The Life of Adam Smith Ian Simpson Ross,1995-10-19 Adam Smith (1723-1790) is perceived, through his best-known book, *An Inquiry into the Nature and Causes of the Wealth of Nations*, as the founder of economics as a science. His thought has shaped modern ideas about the market economy and the role of the state in relation to it. Yet Smith needs to be recognized as more than this, as a man of letters, moralist, historian, and critic, as well as an economist, if we are to get full value for his ideas and perspectives in contemporary applications. Ian Simpson Ross is the biographer of Lord Kames, Smith's patron, and of the Scottish poet William Dunbar, and has edited, with E C Mossner, Smith's correspondence for the Glasgow edition of his works. In this, the first full-scale biography of Adam Smith for a hundred years, Ross brings his subject in to historical light as a thinker and author by examining his family circumstance, education, career, and social and intellectual circle, including David Hume and Francois Quesnay, revealed through his correspondence, archival documents, the reports of contemporaries, and the record of his publications. Readers will meet Smith as a student at a lively Glasgow and sleepy Oxford; freelance lecturer in rhetoric; innovative university teacher; tutor travelling abroad with a Duke; acclaimed political economist; policy advisor to governments during and after the American crisis; and finally, if paradoxically in view of his tenets, a Commissioner of Customs coping with the free traders in the smuggling business. This is the life of a Scottish moral philosopher whose legacy of thought concerns and affects us all. Its lively and informed account will appeal to those interested in the social and intellectual milieu of the eighteenth century, and in Scottish history. Economists and philosophers will find much to read about the history of their disciplines, supported by full documentation.

An Analysis of Jacques Derrida's Structure, Sign and Play in the Discourse of the Human Sciences Tim Smith-Laing,2017 Delivered at a conference on structuralism at Johns Hopkins, Jacques Derrida's *Structure, Sign, and Play* took aim at the critical and philosophical fashions of the time and radically proposing a world in which meaning cannot be pinned down or traced to an origin, but instead is continuously shifting, fleeting, and open to play.

Jacques Derrida: Live Theory James KA Smith,2005-10-20 Jacques Derrida: *Live Theory* is a new introduction to the work of this most influential of contemporary philosophers. It covers Derrida's corpus in its entirety - from his earliest work in phenomenology and the philosophy of language, to his most recent work in ethics, politics and religion. It investigates Derrida's contribution to, and impact upon such disciplines as philosophy, literary theory, cultural studies, aesthetics and theology. Throughout, the key concepts that underpin Derrida's thought are thoroughly examined; in particular, the notion of 'the Other' or 'alterity' is employed to indicate a fundamental continuity from Derrida's earliest to his latest work. The text emphasizes the importance of understanding Derrida's philosophical heritage as the key to understanding the interdisciplinary impact of his project. In the wake of Derrida's death, the book includes an interview that interrogates the very notion of live theory as a way into the core themes of deconstruction.

THE CLOUD WATCHERS Mark Roland Langdale,2020-01-28 In the future, the world is in peril. Global warming has taken its toll, deforestation has wiped out too many forests and there's worse yet to come. Earth is on its last legs, and the Cloud Watchers of old have disappeared into legacy. Deep in the forest, two environmentally conscious runaways live off grid to do their bit to save the planet. Up in the clouds, the floating airship The Cloud Lab watches over the Earth as best they can. A steamship captain, an old Cloud Watcher, workers in Kew Gardens, and more all watch and wonder what will be the final straw that tips the Earth into chaos. When the Anti-Environmental League forms, an unexpected revolt sets events into motion that cannot be undone. Difficult challenges arise that might just be the planet's ultimate downfall - unless the world's population can be roused to save itself.

Jacques Rivette Douglas Morrey,Alison Smith,2019-01-31 Jacques Rivette is perhaps the best-kept secret of French cinema. A founding figure in the New Wave, and at the centre of the Cahiers du cinéma team, he developed into one of the most unusual and adventurous French directors of the last sixty years, yet his work remains little-known in comparison with his contemporaries, and this study is the first in English to look at the full span of his career. Starting with his decisively influential film criticism of the 1950s, it moves from the New Wave through the complex, experimental films of the 1970s to the challenging, playful dramas which ensured his visibility during the following two decades, and ends in the present, including Rivette's most recent films, *Histoire de Marie et Julien* (2003) and *Ne touchez pas la hache* (2007). The book takes a thematic approach, offering detailed discussion of key elements of Rivette's film world, including games, conspiracy and jealousy, as well as a study of what Rivette's cinema adds to our understanding of key theoretical concepts in Film Studies such as narrative, space and adaptation. There are many close analyses of sequences from Rivette's films including *Paris nous appartient* (1961), *Céline et Julie vont en bateau* (1974) and *La Belle Noiseuse* (1991).

New England Encounters Alden T. Vaughan,1999 The essays, which were originally published in *The New England Quarterly: A Historical Review of New England Life and Letters*, consider a wide range of areas in Native American-white relations: from Abenaki territory in northern Maine to Pequot lands in southern Connecticut; from profitable commerce to devastating warfare; from religious persuasion to labor exploitation; from cultural mixing to non-violent resistance; from literary representation to political argumentation. A comprehensive and insightful introduction by the editor places the richly diverse topics and perspectives within the broader context of New England ethnohistory. Most of the authors have added postscripts to their original essays commenting on recent scholarship and interpretations.

Riding with Death Jana Evans Braziel,2017-06-22 On the southern end of the Grand Rue, a major thoroughfare that runs through the center of Port-au-Prince, waits the Haitian capital's automobile repair district. This veritable junkyard of steel and rubber, recycled parts, old tires, and scrap metal

might seem an unlikely foundry for art. Yet, on the street's opposite end thrives the Grand Rue Galerie, a working studio of assembled art and sculptures wrought from the refuse. Established by artists Andre Eugene and Jean Herard Celeur in the late 1990s, the Grand Rue's urban environmental aesthetics--defined by motifs of machinic urbanism, Vodou bricolage, the postprimitivist altermodern, and performative politics--radically challenge ideas about consumption, waste, and environmental hazards, as well as consider innovative solutions to these problems in the midst of poverty, insufficient social welfare, lack of access to arts, education, and basic needs. In *Riding with Death*, Jana Evans Braziel explores the urban environmental aesthetics of the Grand Rue sculptors and the beautifully constructed sculptures they have designed from salvaged automobile parts, rubber tires, carved wood, and other recycled materials. Through first-person accounts and fieldwork, Braziel constructs an urban ecological framework for understanding these sculptures amid environmental degradation and grinding poverty. Influenced by urban geographers, art historians, and political theorists, the book regards the underdeveloped cities of the global South as alternate spaces for challenging the profit-driven machinations of global capitalism. Above all, Braziel presents Haitian artists who live on the most challenged Caribbean island, yet who thrive as creators reinventing refuse as art and resisting the abjection of their circumstances.
