Defects of Consent in Consumer E-Commerce from the Polish Law Perspective Katarzyna Południak-Gierz,2021-10-11

The regulation on defects of consent loses its usefulness and should be replaced by special regulations, more suited to the requirements of consumer e-commerce. The study's main objective is to verify whether, due to the evolution of the concept of the declaration of intent, the emergence of non-individual consumer protection instruments, and technological developments the code regulation of defects in the declaration of will remains useful in the case of contracts concluded by consumers on the Internet. The impact of the development of the Internet environment on the applicability and effectiveness of this traditional private institution is analyzed. Mechanisms that, in practice, displace the regulation of vice of consent are indicated.

Information Sources in Law J.R. Winterton,Elizabeth M. Moys,2012-06-21 The aim of each volume of this series Guides to Information Sources is to reduce the time which needs to be spent on patient searching and to recommend the best starting point and sources most likely to yield the desired information. The criteria for selection provide a way into a subject to those new to the field and assists in identifying major new or possibly unexplored sources to those who already have some acquaintance with it. The series attempts to achieve evaluation through a careful selection of sources and through the comments provided on those sources.

How to Translate Nicolae Sfetcu,2015-04-19 A guide for translators, about the translation theory, the translation process, interpreting, subtitling, internationalization and localization and computer-assisted translation. A special section is dedicated to the translator's education and associations. The guide include, as annexes, several independent adaptations of the corresponding European Commission works, freely available via the EU Bookshop as PDF and via SetThings.com as EPUB, MOBI (Kindle) and PDF. For a "smart", sensible translation , you should forget not the knowledge acquired at school or university, but the corrective standards. Some people want a translation with the touch of the source version, while another people feel that in a successful version we should not be able to guess the original language. We have to realize that both people have right and wrong, and that their only fault is to present requirement as an absolute truth. Teachers agree at least on this principle: "If a sentence is ambiguous, the translation must also be". There is another critical, less easy to argue, based on an Italian phrase with particularly strong wording: "Traduttore, traditore". This critique argues that any translation will betray the author's language, spirit, style ... because of the choices on all sides. What to sacrifice, clarity or brevity, if the formula in the text is brief and effective, but impossible to translate into so few words with the exact meaning? One could understand this criticism that it encourages us to read "in the text." It seems obvious that it is impossible to follow this advice into practice.

Translation Style Guide for European Union Member States Nicolae Sfetcu,2015-04-09 This guide is a companion to the English Translation Style Guide for European Union. For each EU Member State, plus two candidate countries, the guide provides English terms and translations. Most of the individual country sections contain a general introduction and parts on geography, judicial bodies and legal instruments. The guide shows terms in the original language on the left and suggested English translations on the right. General guidance on the translation of geographical names, illustrated by specific examples, can also be found in the English Translation Style Guide for European Union. The translations are based on NUTS – the EU's Nomenclature of Territorial Units for Statistics. However, the NUTS regions, when referred to as such, are not translated.

Gain-based Remedies for Breach of Contract Daniel Zatorski,2023-02-15 This book focuses on an emerging problem in English contract law: what should be done when a party has been unjustly enriched as the result of a breach of contract but there is no measurable loss suffered by said party? Two rulings are at the heart of the book: *Wrotham Park Estate v Parkside Homes* and *Attorney-General v Blake*. These two cases can be said to have established gain-based remedies in English contract law. However, the principles that underpin these remedies are not entirely clear and are subject to debate. This book analyses these principles through the lens of compensatory and restitutionary approaches. Moreover, it applies a comparative analysis of these approaches through the lens of the civil law jurisdiction in Poland. Since the term 'compensation' is not a universal concept, the book distinguishes between two rationales in the compensatory analysis. The first, reparative compensation, is defined as a form of monetary recompense for loss or damage actually suffered. The second, substitutive compensation, represents a monetary equivalent to a right that a person has been deprived of or denied. Both rationales require the application of a broad notion of loss in order to make gain-based remedies workable in both English and Polish law. In contrast, 'restitution' states that a person cannot be permitted to profit from their own wrongdoing. Based on this principle, the book argues that gain-based remedies could be applied under Polish law through the rules of unjust enrichment. However, in order to do so, a broader understanding of the subtraction prerequisite (the enrichment being at the aggrieved party's expense) would have to be adopted. The book concludes that unjust enrichment is a more natural way of implementing gain-based remedies in civil law jurisdictions.

