Textiles of Indonesia The Thomas Murray Collection, 2022-01-25 Drawn from one of the world's leading textile collections, this magnificently presented array of traditional weavings from the Indonesian archipelago provides a unique window into the region's cultures, rites, and history. Gathered over the course of four decades, the Thomas Murray collection of Indonesian textiles is one of the most important privately owned collections of its type in the world. The objects comprise ritual clothing and ceremonial cloths that tell us much about the traditions of pre-Islamic Indonesian cultures, as well as about the influences of regional trade with China, India, the Arab world, and Europe. As with the earlier volume, *Textiles of Japan* (Prestel, 2018), the book focuses on some of the finest cloths to come out of the archipelago, presenting each object with impeccable photographs, colors, patterns, and intricate details. Geographically arranged, this volume pays particular attention to textiles from the Batak and the Lampung region of Sumatra, the Dayak of Borneo, and the Toraja of Sulawesi, as well as rare textiles from Sumba, Timor and other islands. Readers will learn about the intricate and highly developed traditions of dyeing, weaving, and beading techniques that have been practiced for centuries, resulting in a breathtaking collection of motifs, patterns, dyes, and adornments. Original texts by leading international experts draw on the latest research to offer historical context, unspool the mysteries behind ancient iconography, and provide new insights into dating and provenance. At once opulent and scholarly, this book arrives at a moment of growing interest in Southeast Asian culture and carries the imprimatur of one of the art world's leading collectors. Full List of Contributors: Lorraine Aragon, Joanna Barrkman, Chris Buckley, Kristal Hale, Valerie Hector, Janet Alison Hoskins, Itie van Hout, Eric Kjellgren, Fiona Kerlogue, Brigitte Khan Majlis, Robyn Maxwell, Thomas Murray, and Sandra Sardjono.

**Textiles of Japan** Thomas Murray, Virginia Soenksen, Anna Jackson, 2019-01-29 From rugged Japanese firemen's ceremonial robes and austere rural work-wear to colorful, delicately-patterned cotton kimonos, this lavishly illustrated volume explores Japan's rich tradition of textiles. Textiles are an eloquent form of cultural expression and of great importance in the daily life of a people, as well as in their rituals and ceremonies. The traditional clothing and fabrics featured in this book were made and used in the islands of the Japanese archipelago between the late 18th and the mid 20th century. The Thomas Murray collection featured in this book includes daily dress, work-wear, and festival garb and follows the Arts and Crafts philosophy of the Mingei Movement, which saw that modernization would leave behind traditional art forms such as the hand-made textiles used by country people, farmers, and fisherman. It presents subtly patterned cotton fabrics, often indigo dyed from the main islands of Honshu and Kyushu, along with garments of the more remote islands: the graphic bark cloth, nettle fiber, and fish skin robes of the aboriginal Ainu in Hokkaido and Sakhalin to the north, and the brilliantly colored cotton kimonos of Okinawa to the far south. Numerous examples of these fabrics, photographed in exquisite detail, offer insight into Japan's complex textile history as well as inspiration for today's designers and artists. This volume explores the range and artistry of the country's tradition of fiber arts and is an essential resource for anyone captivated by the Japanese aesthetic.

**Hadhrami Traders, Scholars and Statesmen in the Indian Ocean, 1750s-1960s** Ulrike Freitag, William Clarence-Smith, 2021-10-11 This volume covers the long neglected history of Hadhramaut (southern Arabia) during the modern colonial era, together with the history of Hadhrami colonies in the Malay world, southern India, the Red Sea, and East Africa. After an introduction placing Hadhramis in the context of other diasporas, there are sections on local and international politics, social stratification and integration, religious and social reform, and economic dynamics. The conclusion brings the story to the present day and outlines a research agenda. Many aspects of Indian Ocean history are illuminated by this book, notably the role of non-Western merchants in the spread of capitalism, Islamisation and the controversies which raged within Islam, British and Ottoman strategic concerns, social antagonisms in southern Arabia, and the cosmopolitan character of coastal societies.

**Drawing** Francis D. K. Ching, 1991-01-16 Drawing relies on a clear vision. It also requires thought which, in turn, builds understanding. Drawing cannot be detached from seeing and thinking about the fundamental nature of the subject matter being represented. The knowledge and understanding gained through drawing from life directly

enhances our ability to draw from the imagination. Just as thought can be put into words, ideas can be made visible in a drawing to promote visual thinking and further stimulate the imagination. Once what is seen or imagined is made visible in a drawing, the image takes on a life of its own and communicates graphically. However eloquently or crudely, all drawings, speak to the eye. From the Preface . Francis D.K. Ching

*Challenging Islamic Orthodoxy* Al Makin,2016-09-22 This book is the first work that comprehensively presents the accounts of Lia Eden, a former flower arranger who claims to have received divine messages from the Archangel Gabriel and founded the divine Eden Kingdom in her house in Jakarta. This book places Lia Eden’s prophetic trajectory in the context of diverse Indonesian spiritual and religious traditions, by which hundreds of others also claimed to have been commanded by God to lead people and to establish religious groups. This book offers a fresh approach towards the rich Indonesian religious and spiritual traditions with particular attention to the accounts of the emergence of indigenous prophets who founded some popular religions. It presents the history of prophetic tradition which remains alive in Indonesian society from the colonial to reform period. It also explores the ways in which these prophets rebelled against two hegemonies: colonial power in the past and Islamic orthodoxy in the present. The discussion of this book focuses on Lia Eden including her biography, claims to prophethood and divinity, the development of her group Eden Kingdom, her challenge to Islamic orthodoxy under the banner of the MUI (Indonesian Ulama Council), her persecution by radical groups, her experiences in court trials and imprisonment, and public responses to her emergence. The discussion also covers other themes currently drawing public attention in Indonesia, such as pluralism, religious freedom, tolerance, discrimination against minorities, and secularisation.
