Hizbullah Hilal Khashan,2019-08-15 This book explores the rise of Hizbullah as a direct consequence of both the Iranian Revolution and the entanglement of Lebanon in the Arab-Israeli conflict. Protracted civil war and overwhelming foreign intervention by Lebanon's neighbors enabled Hizbullah to emerge as the country's dominant politico-military force. Hizbullah disabled the Lebanese political system and, in its capacity as Iran's premier foreign proxy, allowed the Islamic Republic to take the lead in the regional tug of war with Israel. In its quest for achieving a distinguished regional status commensurate with its ambitions, Iran used Hizbullah to abort the Syrian uprising, actively contribute to its burgeoning influence in Iraq, and participate in its propaganda war against Saudi Arabia on a range of issues. The renewed U.S. sanctions on Iran coincided with a worldwide campaign to dry up Hizbullah's sources of funding and compromised its integrity as a critical provider of patronage to its Lebanese Shi'ite base of support. The emergence of Russia as the real power player in Syria made it extremely difficult for Hizbullah to justify the high human cost it incurred to salvage the regime of Bashar Asad. This book examines the rise of Hizbullah and the marginalization and repression of Shi'ites that made them susceptible to exploitation by their sectarian leaders.

Hezbollahland Hanin Ghaddar,2023-09-15 In this Policy Focus, richly illustrated with local maps, former Lebanese journalist Hanin Ghaddar reveals the widening gaps between the country's Shia community and its Hezbollah overlords, especially since mass protests shook the nation in October 2019.

FROM A GREAT ESCAPE TO A NEW AWAKENING - MY JOURNEY THROUGH CANCER Eddy Li,2014-05-21 This is an autobiography of a cancer survivor, a veteran network news journalist. For 38 years since 1971, the author, as Asia video editor for ABC News, chased news stories round the clock, often without sleep. With early retirement in sight, the sudden diagnosis of cancer one day radically changed his lifestyle overnight. By an unusual coincidence, his links to golf were also linked to his discovery of cancer. Here's a man who led an incredible life even before he overcame his battle with cancer. It took more than the conventional means of treatment. His treatment and road to recovery is a revelation. Today, as a cancer survivor and a retiree who now enjoys a healthier and more fulfilling life, the author tells a compelling story of how he entered into the darkest tunnel and emerged, a more vigilant and environmentally aware individual. Eddy Li shares his painful experience, what he has learned about an increasingly hazardous environment and how you can protect yourself from its toxicity.

Martyr Cults and Political Identities in Lebanon Sabrina Bensen,2019-10-24 Sabrina Bensen sheds light on political cults of martyrs in Lebanon and reconsiders the context of their emergence, development and distinct characteristics since 1920. She examines how the honouring of martyrs became an established practice in Lebanese politics and is crucial to grasp the logic of violence and conflict. Drawing on the case of the Amal movement, the author analyses central narratives to the group's discourse and practices concerning martyrdom to show how identity construction and strategies of legitimizing power are intertwined. Moreover, the book provides insides into political competition strategies, especially in regards to the two major Shi'ite political actors, Amal and Hizbullah, and takes a new look on martyrdom by going beyond cultural-religious explanations.

Arms and Conflict in the Middle East Riad A. Attar,2009-12-21 A study that contributes to the debate on whether defense spending encourages or hinders economic growth. It assesses the effect of politics on economic growth in developing societies, with a focus on the Middle East. It urges Third World leaders to improve levels of freedom, democracy, and openness of their political systems.

