Issues in the Multilingual Information Processing of Spoken Political and Journalistic Texts Christina Alexandris, 2020-01-21
From television screens to mobile phones, spoken political and journalistic texts in the media are accessible to recipients of almost any kind, including the international public. These texts constitute a remarkable source of empirical data for human behaviour and for linguistic phenomena, but pose significant challenges in terms of their evaluation, processing and translation due to a set of distinctive characteristics. This volume presents and describes a number of features of spoken political and journalistic texts, and proposes strategies for their correct and efficient analysis and processing both by human evaluators and by Natural Language Processing applications. The book also discusses the accessibility of "complex" information content and transfer for an international

audience, as well as the visibility of the speaker's attitude and intentions.

Pardon My French Allen Johnson, 2015-10-27 To make a friend is a joy. To make a friend in another country is a wonderment—a small miracle. *Pardon My French* follows the lives of an American couple who have embraced a daunting mission: Not to be spectators in France, but to be absorbed by France. Amidst the minefields of linguistic faux pas, the perplexities of French gestures, the exquisite and often exotic cuisine, and the splendor of Christmas on the Mediterranean—see what it is like for

an occasionally gruff American to be adopted into a new family. Witness the hugging, the teasing, and the laughter that follows, when nothing on earth could be more perfect. Experience what it is like to fall in love with the French. Follow the adventures of the author as he pits his rather staid and conventional driving skills against the French speed demons of Languedoc. Step into his sneakers as he tests his basketball prowess against the young French bucks adorned with backward ball caps and over-the-knee Chicago Bulls game shorts. Watch how he frolics in the Mediterranean Sea for the first time with a French topless companion. Marvel as he sits in with a world-class French jazz band. Observe him overcome his shyness in talking to the beautiful nude model from his painting class in the studio atop the village police station. Envision how he learns to dance the tango with his head upright, his chest expanded, and his strides befitting a newly adorned French god—one with sensuality on his mind.

Using Technology to Support High-Impact Educational Practice

Karen S. Ivers, 2018-12-01 Emphasizing the importance of preparing students for the global workforce, this title explains how to teach using the latest educational technology. As technology becomes more advanced and accessible, it gives rise to new delivery methods of instruction and learning. High Impact Educational Practices including collaboration, diversity, global learning, service- and project-based learning, and research and writing, can be used to strengthen students' readiness for the demands of the 21st-century global community and workforce. This book helps current and future K–12 educators to better understand high impact educational practices and why they are important. It provides educators with ideas of how to use technology to support high impact educational practices in their classrooms and helps them to create just, equitable, and inclusive learning environments that support 21st-century learning.

CultureShock! Shanghai Sharol Gauthier, 2019-09-15

CultureShock! Shanghai is the complete guide for those who are trying to get a handle on China's glittering crown jewel that is both charmingly ancient yet stunningly ultra-modern. Can you tell your xiaolongbao from your xiaolongxia? What is this nebulous concept called guan xi? Is being called a laowai a pejorative? Boasting some of the world's tallest buildings, largest businesses, longest bridges, fastest trains and elevators, and finest restaurants, Shanghai is a megacity and world-class financial centre that may well be the world's first cashless society, but it also has cosy streets filled with napping bicyclists, dancers in full costume and seniors with bird cages. With impressive light shows, backlit freeways and luminous skylines, Shanghai is truly a city of light. Get the most out of your stay with this guide to the Asian metropolis par excellence. The Series CultureShock! is a dynamic, indispensable series of guides for travellers looking to truly understand the countries they are visiting, working in or moving to. Each title explains the country's customs, traditions and social and business etiquette in a lively, informative style. CultureShock! authors, all of whom have experienced the joys and pitfalls of cultural adaptation, are ideally placed to provide warm and helpful advice to those who seek to integrate seamlessly into diverse

cultures.

iPads® in the Library Joel A. Nichols, 2013-06-13 Looking for a programming guide for computer tablet use in the library setting? This book provides detailed plans and instructions with specific literacy goals for child, teen, and adult audiences—exactly what librarians seeking to integrate iPad and other tablet use into their programs need. Tablet computers are fast becoming a ubiquitous technology. These devices also represent a unique opportunity for librarians and teachers because they are relatively affordable, easy to configure and maintain, and highly adaptable. Written by a practicing digital literacy instruction librarian who is also a trained children's librarian, this book offers 50 practical programming scenarios that librarians can use to integrate iPads or other tablet

devices into their programming, offering different plans for toddlers and pre-K child, school-aged patrons, teenagers, adults, and even seniors. The plans provide easy-to-follow, step-by-step instructions and are designed to be easily adaptable to serve specific audiences. The book serves as a unique resource that helps librarians address digital literacy and bridge the digital divide by focusing on—and catering to—the needs of many age groups. Author Joel A. Nichols also provides annotated lists of apps that present librarians new to tablet computing simple and effective ways of integrating an iPad into their programs.

