**Whirling the Windmill** Kasp Rao,2005-10-05 This book is not another run of the mill. Hypnotist and psychologist Kasp Rao brings out a revolutionary way of dealing with life's uncertainties. Those with suicidal thoughts can find curative and realistic alternatives to get back on track and regain lost hope. Teenagers can learn how to go beyond the stress and unsteady emotions of adolescence and ease more calmly into adulthood. While visiting the deep forest villages of western India, Rao was inspired by the uninterrupted happiness he witnessed in the ordinary lives of the tribal people. Convinced that humans could control their negative emotions by streamlining their thought processes, he started to explore panaceas for mental conflicts. In clear, lucid prose, Rao shows readers how to visualize where they would like to be in life in order to attain the contentment they seek. Sensational in style and content, *Whirling the Windmill-Unwinding the Mind* focuses on the positive, affirms self-worth and taps into sustainable happiness.

The concepts and technologies that this book covers include: XAML -- Microsoft's new XML-based markup language for UI, used with WPF Windows Presentation Foundation (WPF) -- a new presentation framework and graphics subsystem for Windows that puts Vista-like effect in your grasp Ajax Windows Communication Foundation (WCF) - a new standards-based framework that enables applications to communicate across a network using a variety of protocols Workflow Foundation (WF) -- framework for defining, executing, and managing workflows CardSpace -- framework for managing the identities of your users You'll learn how to use each of the four frameworks alone and in concert to build a series of meaningful example applications. Examples are written in C#, and all of the source code will be available for download at both the O'Reilly and the authors' site, which offers access to a free support forum. Between them, authors Jesse Liberty and Alex Horovitz have nearly forty years of experience in delivering commercial applications for companies such as Citibank, Apple, AT&T, NeXt, PBS, Ziff Davis, and dozens of smaller organizations.