Family and Succession Law in Poland Stanisława Kalus,Magdalena Habdas,2021-11-21 Derived from the renowned multi-volume International Encyclopaedia of Laws, this concise exposition and analysis of the essential elements of law with regard to family relations, marital property, and succession to estates in Poland covers the legal rules and customs pertaining to the intertwined civic status of persons, the family, and property. After an informative general introduction, the book proceeds to an in-depth discussion of the sources and instruments of family and succession law, the authorities that adjudicate and administer the laws, and issues surrounding the person as a legal entity and the legal disposition of property among family members. Such matters as nationality, domicile, and residence; marriage, divorce, and cohabitation; adoption and guardianship; succession and inter vivos arrangements; and the acquisition and administration of estates are all treated to a degree of depth that will prove useful in nearly any situation likely to arise in legal practice. The book is primarily designed to assist lawyers who find themselves having to apply rules of international private law or otherwise handling cases connected with Poland. It will also be of great value to students and practitioners as a quick guide and easy-to-use practical resource in the field, and especially to academicians and researchers engaged in comparative studies by providing the necessary, basic material of family and succession law.

The Biographical Landscapes of Raphael Lemkin Piotr Madajczyk,2023-11-03 The book is the first biography of Raphael Lemkin to draw on a comprehensive body of research into Lemkin as a person and his background and will be of interest to both non-specialists and academics. Drawing on archival materials, a nuanced description is provided of the ethnically mixed Belarusian-Polish-Jewish border region where Lemkin grew up and which shaped him, clarifying at the same time some of the misinterpretations that have surrounded Lemkin's life. Lemkin's

professional career and intellectual interests up to the time of his flight from Poland after the German aggression of 1939 are exhaustively described. In the latter part of the book, the author poses, among other things, the question of how Lemkin's activities in the United States were influenced by the experience of the first almost 40 years of his life.

The Effectiveness of the Köbler Liability in National Courts Zsófia Varga, 2020-10-15 Over the last 15 years, Köbler liability has resulted in the allocation of damages on only five occasions. Why is that? And what are the practical implications of the Köbler judgment in the Member States? This book offers a unique analysis of the principle – not from the usual EU-focused point of view but from the view of the practical Member State – and thus follows the track set by earlier books in the 'EU Law in the Member States' series. It thoroughly examines the national jurisprudential and legislative acceptance of the state liability principle and explores the existence of alternative remedies available in the Member States in case of such breaches. The conclusions, based on a systematic assessment of 300 national judgments from the 28 Member States, lead to a reconsideration of the role of the Köbler doctrine in the system of judicial remedies against violation of EU law by national supreme courts. After the pronouncement of the ECJ judgment in Köbler, legal scholars and practitioners have forecast the eradication of the principle of res judicata and the endangering of judicial independence. The judgment caused a lot of ink to flow; according to the ECJ's records, at least 100 studies are directly devoted to the analysis of this decision. This book is, however, the first to offer a comprehensive analysis on the genuine life of the Köbler liability in the Member States.