The Routledge Handbook of Translation and Ethics Kaisa Koskinen, Nike K. Pokorn, 2020-12-16 The Routledge Handbook of Translation and Ethics offers a comprehensive overview of issues surrounding ethics in translating and interpreting. The chapters chart the philosophical and theoretical underpinnings of ethical thinking in Translation Studies and analyze the ethical dilemmas of various translatorial actors, including translation trainers and researchers. Authored by leading scholars and new voices in the field, the 31 chapters present a wide coverage of emerging issues such as increasing technologization of translation, posthumanism, volunteering and activism, accessibility and linguistic human rights.

Many chapters provide the first extensive overview of the topic or present new takes on established areas. The book is divided into four parts, with the first covering the most influential ethical theories. Part II takes the perspective of agents in different contexts and the ethical dilemmas they face, while Part III takes a critical look at central institutions structuring and controlling ethical behaviour. Finally, Part IV focuses on special issues and new challenges, and signals new directions for further study. This handbook is an indispensable resource for all students and researchers of translation and ethics within translation and interpreting studies, multilingualism and comparative literature.

The Globotics Upheaval Richard Baldwin, 2019-01-09 At the root of inequality, unemployment, and populism are radical changes in the world economy. Digital technology is allowing talented foreigners to telecommute into our workplaces and compete for service and professional jobs. Instant machine translation is melting language barriers, so the ranks of these tele-migrants will soon include almost every educated person in the world. Computing power is dissolving humans' monopoly on thinking, enabling AI-trained computers to compete for many of the same white-collar jobs. The combination of globalization and

robotics is creating the globotics upheaval, and it threatens the very foundations of the liberal welfare-state. Richard Baldwin, one of the world's leading globalization experts, argues that the inhuman speed of this transformation threatens to overwhelm our capacity to adapt. From computers in the office to automatic ordering systems in restaurants, we are familiar with the how digital technologies offer convenience while also eliminating jobs.

Globotics will disrupt the lives of millions of white-collar workers much faster than automation, industrialization, and globalization disrupted the lives of factory workers in previous centuries. The result will be a backlash. Professional, white-collar, and service workers will agitate for a slowing of the unprecedented pace of disruption, as factory workers have done in years past. Baldwin argues that the globotics upheaval will be countered in the short run by shelter-ism - government policies that shelter some service jobs from tele-migrants and thinking computers. In the long run, people will work in more human jobs-activities that require real people to use the uniquely human ability of independent thought- and this will strengthen bonds in local communities. Offering effective strategies such as focusing on the social value of work, The Globotics Upheaval will help people prepare for the oncoming

wave of an advanced robotic workforce.

Chibi Barbara Ann Clay Marshall,2023-02-15 Chibi By:

Barbara Ann Clay Marshall About the Book Ann's interests have always been music and art. But when her cat, Chibi, drowned in the pool, Ann had to write this book. Chibi could not get out because he had no claws. If a cat has no kind human being to give him food, he needs his claws to help him find his own. If attacked, he cannot climb a tree or protect himself without his claws.

Declawing a cat is a painful procedure and continues to hurt long after the surgery. Ann hopes that children reading about Chibi will understand how important it is for cats to keep their claws. In New York it is against the law to declaw a cat. Maybe that will become the law for all of the United States.

iProduttivo | Metodi e app per vivere e lavorare con iphone e ipad - Con questi strumenti anche tu sarai sempre organizzato e superproduttivo Silvio Gulizia,2015-06-30T00:00:00+02:00 Pratica guida che insegna a usare iPhone e iPad per organizzare al meglio la vita e il proprio lavoro e aumentare nettamente la produttività aziendale. L'autore – esperto in app gestionali e da sempre project manager di importanti startup – parte dall'organizzazione di base del tuo smartphone o tablet, per passare subito dalla teoria alle

attività da mettere in pratica, indicando quei metodi e applicazioni più utili per vivere più serenamente e lavorare risparmiando tempo e fatica. Spesso non ci rendiamo conto che il nostro device Apple è molto più che un mezzo di navigazione o accesso ad iCloud, molto più che controllare la posta e trovare luoghi o contenuti. La gestione del tempo, nota come Time Management, è un'operazione molto delicata e che richiede molta conoscenza di sé, dei propri limiti e possibilità, e anche e soprattutto dei software gestionali esistenti. Puoi coordinare più persone su un progetto, puoi sincronizzare Siri con l'app gestionale e con un comando vocale organizzare l'agenda in modo più dettagliato, puoi programmare al millimetro le telefonate per ottimizzare la giornata. Essere iProduttivo è uno stile di vita. L'immagine di copertina è stata realizzata da Giorgio Gualandris.
