus, they respond to Sylvia's provocative questions to alleviate respective personal challenges and learn helpful lessons about the strength of human connections.

The Relational Intelligence Ivan Pitzer De Souza,2012-04 In this book, we find as a focus of the question of the interrelationship as a major duty, found in the meaning of the word reciprocity, which, is presented in a colloquial expression that means helping one another Our mission is essential and surmounted in love and compassion within an unrestricted human solidarity. My experience as a psychotherapist has always been very rewarding to support the author of this book, as wife and companion, to share the guidelines of each assessment and training to be given in our care to those who were seeking our help, encouraging the lives of many people who they needed to understand their role within the context of the dynamics of their personalities, within a frame of work of their personal and inter-relationships. Thus, the author goes beyond the relationship character traits to a close assessment, to evaluate the motivations and frustrations, as dynamic factors, starting from what a person wants to achieve for herself, and what to expect from the other character, who will always be connected to our congenial espheres. So as we have learned with our Master, with the utmost maxima of Christianity: Love thy God above all things, and thy neighbor as yourselves. Although it is a difficult mission, we must learn from Him that our solicitude will be in direct reasonable approach, for a reciprocal kind of love

Information Quality in Information Fusion and Decision Making Éloi

Bossé, Galina L. Rogova, 2019-04-02 This book presents a contemporary view of the role of information quality in information fusion and decision making, and provides a formal foundation and the implementation strategies required for dealing with insufficient information quality in building fusion systems for decision making. Information fusion is the process of gathering, processing, and combining large amounts of information from multiple and diverse sources, including physical sensors to human intelligence reports and social media. That data and information may be unreliable, of low fidelity, insufficient resolution, contradictory, fake and/or redundant. Sources may provide unverified reports obtained from other sources resulting in correlations and biases. The success of the fusion processing depends on how well knowledge produced by the processing chain represents reality, which in turn depends on how adequate data are, how good and adequate are the models used, and how accurate, appropriate or applicable prior and contextual knowledge is. By offering contributions by leading experts, this book provides an unparalleled understanding of the problem of information quality in information fusion and decision-making for researchers and professionals in the field.

Building Cultural Intelligence in Church and Ministry Osoba O.

Otaigbe, 2016-06-30 Revd Osoba Otaigbe has written a comprehensive guide for helping the church more effectively relate and serve across cultural borders. Whether you're welcoming a community of refugees, travelling on a short-term mission experience, befriending an expat family, or simply interacting with an increasingly diverse society, this guide will help you love your neighbour. The book is packed full of insights about cultural intelligence and brings them to life for Christians. The case studies and discussion questions are particularly useful for making the theoretical ideas immensely practical. As both a cultural intelligence researcher and a Christian, it gives me great joy to commend Revd Osoba and his work to you. David Livermore, PhD., author of Leading with Cultural Intelligence and President of Cultural Intelligence Centre USA Building Cultural Intelligence in Church and Ministry is a timely contribution to our understanding of the way varied global and local cultures can be nurtured to offer a rich and meaningful engagement in our lives and in work. It draws on a wide range of scriptural and practical examples that makes it an easy to read and understand study guide for various audiences. The guidance on how to develop cross-cultural competence, in particular, makes the book a must-read, one that promises to equip the reader with the much required understanding, appropriate responses, and management of diverse cross-cultural engagements in both missions and ministries. Dr Maureen Ayikoru, Senior Lecturer, Anglia Ruskin University, United Kingdom In our rapidly changing society it is really important that we all develop greater cultural intelligence. If we are to become the vibrant Kingdom community of all nations that the Bible envisages we need much greater understanding and appreciation of those who are different from ourselves. This book, and the assessment and workshops that go alongside it, will be particularly helpful for leaders, churches and groups who want to grow in this area. Relating the concepts of cultural intelligence to passages of Scripture, it will certainly encourage some great discussion, learning and reflection for discipleship and mission. Revd Lynn Green, General Secretary, Baptist Union of Great Britain Building Cultural Intelligence in Church and Ministry is a worthwhile work with important things to say and to give perceptive and practical guidance Prof David Dunn-Wilson, Honorary

Research Fellow, Cliff College, United Kingdom Building Cultural Intelligence in Church and Ministry book has done a marvelous job of integrating scriptural basis and reference points in the exploration of the cultural intelligence factors as they relate to ministry and mission. This being interspersed with practical and real world scenarios and examples is very helpful. The reflection/study guide questions are also well written and will provide for deeper learning, discussion and application. There is a considerable amount of information and detail to work through and I would suggest that people work through the book at a steady pace so that they can fully digest that immense learning and insights that this book will give. Adrian Kistan, Principal Consultant, Intercultural Solutions, Australia More than ever, cultural intelligence is a much-needed competence to grow, develop and nurture. Current fears and conflicts on the global and in local contexts, and not the least in churches, underscore this. Through this timely volume, Osoba O. Otaigbe brings his expertise as a cultural intelligence researcher, and years of experience working in cross-cultural and diverse contexts to offer an invaluable resource for churches. Building Cultural Intelligence in Church and Ministry draws on a variety of scholarly sources, biblical texts, and practical examples to provide readers with helpful insights and questions for reflection on developing cultural awareness, intelligence and competence. A welcome resource for ministerial/missional formation and both denominational and local church leadership! Michael N. Jagessar (Revd Dr) Global and Intercultural Ministries, United Reformed Church (UK)
