*American Men and Women in Medicine, Applied Sciences and Engineering with Roots in Czechoslovakia* Miloslav Rechcigl Jr., 2021-02-17 No comprehensive study has been undertaken about the American learned men and women with Czechoslovak roots. The aim of this work is to correct this glaring deficiency, with the focus on men and women in medicine, applied sciences and engineering. It covers immigration from the period of mass migration and beyond, irrespective whether they were born in their European ancestral homes or whether they have descended from them. This compendium clearly demonstrates the Czech and Slovak immigrants, including Bohemian Jews, have brought to the New World, in these areas, their talents, their ingenuity, the technical skills, their scientific knowhow, as well as their humanistic and spiritual upbringing, reflecting upon the richness of their culture and traditions, developed throughout centuries in their ancestral home. This accounts for their remarkable success and achievements of these settlers in the New World, transcending through their descendants, as this publication demonstrates. The monograph has been organized into sections by subject areas, i.e., Medicine, Allied Health Sciences and Social Services, Agricultural and Food Science, Earth and Environmental Sciences and Engineering. Each individual entry is usually accompanied with literature, and additional biographical sources for readers who wish to pursue a deeper study. The selection of individuals has been strictly based on geographical vantage, without regards to their native language or ethnical background. Some of the entries may surprise you, because their Czech or Slovak ancestry has not been generally known. What is conspicuous is a large percentage of listed individuals being Jewish, which is a reflection of high-level of education and intellect of Bohemian Jews. A prodigious number of accomplished women in this study is also astounding, considering that, in the 19th century, they rarely had careers and most professions refused entry to them.

*Notable American Women with Czechoslovak Roots* Miloslav Rechcigl Jr., 2019-09-16 Even though there exist only a few general studies on the subject of Czechoslovak American women, this is not, at all, a reflection of the paucity of work done by these women, as this publication demonstrates. This monograph is a compendium of notable American women with Czechoslovak roots, who distinguished themselves in a particular field or area, from the time they first immigrated to America to date. Included are, not only individuals born on the territory of former Czechoslovakia, but also their descendants. This project has been approached strictly geographically, irrespective of the language or ethnicity. Because of the lack of bibliographical information, most of the monograph comprises biobibliographical information, in which area a plethora of information exists. As the reader will discover, these women have been involved, practically, in every field of human endeavor, in numbers that surprise. On the whole, they have been noted for their independent spirit and nonconforming role.

**New Woman and the Empire** Iveta Jusova, 2017 The New Woman and the Empire examines the intersections of gender, race, and colonial issues in the work of four culturally, socially, and nationally disparate New Women: Sarah Grand, George Egerton, Elizabeth Robins, and Amy Levy. Iveta Jusova underscores essential differences in these women's negotiations of the Victorian colonial narrative and ascertains how these authors located the fin-de-siècle New Woman project in relation to the late-Victorian colonial contest and the racially biased narratives of evolution. Seeking to contribute to our understanding of the discursive strategies available to late-Victorian women's efforts to create space for their feminist agenda in public discourse, the book urges the reader to confront the fact that the success of these strategies was often predicated on marginalizing others. It underscores the various ways in which the work of all of the examined authors supported British imperialist efforts. Viewing much of Grand's and Robins' works' embracement of the official colonial narrative as a strategically motivated move, The New Woman and the Empire focuses on the limitations such a narrative choice placed on these authors' feminisms. But the book also highlights various discursive strategies that Egerton and Levy, and to a lesser extent Robins and Grand, forged to express a more resistant position towards both colonial narrative and evolutionary discourse.

**The Business Case for Sustainable Finance** Iveta Cherneva, 2012 This edited volume brings together finance industry perspectives from top global institutions, which focus on the bottom line for integrating ESG factors into the operations of the finance industry. Executives and senior practitioners answer the question: 'does following sustainable finance principles make commercial sense for a commercially-oriented financial institution, and if so, what evidence is there?' '

*Analysis of the Adventures of Huckleberry Finn from a Moral Approach* Iveta Mašlonková, 2017-11-20 Essay from the year 2016 in the subject American Studies - Literature, grade: A, Matej Bel University in Banská Bystrica, language: English, abstract: In this essay I want to prove the moral value of the book 'The Adventures of Huckleberry Finn'. According to moral approach literature and study of literature teach us the most fundamental, essential values of human moral. In the centre is the nature of man. It doesn't consider literature to be just art, but it concentrates on the didactic function of literature. Some philosophers believed that literature can foster virtue. It is a source of moral and spiritual inspiration. Thank to literature we can become better people.

**Czech Feminisms** Iveta Jusová, Jirina Šiklová, 2016-09-26 Sixteen essays "apply the intersectional theory in an inspiring way in the analysis of gender issues in the past and in contemporary Czech society" (Aspasia). In this wide-ranging study of women's and gender issues in the pre- and post-1989 Czech Republic, contributors engage with current feminist debates and theories of nation and identity to examine the historical and cultural transformations of Czech feminism. This collection of essays by leading scholars, artists, and activists, explores such topics as reproductive rights, state socialist welfare provisions, Czech women's NGOs, anarchofeminism, human trafficking, LGBT politics, masculinity, feminist art, among others. Foregrounding experiences of women and sexual and ethnic minorities in the Czech Republic, the contributors raise important questions about the transfer of feminist concepts across languages and cultures. As the economic orthodoxy of the European Union threatens to occlude relevant stories of the different national communities comprising the Eurozone, this book contributes to the understanding of the diverse origins from which something like a European community arises. "While the collection demands that we understand Czech uniqueness, at the same time it is at its best when this uniqueness comes into focus through comparative study." —Feminist Review "A colorful bouquet offering an overview of directions taken by Czech feminist scholarship since the 1990s." —Slavic Review

