**Step Into STEAM, Grades K-5** Sarah B. Bush, Kristin L. Cook, 2019-03-14 Create meaningful and transformative K-5 STEAM learning experiences for each and every student. Make the most of your limited instructional time and become part of the Step into STEAM movement! Seamlessly design and implement K-5 STEAM inquiries that align carefully to key mathematics and science content and practices and prepare elementary students for their bright futures. Taking an opposite approach to existing resources that provide collections of disjointed STEAM activities, this book empowers teachers and schools to build cohesive and sustainable STEAM infrastructures—grounded in grade-level standards and purposeful assessment—to deepen the mathematics and science learning of each and every student.

K-5 Lesson Plans Daniel Price, 2012-05 The Functional Approach to Character Education (FACE) Anti-bullying Curriculum is a K through 5th grade interactive model for alleviating the conditions that often cause students to intimidate other students, including lack of respect for another's feelings, lack of appreciation for physical/behavioral differences, and poor self-esteem. Used by over 10,000 students dating back to 2001, this curriculum is now available via e-Book, both by individual grade or as a K through 5th grade package. Each of the 38 lessons includes a theme, classroom activity, discussion ideas, and takeaway points. Initially authored by Dr. Daniel Price, a licensed clinical psychologist, the curriculum has undergone revisions by grade level teachers since 2001, and modified to include activities that are fun and educational at the same time. Topics covered include: Responsibility, Respect, Caring, Fairness, Trustworthiness, and Citizenship.

Each week students explore a new topic focusing on one of the four social studies disciplines: history, civics, geography, and economics. Watch student's confidence soar as they build analytic skills with these quick learning activities. Parents appreciate the teacher-approved activity books that keep their child engaged and learning. Great for homeschooling, to reinforce learning at school, or prevent learning loss over summer. Teachers rely on the daily practice workbooks to save them valuable time. The ready to implement activities are perfect for daily morning review or homework. The activities can also be used for intervention skill building to address learning gaps. Supports the C3 Framework and aligns to the NCSS curriculum standards.

*Every Minute Matters [Grades K-5]* Molly Ness, 2020-07-02 Make the most of every instructional minute with engaging literacy activities. Time—or lack thereof—may be the most precious commodity in the classroom. From covering all the necessary curriculum and imparting life skills to attending meetings and answering emails, educators are faced with real challenges when there never seems to be enough time to do it all. Although teachers don't have the power to create more minutes in the school day, they do have the power to be effective and efficient with the time given. Molly Ness asks teachers first to examine their use of time in the classroom in order to make more space for literacy. She then introduces 40 innovative activities

designed to replace seatwork. These literacy-rich alternatives for classroom transitions are presented alongside Research on instructional time in K-5 classrooms Strategies for how to maximize every minute of instruction Suggestions for improving efficiency to expand independent reading and writing time Reflective practices to help teachers examine how they use the time they have The instructional day is ripe for redesign with a thoughtful and authentic time audit. Every Minute Matters guides educators through that process by outlining literacy-rich activities to optimize transitional times and minimize lost instructional minutes.

**What's Your Evidence?** Carla Zembal-Saul,Katherine L. McNeill,Kimber Hershberger,2013 With the view that children are capable young scientists, authors encourage science teaching in ways that nurture students' curiosity about how the natural world works including research-based approaches to support all K-5 children constructing scientific explanations via talk and writing. Grounded in NSF-funded research, this book/DVD provides K-5 teachers with a framework for explanation (Claim, Evidence, Reasoning) that they can use to organize everything from planning to instructional strategies and from scaffolds to assessment. Because the framework addresses not only having students learn scientific explanations but also construct them from evidence and evaluate them, it is considered to build upon the new NRC framework for K-12 science education, the national standards, and reform documents in science education, as well as national standards in literacy around argumentation and persuasion, including the Common Core Standards for English Language Arts (Common Core State Standards Initiative, 2010).The chapters guide teachers step by step through presenting the framework for students, identifying opportunities to incorporate scientific explanation into lessons, providing curricular scaffolds (that fade over time) to support all students including ELLs and students with special needs, developing scientific explanation assessment tasks, and using the information from assessment tasks to inform instruction.
