Notebook Laurie Chambers,2021-06-03 Beautiful Kaskade notebook with 120+ perforated pages and soft cover. A Great personalized gift.

The Mathematics of Juggling Burkard Polster,2006-05-26 As a juggler the author likes to finish his performances with a stunt that combines props and techniques from a variety of juggling disciplines. Imagine him idling on a giraffe unicycle, while balancing a spinning basketball on a mouth stick, and toss-juggling a sword, a toilet plunger, and a rubber chicken. As a mathematician he is also interested in the treasure trove of beautiful mathematics used to model the different activities in a juggler's repertoire. In this book he provides an intellectually stimulating collection of mostly self-contained mathematical essays that introduce the reader to many elegant results and techniques from a wide range of mathematical disciplines such as combinatorics, graph theory, knot theory, mechanics, differential equations, control theory, and robotics. The Mathematics of Juggling is the first comprehensive account summarizing and expanding the results in the literature on juggling tricks and skills, as well as the mathematics behind these tricks and skills. Anybody who is not put off by the word mathematics in the title of this book should have a good time reading it.

Vierter Internationaler Kongress für Elektronenmikroskopie / Fourth International Conference on Electron Microscopy / Quatrième Congrès International de Microscopie Électronique W. Bargmann,G. Möllenstedt,H. Niehrs,D. Peters,E. Ruska,C. Wolpers,2013-03-08 Die vorliegenden

Verhandlungen des IV. Internationalen Kongresses für Elektronenmikroskopie, der unter den Auspizien der International Federation of Electron Microscope Societies im Jahre 1958 in Berlin stattfand, veranschaulichen, in welchem Ausmaß die Elektronenmikroskopie in den letzten Jahren für viele Bereiche der Forschung an Bedeutung gewonnen hat. Etwa 400 Vorträge und einige Diskussionsbemerkungen, von mehr als 1000 Teilnehmern aus 26 Ländern gehalten, waren zu veröffentlichen, wenn wir der Tradition der früheren Internationalen Kongresse in Delft (1949), in Paris (1950) und in London (1954) treu bleiben wollten. Zum ersten Male war es nicht möglich, alle auf einem Internationalen Kongreß für Elektronenmikroskopie gehaltenen Vorträge in einem einzigen Band zusammenzufassen. Der 1. Band dieser Verhandlungen enthält sowohl die Arbeiten zur Theorie der Elektronenmikroskopie und über die physikalische sowie technische Weiterentwicklung der Geräte, als auch Mitteilungen über die Anwendung des Elektronenmikroskops zur Erforschung kristallographischer und technologischer Probleme einschließlich der Präparationstechnik. Der 11. Band bringt die Arbeiten über die Anwendung des Elektronenmikroskops zur Lösung biologischer und medizinischer Fragestellungen und über die entsprechenden Präparationsverfahren. In Abweichung von der Reihenfolge, in der die Vorträge auf dem Kongreß gehalten wurden, waren wir bemüht, die Mitteilungen nach ihrem Sinnzusammenhang in kleinere Sachgruppen einzuordnen, um ein leichtes und schnelles Auffinden zusammengehöriger Themen zu ermöglichen. Die Inhaltsverzeichnisse, die beiden Bänden beigelegt sind, vermitteln eine ausreichende Übersicht. Jeder Band enthält ein alphabetisches Mitarbeiterverzeichnis. Die Deutsche Gesellschaft für Elektronenmikroskopie, die veranstaltende Organisation, begrüßte mit dankbarer Anerkennung, daß der Springer.

Kaskade Stress Away Coloring Book Lara Lane, 2019-11-29 An Adult Coloring Book Based on The Life of Kaskade.

Billboard , 2011-10-01 In its 114th year, Billboard remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. Allgemeine Elektrotechnik Erasmus Kittler, 1910

Advances in DUNE Andreas Dedner, Bernd Flemisch, Robert Klöforn, 2012-04-23 DUNE, the Distributed and Unified Numerics Environment, is an open-source modular toolbox for solving partial differential equations with grid-based methods. This book covers recent advances in the development and usage of DUNE. It consists of a collection of 13 articles which mainly evolved from talks given at the First DUNE User Meeting in Stuttgart, Germany, 6.-8.10.2010. The articles nicely illustrate the advanced capabilities and the strong versatility of the DUNE framework. The first part presents extensions of the DUNE core modules, including the construction of local finite element spaces, a discretization toolbox, and two meta-grids, as well as a discussion of performance pitfalls. The second part introduces several external DUNE modules dealing with, e.g., reduced basis methods, unfitted discontinuous Galerkin methods, optimal control problems, and porous media applications. Specific methods and applications are subject of the third part, ranging from two-phase flow in porous media over the implementation of hybrid discontinuous Galerkin and heterogeneous multi-scale methods up to the coupling of DUNE with an existing finite element package.

Billboard , 2008-06-14 In its 114th year, Billboard remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.

Biological Wastewater Treatment and Resource Recovery Robina Farooq,Zaki Ahmad,2017-03-29 Biological treatment of wastewater is a low-cost solution for remediation of wastewater. This book focuses on the bioremediation of wastewater, its management, monitoring, role of biofilms on wastewater treatment and energy recovery. It emphasizes on organic, inorganic and micropollutants entering into the environment after conventional wastewater treatment facilities of industrial, agricultural and domestic wastewaters. The occurrence of persistent pollutants poses deleterious effects on human and environmental health. Simple solution for recovery of energy as well as water during biological treatment of wastewater is a viable option. This book provides necessary knowledge and experimental studies on emerging bioremediation processes for reducing water, air and soil pollution.