Winning Lebanon Dylan Baun,2020-10-22 By the mid-twentieth century, youth movements around the globe ruled the

streets. In Lebanon, young people in these groups attended lectures, sang songs, and participated in sporting events; their music tastes, clothing choices and routine activities shaped their identities. Yet scholars of modern Lebanon often focus exclusively on the sectarian makeup and violent behaviors of these socio-political groupings, obscuring the youth cultures that they forged. Using unique sources to highlight the daily lives of the young men and women of Lebanon's youth politics, Dylan Baun traces the political and cultural history of a diverse set of youth-centric organizations from the 1920s to 1950s to reveal how these youth movements played significant roles in the making of the modern Middle East. Outlining how youth movements established a distinct type of politics and populism, *Winning Lebanon* reveals that these groups both encouraged the political socialization of different types of youth, and, through their attempts to 'win' Lebanon – physically and metaphorically – around the 1958 War, helped produce sectarian violence.

Religion, National Identity, and Confessional Politics in Lebanon R. Rabil, 2011-09-12 Against a background of weak and contested national identity and capricious interaction between religious affiliation and confessional politics, this book illustrates in detailed analysis this comprehensive project of Islamism according to its ideological and practical evolutionary change.

Friend or Foe Nils Hägerdal, 2021-07-06 When civil conflicts break out in plural societies, violence often occurs along group divides—running the risk of spiraling into ethnic cleansing. Yet for militants who do not seek ethnic separation as a political goal, indiscriminate attacks are detrimental to their cause. Under what circumstances are such combatants more or less likely to commit ethnic violence? Nils Hägerdal examines the Lebanese civil war to offer a new theory that highlights the interplay of ethnicity and intelligence gathering. He shows that when militias can obtain reliable intelligence—particularly in demographically intermixed areas where information can cross ethnic boundaries—they are likely to refrain from indiscriminate tactics. Access to local intelligence helps armed groups distinguish between neutral and hostile non-coethnics to target individual opponents while leaving civilians in peace. Conversely, when militias struggle to access local information, they often fall back on ethnicity as a proxy for political allegiance, with bloody consequences. As intelligence capabilities shape the course of sectarian strife, the role of ethnicity can vary even within a particular conflict. Hägerdal conducted sixteen months of fieldwork in Lebanon, interviewing former militia fighters and commanders and collecting novel statistical evidence. He combines documentation by government agencies, NGOs, local news media, and the United Nations with firsthand narratives by participants to provide an unparalleled account of the processes that generate violence or coexistence when a diverse society descends into armed conflict. Theoretically innovative and descriptively rich, *Friend or Foe* sheds new light on the logic and dynamics of ethnic violence in civil wars.

The Law of the Sea and Maritime Boundary Disputes in Areas of Hydrocarbon Potential Vivek Chandra, 2023-09-22 The United Nations Convention on the Law of Sea ('UNCLOS') is hailed as one of the most significant multilateral legal agreements executed in the past few decades. However, its shortcomings are neither trivial nor inconsequential, especially regarding maritime boundary disputes involving hydrocarbon resources. This monograph examines the relationship between UNCLOS and maritime boundaries in five non-polar regions, encompassing almost 90% of global unresolved disputes involving offshore hydrocarbon development. The regions, which include the eastern Mediterranean, the Caspian Sea, the Persian Gulf, northeast Asia, and the South China Sea, were chosen for their

oil and gas resources potential and recent military skirmishes that have the potential to lead to wider regional confrontations. The book addresses each region's maritime boundary status in the context of specific articles within UNCLOS that have been exploited by disputing states to justify their overlapping claims. The history and future applicability of multilateral Joint Development Area agreements for each region are evaluated for their potential to provide a cooperative solution to resolve ongoing tensions. Highlighting the limitations of current 'gun-boat' diplomacy, the monograph makes practical suggestions for new paradigms for resolving outstanding disputes, promoting lasting peace and generating economic benefits resulting from resource development.

Arab Elites Volker Perthes, 2004 The recent deaths of four long-term heads of state in the Arab world heralded important changes, as political power passed from one generation to the next. Shedding light on these changes, Arab Elites explores the attitudes and political agendas of the new leadership emerging throughout the region. A strong analytical framework informs the authors discussion of elites in Algeria, Egypt, Jordan, Lebanon, Morocco, the Palestinian National Authority, Saudi Arabia, Syria, and Tunisia. The result is a portrait of the current state, and likely future, of politics in the Arab Middle East.

