In her tiny workshop, she spends hours making her friends beautiful clothes. She adds a lot of shine, sparkling buttons, and bright fabrics to each piece of clothing. This is what Barbie wants to do. Her goal is to become a famous fashion designer whose clothes and items people all over the world want to buy. One sunny morning, Barbie was sewing in her workplace when she got a letter that would change her whole life. It was an invite to Paris Fashion Week! Paris Fashion Week is a huge event where the most famous fashion designers in the world show off their newest designs. Barbie's dream came true! She was so happy she almost couldn't stand it. She danced all around her room, happy as could be. She knew this was her chance. She started right away to get dressed. It was her dream to make gowns that would amaze everyone. She worked day and night to add the last little details to each outfit. Pink and soft fabrics were used by Barbie. She made sure that every stitch was put in exactly the right place. When she thought about the dresses that would be walking down the Parisian runway, she worked even harder. After a few days, Barbie's friends showed up to help her. They not only helped her choose the materials and brought her drinks, but they also wore the gowns so Barbie could see how they would look. Barbie finished her dress collection with the help of her friends. Each one was a beautiful, creative work of art that was full of life. It was finally time for Barbie to go to Paris. She packed her beautiful clothes with care and started her trip. When she first went to Paris, she was amazed by how beautiful it was. She didn't have much time to see the sights because she had to get ready for the fashion show. It was both scary and exciting for Barbie on the day of the fashion show. Behind the scenes, she watched models walk down the runway wearing her clothes. Her drawings were loved by everyone! A group of people cheered. Barbie had tears of

Ready Player Two Shira Chess, 2017-10-01 Cultural stereotypes to the contrary, approximately half of all video game players are now women. A subculture once dominated by men, video games have become a form of entertainment composed of gender binaries. Supported by games such as Diner Dash, Mystery Case Files, Wii Fit, and Kim Kardashian: Hollywood—which are all specifically marketed toward women—the gamer industry is now a major part of imagining what femininity should look like. In Ready Player Two, media critic Shira Chess uses the concept of “Player Two”—the industry idealization of the female gamer—to examine the assumptions implicit in video games designed for women and how they have impacted gaming culture and the larger society. With Player Two, the video game industry has designed specifically for the feminine ideal: she is white, middle class, heterosexual, cis-gendered, and abled. Drawing on categories from time management and caregiving to social networking, consumption, and bodies, Chess examines how games have been engineered to shape normative ideas about women and leisure. Ready Player Two presents important arguments about how gamers and game developers must change their thinking about both women and games to produce better games, better audiences, and better industry practices. Ultimately, this book offers vital prescriptions for how one of our most powerful entertainment industries must evolve its ideas of women.
