Tokyo Vernacular Jordan Sand,2013-07-13 Preserved buildings and historic districts, museums and reconstructions have become an important part of the landscape of cities around the world. Beginning in the 1970s, Tokyo participated in this trend. However, repeated destruction and rapid redevelopment left the city with little building stock of recognized historical value. Late twentieth-century Tokyo thus presents an illuminating case of the emergence of a new sense of history in the city's physical environment, since it required both a shift in perceptions of value and a search for history in the margins and interstices of a rapidly modernizing cityscape. Scholarship to date has tended to view historicism in the postindustrial context as either a genuine response to loss, or as a cynical commodification of the past. The historical process of Tokyo's historicization suggests other interpretations. Moving from the politics of the public square to the invention of neighborhood community, to oddities found and appropriated in the streets, to the consecration of everyday scenes and artifacts as heritage in museums, *Tokyo Vernacular* traces the rediscovery of the past—sometimes in unlikely forms—in a city with few traditional landmarks. Tokyo's rediscovered past was mobilized as part of a new politics of the everyday after the failure of mass politics in the 1960s. Rather than conceiving the city as national center and claiming public space as national citizens, the post-1960s generation came to value the local places and things that embodied the vernacular language of the city, and to seek what could be claimed as common property outside the spaces of corporate capitalism and the state.

Japanese Historiography and the Gold Seal of 57

The Ashgate Research Companion to Japanese Music David W. Hughes,2017-02-03 Music is a frequently neglected aspect of Japanese culture. It is in fact a highly problematic area, as the Japanese actively introduced Western music into their modern education system in the Meiji period (1868-1911), creating westernized melodies and instrumental instruction for Japanese children from kindergarten upwards. As a result, most Japanese now have a far greater familiarity with Western (or westernized) music than with traditional Japanese music. Traditional or classical Japanese music has become somewhat ghettoized, often known and practised only by small groups of people in social structures which have survived since the pre-modern era. Such marginalization of Japanese music is one of the less recognized costs of Japan's modernization. On the other hand, music in its westernized and modernized forms has an extremely important place in Japanese culture and

society, Beethoven's Ninth Symphony, for example, being so widely known and performed that it is arguably part of contemporary Japanese popular and mass culture. Japan has become a world leader in the mass production of Western musical instruments and in innovative methodologies of music education (Yamaha and Suzuki). More recently, the Japanese craze of karaoke as a musical entertainment and as musical hardware has made an impact on the leisure and popular culture of many countries in Asia, Europe and the Americas. This is the first book to cover in detail all genres including court music, Buddhist chant, theatre music, chamber ensemble music and folk music, as well as contemporary music and the connections between music and society in various periods. The book is a collaborative effort, involving both Japanese and English speaking authors, and was conceived by the editors to form a balanced approach that comprehensively treats the full range of Japanese musical culture.

Bujinkan Dojo Shinden Kihon Gata Rikard Sundelius, 2017-03-24 Boken är en guide över grunderna i Bujinkan Budo Taijutsu. Ett ramverk att hålla sig i. Men det finns även mer att hämta, om du väljer det. Den här boken är inte tänkt att ersätta en instruktör, därför att det helt enkelt inte är möjligt. Utgångspunkten har varit att försöka beskriva det fundamentala som du behöver öva på när du tränar Bujinkan. Beskrivningar över VAD du behöver jobba med, inte HUR. Din instruktör beskriver HUR du ska göra VAD, sedan är det upp till dig att GÖRA. Bokens rubriker och tekniker är jämförda mot det Japanska originalet. Syftet har varit att ligga så nära källan som möjligt. Ordningen från originalet skiljer sig något åt. Anledningen är att när

originalet skrevs för länge sedan så användes inte dagens graderingssystem (Kukyu) inom Bujinkan. I syfte att få till ett pedagogiskt upplägg som kopplar till vad du förväntas kunna till respektive kyugrad har ordningen på teknikerna ändrats till viss del. Originalets ordningsföljd på teknikerna i Ten Chi Jin Ryaku no Maki hittar du längst bak i boken som referens.

Breaking Barriers Constantine Nomikos

Vaporis, 2020-03-23 Travel in Tokugawa Japan was officially controlled by bakufu and domainal authorities via an elaborate system of barriers, or sekisho, and travel permits; commoners, however, found ways to circumvent these barriers, frequently ignoring the laws designed to control their mobility, in this study, Constantine Vaporis challenges the notion that this system of travel regulations prevented widespread travel, maintaining instead that a “culture of movement” in Japan developed in the Tokugawa era. Using a combination of governmental documentation and travel literature, diaries, and wood-block prints, Vaporis examines the development of travel as recreation; he discusses the impact of pilgrimage and the institutionalization of alms-giving on the freedom of movement commoners enjoyed. By the end of the Tokugawa era, the popular nature of travel and a sophisticated system of roads were well established: Vaporis explores the reluctance of the bakufu to enforce its travel laws, and in doing so, beautifully evokes the character of the journey through Tokugawa Japan.
