From Gauss to Painlevé Katsunori Iwasaki,Hironobu Kimura,Shun Shimemura,Masaaki Yoshida,2013-04-17 This book gives an introduction to the modern theory of special functions. It focuses on the nonlinear Painlevé differential equation and its solutions, the so-called Painlevé functions. It contains modern treatments of the Gauss hypergeometric differential equation, monodromy of second order Fuchsian equations and nonlinear differential equations near singular points. The book starts from an elementary level requiring only basic notions of differential equations, function theory and group theory. Graduate students should be able to work with the text. The authors do an excellent job of presenting both the historical and mathematical details of the subject in a form accessible to any mathematician or physicist. Crush Mechanics of Thin-Walled Tubes Dai-heng Chen,2018-10-08 Thin-walled structures can be used to absorb impact energy during a vehicle collision. *Crush Mechanics of Thin-Walled Tubes* describes the analysis and design of these lightweight elements and thoroughly explains the deformation behaviors of thin-walled hollow members under crushing loading. The book covers, in detail, thin-walled structures—under axial compression, bending, and torsion. It provides a complete understanding of the underlying concepts and mechanisms of energy absorption components, includes analysis techniques, and covers existing theoretical approaches along with the author's research. Geared toward engineering students, practicing mechanical and structural engineers, and researchers interested in analyzing energy absorption and designing structures that may undergo impacts, this book: Addresses axial compression of circular and square tubes, and bending and torsion of tubes Summarizes the mechanism of collapse and associated calculations for the initial peak force and the average compressive force Explores two factors controlling the axial collapse of a plate Investigates systematically the deformation characteristics of corrugated tubes under axial crush Provides an understanding of the collapse behavior of members undergoing bending deformation when trying to evaluate strength and energy-absorption characteristics Looks at the bending deformation of circular and square tubes Explains the characteristic flattening phenomenon, the maximum moment in bending deformation, and the moment-rotation relation during bending collapse Discusses the collapse behavior of thin-walled structures with an open cross section during axial crushing and bending deformation Includes the proposition of a new method for evaluating the maximum bending moment of square tubes with consideration of sidewall buckling Proposes a new technique that can be used to determine the relation between the bending moment M and the rotation angle θ Presents analysis methods for predicting the maximum torsion moment in each case A shelf-worthy reference showcasing structural mechanics, *Crush Mechanics of Thin-Walled Tubes* provides a basic understanding of the fundamental concepts and mechanisms of crushing deformations in thin-walled structures and serves as a guide for both teaching and self-study.

Finding Jodi Dora Mason,2016-11-26 Jodi Sue Huisentrut was a news anchor for KIMT, a station based in Mason City, Iowa. On June 27th, 1995, she called the station and told her co-worker that she was on her way to work after she overslept. It would be the last time anyone heard from her. There were signs of a struggle outside of her apartment indicating that she had been abducted. She would disappear without a trace. Numerous rumors and persons of interest have emerged but no official suspect has ever been named. Over twenty years later, the question still remains. What happened to Jodi Huisentrut?

Performing Modernism Alexandra Chiriac,2022-07-18 This volume examines the reach of modernism in design and performance in interwar Romania. It follows the transnational trajectories of several remarkable Jewish avant-garde artists, actors, and directors based in Bucharest, the country's capital, in the 1920s and 1930s. The first part of the book recovers the history of Bucharest's first modern design institution and investigates its links with German design and the Bauhaus. The second half focuses on several innovative collaborations in the realm of Yiddish theatre, including the time spent in Romania by the world-renowned Vilna Troupe. Based on extensive original research, the book shows how Bucharest was connected to Berlin, Riga, and Chicago, highlighting the contribution of Jewish cultural production to avant-garde movements in Europe and beyond.

Sound of the Crowd: a Discography of the '80s (Fourth Edition) Steve Binnie,2018-11-05 SOUND OF THE CROWD: A DISCOGRAPHY OF THE '80s is the ultimate record collector's guide to the 1980s. In the era of multi-formatting, picture discs, coloured vinyl, multiple remixes, funny shaped records and tiny CDs you could lose down the back of the sofa, this book lists every format of every single, EP and album released in the UK in the 1980s by over 140 of the decade's biggest acts, from ABBA to Paul Young. This fourth edition has been fully revised and expanded to include even more acts than ever before, with additional sections to cover Band Aid-style charity congregations and compilation albums from the early '80s K-Tel efforts through to the Now That's What I Call Music series and its competitors. Compiled by Steve Binnie, editor of the '80s music website Sound of the Crowd and writer, producer and co-host of the unconventional '80s chart show Off The Chart, broadcast weekly on Mad Wasp Radio.