Compassionate Communalism Melani Cammett, 2014-04-17 In Lebanon, religious parties such as Hezbollah play a critical role in providing health care, food, poverty relief, and other social welfare services alongside or in the absence of government efforts. Some parties distribute goods and services broadly, even to members of other parties or other faiths, while others allocate services more narrowly to their own base. In Compassionate Communalism, Melani Cammett analyzes the political logics of sectarianism through the lens of social welfare. On the basis of years of research into the varying welfare distribution strategies of Christian, Shia Muslim, and Sunni Muslim political parties in Lebanon, Cammett shows how and why sectarian groups deploy welfare benefits for such varied goals as attracting marginal voters, solidifying intraconfessional support, mobilizing mass support, and supporting militia fighters. Cammett then extends her arguments with novel evidence from the Sadrism movement in post-Saddam Iraq and the Bharatiya Janata Party in contemporary India, other places where religious and ethnic organizations provide welfare as part of their efforts to build political support. Nonstate welfare performs a critical function in the absence of capable state institutions, Cammett finds, but it comes at a price: creating or deepening social divisions, sustaining rival visions of the polity, or introducing new levels of social inequality. Compassionate Communalism is informed by Cammett's use of many methods of data collection and analysis, including Geographic Information Systems (GIS) analysis of the location of hospitals and of religious communities; a large national survey of Lebanese citizens regarding access to social welfare; standardized open-ended interviews with representatives from political parties, religious charities, NGOs, and government ministries, as well as local academics and journalists; large-scale proxy interviewing of welfare beneficiaries conducted by trained Lebanese graduate students matched with coreligionist respondents; archival research; and field visits to schools, hospitals, clinics, and other social assistance programs as well as political party offices throughout the country.

Krieg der Symbole Mara Albrecht, 2017 Der Libanon mit seiner von gewaltsamen Konflikten geprägten Geschichte verfügt über eine große Zahl von politischen Parteien. Über die vergangenen Dekaden hat sich eine distinkte politische Kultur herausgebildet, die von Elementen wie Personenkult, Widerstand, Märtyrerverehrung, aber auch parteispezifischen ideologischen Aspekten beeinflusst ist. Anhand von zwei politischen Parteien, der Libanesischen Kata'ib-Partei und der Progressiven Sozialistischen Partei, werden in dieser Studie visuelle und sprachliche symbolische Formen sowie performative Praktiken und politische Rituale analysiert. Diese spezifischen

Parteikulturen werden in einem größeren libanesischen und nahöstlichen Kontext eingeordnet aber auch Bezüge zu globalen Elementen politischer Kultur hergestellt.

iMuslims Gary R. Bunt, 2009-04-30 Exploring the increasing impact of the Internet on Muslims around the world, this book sheds new light on the nature of contemporary Islamic discourse, identity, and community. The Internet has profoundly shaped how both Muslims and non-Muslims perceive Islam and how Islamic societies and networks are evolving and shifting in the twenty-first century, says Gary Bunt. While Islamic society has deep historical patterns of global exchange, the Internet has transformed how many Muslims practice the duties and rituals of Islam. A place of religious instruction may exist solely in the virtual world, for example, or a community may gather only online. Drawing on more than a decade of online research, Bunt shows how social-networking sites, blogs, and other cyber-Islamic environments have exposed Muslims to new influences outside the traditional spheres of Islamic knowledge and authority. Furthermore, the Internet has dramatically influenced forms of Islamic activism and radicalization, including jihad-oriented campaigns by networks such as al-Qaeda. By surveying the broad spectrum of approaches used to present dimensions of Islamic social, spiritual, and political life on the Internet, iMuslims encourages diverse understandings of online Islam and of Islam generally.
