Liquor in the Land of the Lost Cause Joe Coker, 2007-12-14 In the late 1800s, Southern evangelicals believed contemporary troubles—everything from poverty to political corruption to violence between African Americans and whites—sprang from the bottles of “demon rum” regularly consumed in the South. Though temperance quickly gained support in the antebellum North, Southerners cast a skeptical eye on the movement, because of its ties with antislavery efforts. Postwar evangelicals quickly realized they had to make temperance appealing to the South by transforming the Yankee moral reform movement into something compatible with southern values and culture. In *Liquor in the Land of the Lost Cause: Southern White Evangelicals and the Prohibition Movement*, Joe L. Coker examines the tactics and results of temperance reformers between 1880 and 1915. Though their denominations traditionally forbade the preaching of politics from the pulpit, an outgrowth of evangelical fervor led ministers and their congregations to sound the call for prohibition. Determined to save the South from the evils of alcohol, they played on southern cultural attitudes about politics, race, women, and honor to communicate their message. The evangelicals were successful in their approach, negotiating such political obstacles as public disapproval the church’s role in politics and vehement opposition to prohibition voiced by Jefferson Davis. The evangelical community successfully convinced the public that cheap liquor in the hands of African American “beasts” and drunkard husbands posed a serious threat to white women. Eventually, the code of honor that depended upon alcohol-centered hospitality and camaraderie was redefined to favor those

who lived as Christians and supported the prohibition movement. *Liquor in the Land of the Lost Cause* is the first comprehensive survey of temperance in the South. By tailoring the prohibition message to the unique context of the American South, southern evangelicals transformed the region into a hotbed of temperance activity, leading the national prohibition movement.

Joe Brown's Pets William Robert Scaife, William Harris Bragg, 2004 At the beginning of the Civil War, Georgia ranked third among the Confederate states in manpower resources, behind only Virginia and Tennessee. With an arms-bearing population somewhere between 120,000 and 130,000 white males between the ages of 16 and 60, this resource became an object of a great struggle between Joseph Brown, governor of Georgia, and Jefferson Davis, president of the Confederacy. Brown advocated a strong state defense, but as the war dragged on Davis applied more pressure for more soldiers from Georgia. In December 1863, the state's general assembly reorganized the state militia and it became known as Joe Brown's Pets. Civil War historians William Scaife and William Bragg have written not

only the first history of the Georgia Militia during the Civil War, but have produced the definitive history of this militia. Using original documents found in the Georgia Department of Archives and History that are too delicate for general public access, Scaife and Bragg were granted special permission to research the material under the guidance of an archivist and conducted under tightly controlled conditions of security and preservation control.

A Theoretical Approach to Modern American History and Literature W.

Lawrence Hogue,2020-01-10 This book reconfigures the history of modern America, showing how multiple and, at times, vulnerable social, economic, literary, and political movements, levels, divisions, and conditions such as the emergent middle class, the labor

movement, the Progressive Movement, the socialist and communist parties, the Women's movements, the NAACP, the Garvey movement, Asian and Native American resistance movements, writers, artists, and intellectuals seized upon social, gender, economic, and racial inequalities and challenged a singularly defined modern America. This book re-represents the modern American novel, accenting the different critical literary voices that come out of the mainstream consumer society but also out of the various unequal social, economic, gender, and political movements and situations. In including racial, gender, sexual, colonial, class, and ethnic others—who reject the rigidity, the repression, the racial and ethnic stereotyping, the external and internal colonialism, the complication/rejection of the past/nature, and the violence of the institutionalized, conformist norm—in a discussion of the modern American novel, it effects a fundamental recasting of the modern Americanist paradigm, one that is de-centered, richer, more complex, and more diverse.

Simply Now: the Essence of the Moment D.B. Riley, 2012-04-04 It is just as impossible to live in the past as it is to live in the future. Granted, we should learn from the past just as we should plan for the future, but when all is said and done the only thing we really have is this very moment Simply Now. Just as the flower on the cover of the book illustrates the time for blooming is now. Yesterday was too soon and tomorrow is too late. The moment in life that counts the most is Simply Now. The poems and essays in this book deal with some of the more complex moments of our lives. These are the moments where

nothing else really matters except for the situation at hand. Although life is ripe with such moments, the scope of *Simply Now: The essence of the moment* is confined to the moments primarily associated with aging, death and dying. These are moments that we all will be faced with but are seldom prepared for. Whether it be taking care of an aged parent that suffers from Alzheimers or sitting at the funeral home making burial arrangements for a deceased loved one, the moment is now. Whats more, the poems and essays in this book are about life, faith and finishing well the critical moments where faith is called into action as a means to make sense of the end of life issues for the aged and dying.