Criminality and Criminal Justice in Contemporary Poland Konrad Buczkowski, Beata Czarnecka-Działuk, Witold Klaus, Anna Kossowska, Irena Rzeplińska, Dagmara Woźniakowska-Fajst, Dobrochna Wójcik, 2016-03-09 Criminality has accompanied social life from the outset. It has appeared at every stage of the development of every community, regardless of organisation, form of government or period in history. This work presents the views of criminologists from Central Europe on the phenomenon of criminality as a component of social and political reality. Despite the far advanced homogenisation of culture and the coming together of the countries that make up the European Union, criminality is not easily captured by statistics and simple comparisons. There can be huge variation not only on crime reporting systems and information on convicts but also on definitions of the same crimes and their formulations in the criminal codes of the individual European countries. This book fills a gap in the English-language criminological literature on the causes and determinants of criminality in Central Europe. Poland, as the largest country in the region, whose political post-war path has been similar to the other countries in this part of Europe, is subject to an exhaustive and original look at criminality as part of the political and social reality. The authors offer a contribution to the debate in the social and criminal policy of the state over the problems of criminality and how to control it.

Postmortal succession on the example of Polish law in a comparative perspective Wojciech Bańczyk, 2024-02-12 This book presents numerous instruments which create postmortal succession on the example of Polish law. Alongside the solution in inheritance law, one may apply specific inheritance (e.g. of agricultural farms) that benefits only such heirs who meet additional requirements, as well as undertake legal acts that allow to decide on heritability (or non-heritability) character of rights and duties (e.g. within the contract of mandate or company contracts). There are also numerous legislative instruments that allow for succession otherwise than by inheritance so that particular persons (and not heirs) benefit after the decedent. Such instruments include regulations of civil law but also e.g. banking law, social insurance law which are often comparable with nonprobate instruments (or willsubstitutes) under American law or German Sonderrechtsnachfolge.

Responsibility for negation of international crimes Patrycja Grzebyk, History is no longer the exclusive domain of historians, but is now often used as a tool for politics. It is not without reason that the term “state historical policy” has been coined, which must be a kind of aberration for those who believed that the role of history is to objectively determine the course of events. The fact is, however, that the distortion of historical facts, the concealment of crimes is now part of the “information war”. Therefore, new acts of public international law, EU law and national law are introduced in order to combat public condonation, denial or gross trivialisation of the core international crimes which are certain forms and expressions of racism and xenophobia. States have to determine for themselves how they understand “denial” or “gross trivialization”, which may lead to abuse. In many cases, when introducing criminal law provisions, States wish to decree historical truth, to establish once and for all the general facts and determine who was the victim, and who was the perpetrator. This does not have to be the result of bad will, but of a desire to exclude the possibility of nuance, which could turn into dangerous trivialisation. The aim of this publication is to specify the reasons for holding accountable for denial of international crimes, indicate legal obligations in this respect, look at the Polish case, both in terms of criminal provisions (partly repealed) and standards of a civil law nature, and compare the Polish regulation with the legal systems of other states, which were chosen because of the region (Central and Eastern Europe) or due to having current problems with denial of crimes or doubts about prosecution on this account.

Shaping the Status of Heirs by Contractual Components under the Polish and German Inheritance Law Bartosz Kucia, Elwira Macierzyńska-Franaszczyk, Ewa Rott-Pietrzyk, Fryderyk Zoll, 2023-09-04 The contributions focus on succession and obligation law norms shaping the legal status of an heir and their comparison within Polish and German law systems. They analyse the impact of the instruments of contract law on the status of an heir. The adopted methodology combining the internal-national and external-comparative perspective allows the authors to present “similarities in dissimilarities” within institutions of the German and Polish succession law. The broad analyses of legal doctrine and jurisprudence can serve as a source of knowledge and points of reference for legal practitioners, courts and legislators.

Pandemic Poland Martin Löhnig, Maicej Serowaniec, Zbigniew Witkowski, 2021-10-11 Poland has been in a phase of change since 2015. The constitutional system of the Third Republic is being restructured. The Judiciary, media, schools and universities are the main focus of attention. This restructure is being celebrated by the government as a renewal of the Polish state, but is being branded by the opposition as the destruction of the Polish Republic in favour of an illiberal democracy. In this already very difficult situation, Poland was confronted with the major challenges posed by a pandemic. What effects will the crisis have on the restructuring of the constitutional system? At present, it seems that the pandemic is acting as a catalyst for those changes. This book aims to provide an informed commentary on those developments and what they mean for the Third Polish Republic.
