Fighting for Water Andreas Bieler,2021-05-20 In the wake of the global financial crisis, water services have come under renewed neoliberal assault across Europe. At the same time, the struggle against water privatization has continued to pick up pace; from the re-municipalization of water in Grenoble in 2000, to the United Nations declaration of water as a human right in 2010. In Fighting for Water, Andreas Bieler draws on years of extensive fieldwork to dissect the underlying dynamics of the struggle for public water in Europe. From the successful referendum against water privatization in Italy, via the European Citizens' Initiative on 'Water and Sanitation are a Human Right', the struggles against water privatization in Greece and water charges in Ireland, Bieler shows why water has been a fruitful arena for resistance against neoliberal restructuring.

New Approaches to Teaching Italian Language and Culture Emanuele Occhipinti,2008-12-11 New Approaches to Teaching Italian Language and Culture fills a major gap in existing scholarship and textbooks devoted to the teaching of Italian language and culture. A much-needed project in Italianistica, this collection of essays offers case studies that provide a coherent and organized overview of contemporary Italian pedagogy, incorporating the expertise of scholars in the field of language methodology and language acquisition from Italy and four major countries where the study of Italian has a long tradition: Australia, Canada, Great Britain and the United States. The twenty four essays, divided into six main parts, offer a tremendous variety of up-to-date approaches to the teaching of Italian as a foreign language and L2, ranging from theoretical to more practical, hands-on strategies with essays on curricular innovations, technology, study abroad programs, culture, film and song use as effective pedagogical tools. Each case study introduces a systematic approach with an overview of theory, activities and assessment suggestions, collection of research data and syllabi. The book addresses the needs of instructors and teacher trainers, putting in perspective different examples that can be used for more effective teaching techniques according to the ACTFL guidelines and the Common European Framework of Reference for Languages.

Italian as a foreign language: Teaching and acquisition in higher education Alberto Regagliolo,2023-10-10 This manual focuses on teaching Italian as a foreign language in the academic field, taking into consideration the various subjects and disciplines that can be found in a university course in Italian Studies. Various chapters are included within that range, for example, from Italian phonetics and dialectology to art as a means to deepen elements of the Italian language, to morphology with word formations, and to translation as well as subtitling. The range also covers technology as a tool for telecollaboration, academic writing, and learning Italian through geography or the language of vulgarity. Besides, the manual takes into consideration the use of the Italian press for learning, together with the use of comics and cartoons to teach the Italian language. The contribution aims to be a point of reference both for teachers and students who are focusing on linguistics, philology, didactics, and pedagogy. It lays emphasis on the teaching methodology, the instruments of teaching, and the available resources. It also seeks to deal with the various teaching problems and reflects on the disciplines as well as alternative proposals for teaching.

Merchants of Men Loretta Napoleoni,2016-08-30 A powerful and sophisticated underground business delivers thousands of refugees a day all along the Mediterranean coasts of Europe. The new breed of criminals that controls it has risen out of the political chaos of post-9/11 Western foreign policy and the fiasco of the Arab Spring. These merchants of men are intertwined with jihadist armed organizations such as al Qaeda in the Maghreb. They have prospered smuggling cocaine from West Africa and kidnapping Westerners. More recently, the destabilization of Syria and Iraq coupled with the rise of ISIS offered them new business opportunities in the Middle East, from selling Western hostages to jihadist groups to trafficking in refugees numbering in the millions. Overall, the kidnapping industry today is bigger than the illegal drug trade and worth hundreds of billions of dollars annually. Merchants of Men is based on exclusive access to hostage negotiators actively involved in ransom negotiations and rescue missions, counter-terrorism experts, members of security services, and former hostages, among many others. The reader will discover that the protocols of prevention and rescue change according to the type of abduction and the designated targets, and will come to know first hand the range of experiences of kidnapping victims. Will the West once again reap the benefits of the political chaos it has sown in its own backyard? From colonization to the advent of friendly dictatorial regimes, today's fast-aging European nations are buyers on the refugee market. New workers are needed, and the merchants of men are supplying them. But only skilled, highly educated refugees are wanted. As a tsunami of migrants and refugees floods Europe, new questions almost too numerous to count must be answered.

Italian Witchcraft and Shamanism Angela Puca,2024-04-11 Shamanism is thriving as an exotic import and a hidden native tradition in Italy today. This ethnographical work uncovers two faces of Italian shamanism. The first is trans-cultural shamans who creatively adapt rituals and beliefs from indigenous cultures worldwide. Second, extensive fieldwork shows how regional folk magic practices of segnatori and segnatrici constitute a little-known but enduring form of native Italian shamanism. By documenting these parallel worlds, contemporary magic workers appear to be the heirs of ancient local healing traditions. Offering rare insights into vernacular religion, this book vividly portrays shamans' past and present on the Italian peninsula.

Le tribolazioni di un italiano in Cina Andrea Pasquale,2017-08-26 Il Butre è un giovane neolaureato degli anni Duemila dall'animo nerd e dagli ingenui sogni di gloria. A seguito di mesi e mesi di fallimentari colloqui di lavoro, un invitante stage in Cina lo convince a fare le valigie e volare a Pechino. Ad accoglierlo trova il fastidioso Peter, autista cinese dall'inglese incerto, il quale ben presto si rivelerà essere un truffaldino tuttofare, un pessimo uomo e un campione mondiale di sputi. Il Butre diventerà così protagonista di un tragicomico viaggio fra Pechino, Tianjin e Wuhan che lo porterà a scontrarsi con i raggiri del suo autista, a imbattersi in un amore inaspettato e a incappare in situazioni ai limiti dell'umana sopportazione. Nel suo determinato tentativo di vendicarsi di Peter, scoprirà infine il lato chiaro di quel grande mistero chiamato Cina. "Le Tribolazioni di un italiano in Cina" è una storia autobiografica realmente accaduta e rappresenta l'inizio di un'avventura molto più grande che ha portato l'autore a vivere nel "Celeste Impero" per molti anni a seguire.