*The New Woman and the Empire* Iveta Jusová, 2005

**From Sites of Occupation to Symbols of Multiculturalism** Iveta Silova, 2006-03-01 Rarely do we find books in educational research that are both thick in context and rich in theory. Usually books emphasize one over the other. Authors that engage in thick descriptions tend to fall short of explaining what larger theoretical issue their case stands for. Vice versa, authors who make a case for a particular theory do not always describe their case in sufficient detail. From Sites to Occupation to Symbols of Multiculturalism is a remarkable exception. The book is a major break-through in case study methodology, multiculturalism and policy borrowing/lending research. The book investigates a puzzle: how is it that one and the same system, the system of separate schooling for Latvian and Russian speakers, is seen as a site of occupation during one period (1987-1990) and as a symbol of

multiculturalism in the next (1991-1999)? The system has stayed in place, but the meaning attached to it has been completely inverted. Is cultural change without structural change possible? Does it mean that the dual school system has become anachronistic, and will eventually disappear in light of the cultural changes of the past decade? The book is the story of a great metamorphosis of one and the same system of separate schooling that, at first unbelievable, gradually makes sense.

**Folds of Past, Present and Future** Sarah Van Ruyskensvelde,Geert Thyssen,Frederik Herman,Angelo Van Gorp,Pieter Verstraete,2021-09-07 This volume brings together important theoretical and methodological issues currently being debated in the field of history of education. The contributions shed insightful and critical light on the historiography of education, on issues of de-/colonization, on the historical development of the educational sciences and on the potentiality attached to the use of new and challenging source material.

**Iveta Bartošová: tichá píseň** Václav Nekvapil,2014-01-01 Když nakladatelství XYZ začalo plánovat na podzim roku 2014 nové a rozšířené vydání úspěšné knihy Iveta Bartošová: Odhalená pravda, nikoho včetně autorů nenapadlo, že k již tak zvláštnímu příběhu přibude poslední a zcela fatální kapitola. Po dlouhém zvažování jsme se rozhodli přistoupit k vydání i po tragické události, která ukončila život této talentované zpěvačky, často označované za princeznu českého popu. Důvodů je několik. Iveta Bartošová byla více než 30 let výraznou součástí českého showbyznysu. Ale nejedná se pouze o příběh její. Kniha je také příběhem československé a české pop-music ve dvou obdobích – před listopadem 1989 a po něm. Autorům se totiž podařilo shromáždit obrovské množství materiálů, zpovědí a komentářů, a tak se vlastně jedná o více než poutavou kroniku. A tím druhým důvodem je opravdu zvláštní, až bizarní cesta prostého a půvabné děvčete z Čeladné, které počátkem devadesátých let dosáhlo vrcholu slávy zpěvačky líbivého popu, až do období, kdy si coby zdevastovaná, z bulvární popularity těžící star sáhla na život. Její život je až románovým příběhem, jenž se může stát varováním a mementem pro jiné křehké holky, jež o hvězdném showbyznysu teprve naivně sní.

**Qualitative Research** Robert E. Stake,2010-03-02 Winner of the 2011 Special Career Award in Qualitative Inquiry from the International Congress for Qualitative Inquiry! This book provides invaluable guidance for thinking through and planning a qualitative study. Rather than offering recipes for specific techniques, master storyteller Robert Stake stimulates readers to discover how things work in organizations, programs, communities, and other systems. Topics range from identifying a research question to selecting methods, gathering data, interpreting and analyzing the results, and producing a well-thought-through written report. In-depth examples from actual studies emphasize the role of the researcher as instrument and interpreter, while boxed vignettes and learning projects encourage self-reflection and critical thinking. Other useful pedagogical features include quick-reference tables and charts, sample project management forms, and an end-of-book glossary. After reading this book, doctoral students and novice qualitative researchers will be able to plan a study from beginning to end. The book will appeal to graduate students in education, psychology, sociology, social work, management, and nursing; qualitative researchers and evaluators. It will also serve as a core book in doctoral-level courses such as qualitative methods and qualitative dissertation/proposal writing, and as a supplemental text in graduate-level research design courses.

**Restoring Trust in Trade** Denise Prévost,Iveta Alexovicova,Jens Hillebrand Pohl,2018-12-13 In the aftermath of the global financial crisis, the world has witnessed increasing manifestations of eroding trust in the international trade regime, including Brexit and the Trump administration's unilateral trade policies. Restoring trust in the international trading system is essential to prevent the rise of economic nationalism and beggar-thy-neighbour policies, which as history has shown are a threat to global welfare and peace. As a scholar, counsellor of the WTO Appellate Body Secretariat, and, between 2009 and 2017, a member of the WTO Appellate Body, Peter Van den Bossche has addressed the challenges faced by the international trade regime and has tirelessly promoted trust in the multilateral governance model. This Liber Amicorum honours his contribution to the development of a 'trustworthy' rules-based multilateral trading system, which has left a lasting legacy. In this timely book, leading experts and friends of Peter Van den Bossche, including his mentors, colleagues and PhD candidates, come together to pay tribute to his work by exploring, from a legal perspective, what can be done to restore trust in trade, focusing on: (1) ensuring a robust institutional framework that promotes rule of law over power politics, (2) safeguarding the integrity and effectiveness of trade dispute settlement, and (3) ensuring that substantive international trade rules appropriately balance trade and non-trade interests.