Old Jewish Folk Music Mark Slobin,2016-11-11 The original publications of the 1930s are scarcely to be found. The posthumous 1962 volume in the Soviet Union was limited to a tiny edition. Yet the work of the man who has been called the foremost authority on Jewish folk music before the Holocaust, Moshe Beregovski, survives and is now available for the first time to the English-speaking world. As a member of the Jewish community as well as an ethnomusicologist in prewar Russia, Beregovski had not only the inspiration to preserve the spirit and vitality of the music that filled the lives of his people but also the professional training to document his findings to exacting standards. The first section of Slobin's book contains translations of some of Beregovski's responses to Jewish folk music in its living context during the 1930s. He raises important questions about ethnicity in his essay on interaction between Ukrainian and Jewish musical influences. His work on klezmer music. the music of the Jewish folk instrumental bands, is the most authoritative on the subject and includes his complete guide to fieldworkers in folk music. In another essay Beregovski analyzes an unmistakable trademark of Jewish folk music, the altered Dorian scale, and its symbolism in Eastern European Jewish culture. The second section constitutes Beregovski's anthologies of hundreds of folk songs with full Yiddish and English song texts. Each song is carefully notated

exactly as it was sung and is accompanied by Beregovski's notes on origins and variants. Beregovski's essays and transcriptions form a part and a symbol of what was lost in the mass destruction of Eastern European Jewish culture in this century. They form a cultural record of deep significance not only for the Jewish people, but also for folklorists and scholars as evidence of a distinctive music culture that interacted with—and influenced—the folk musics of Eastern Europe.

Eminent Grewals Dr Dalvinder Singh Grewal,

Hog Wild Lynn Waltz, 2018-05-15 When Smithfield Foods opened its pork processing plant in Tar Heel, North Carolina, in 1992, workers in the rural area were thrilled to have jobs at what was billed as “the largest slaughterhouse in the world.” However, they soon left in droves because of the fast, unrelenting line speed and high rate of injury. Those who stayed wanted higher wages and safer working conditions, but every time they tried to form a union, the company quickly cracked down, firing union leaders, assaulting organizers, and setting minority groups against each other. Author and journalist Lynn Waltz reveals how these aggressive tactics went unchecked for years until Sherri Buffkin, a higher-up manager at Smithfield, blew the lid off the company’s corrupt practices. Through meticulous reporting, in-depth interviews with key players, and a mind for labor and environmental histories, Waltz weaves a fascinating tale of the nearly two-decade struggle that eventually brought justice to the workers and accountability to the food giant, pitting the world’s largest slaughterhouse against the world’s largest meatpacking union. Following in a long tradition of books that expose the horrors of the meatpacking industry—from Upton Sinclair’s *The Jungle* to Eric Schlosser’s *Fast Food Nation*—*Hog Wild* uncovers rampant corporate environmental hooliganism, labor exploitation, and union-busting by one of the nation’s largest meat producers. Waltz’s eye-opening examination sheds new light on the challenges workers face not just in meatpacking, but everywhere workers have lost their power to collectively bargain with powerful corporations.

Hasidism David Biale, David Assaf, Benjamin Brown, Uriel Gellman, Samuel Heilman, Moshe Rosman, Gadi Sagiv, Marcin Wodziński, 2017-12-11 The first comprehensive history of the pietistic movement that shaped modern Judaism This is the first comprehensive history of the pietistic movement that shaped modern Judaism. The book’s unique blend of intellectual, religious, and social history offers perspectives on the movement’s leaders as well as its followers, and demonstrates that, far from being a throwback to the Middle Ages, Hasidism is a product of modernity that forged its identity as a radical alternative to the secular world. Hasidism originated in southeastern Poland, in mystical circles centered on the figure of Israel Ba'al Shem Tov, but it was only after his death in 1760 that a movement began to spread. Challenging the notion that Hasidism ceased to be a creative movement after the eighteenth century, this book argues that its first golden age was in the nineteenth century, when it conquered new territory, won a mass following, and became a mainstay of Jewish Orthodoxy. World War I, the Russian Revolution, and the Holocaust decimated eastern European Hasidism. But following World War II, the movement enjoyed a second golden age, growing exponentially. Today, it is witnessing a remarkable renaissance in Israel, the United States, and other countries around the world. Written by an international team of scholars, *Hasidism* is a must-read for anyone seeking to understand this vibrant and influential modern Jewish movement.

The Immigrant-Food Nexus Julian Agyeman, Sydney Giacalone, 2020-04-07 The intersection of food and immigration in North America, from the macroscale of national policy to the microscale of immigrants' lived, daily foodways. This volume considers the intersection of food and immigration at both the macroscale of national policy and the microscale of immigrant foodways—the intimate, daily performances of identity, culture, and community through food. Taken together, the chapters—which range from an account of the militarization of the agricultural borderlands of Yuma, Arizona, to a case study of Food Policy Council in Vancouver, Canada—demonstrate not only that we cannot talk about immigration without talking about food but also that we cannot talk about food without talking about immigration. The book investigates these questions through the construct of the immigrant-food nexus, which encompasses the constantly shifting relationships of food systems, immigration policy, and immigrant foodways. The contributors, many of whom are members of the immigrant communities they study, write from a range of disciplines. Three guiding themes organize the chapters: borders—cultural, physical, and geopolitical; labor, connecting agribusiness and immigrant lived experience; and identity narratives and politics, from “local food” to “dietary acculturation.” Contributors Julian Agyeman, Alison Hope Alkon, Fernando J. Bosco, Kimberley Curtis, Katherine Dentzman, Colin Dring, Sydney Giacalone, Phoebe Godfrey, Sarah D. Huang, Maryam Khojasteh, Jillian Linton, Pascale Joassart-Marcelli, Samuel C. H.
