Jyotish (Vedic Astrology) Wing Commander Santosh Sharmaa, 2018-05-16 This is the world's first astrological (Vedic Jyotish) book which is based on scientific evaluation and validation. The interpretations are based on rationale and logic. Your and other people's robotic behavior stems from a pre-programmed chip, which is embedded in your mystic glands inside the brain. This chip controls the inherent behavior of a person. The information about this coded chip is available in your kundali (astrological chart). Shani (Saturn): a new revolutionary understanding Shani is like a GPS with an in-

built navigation system. A retrograde (R) or debilitated (D) Shani is like a GPS, which is malfunctioning. Obviously, you land up at wrong places, at wrong timings, thus wasting your life's energy reaching nowhere. This creates frustration, sadness, depression, and mental agony. Self-pity makes you wail in a well of despair, you wallowing, "my fate!"

Varshphal (Annual Predication) S.P. Gour, Parashari Jaimini and Tajik are the three most popular systems of Vedic Astrology. Parashar gives more importance to the planets while Jaimini considers the rashis to be more important. Tajik is mainly used in Prashna Shastra and in Varshaphal. Tajik diverts slightly always from the main stream of the traditional methods and employs newer techniques of

Astrology. 'Tajik Neelakanthi', of Acharya Neelakantha, which was composed in the 16th century AD, is the base of Tajik Jyotish. This does not mean that Varshaphal and Prashna techniques were not practised in vedic Astrology before this. 'Uttar Kalamrit' of Kalidas mentions and describes the computation of Varshaphal dasa which is different from the 'Mudda dasa' of Varshaphal. Apart from this, 'Shat Panchashikha' of Prithyushyas is the established classic of Prashna Shastra, which was composed centuries before 'Tajik Neelakanthi'. Ancient Kairaleeya Jyotish is also well known for considering Prashna to be their main technique. The influence of Greek and Arab culture is clearly seen on the word 'Tajik'. Arrival of the invaders from Western Asia initiated the exchange of culture between India and West Asia. This exchange introduced some newer techniques to our Vedic Astrology. One of these techniques was Tajik. This has been marked as the beginning of Tajik jyotish. Tajik word does not belong to Sanskrit. There are different opinions regarding this issue. Some scholars consider it to be a distorted form of the word 'Jatak'. Another view is that meaning of Tajik is a horse in Turkish and Persian language. The speed of this technique has been compared to that of a horse and for this reason it has been named Tajik. In any case the influence of Mohammedans on this knowledge is very clear. This is also confirmed by the other words of Tajik, namely mudda, muntha, saham and the names of the Tajik yogas like Ithasal, Ikkabal, Ishraf, nakta, radda and khallasar etc. Moving at the average speed of 1° per day, Sun completes one round of the Zodiac in one year. For casting the annual horoscope we select the time when Sun reaches the longitude of the natal Sun. The horoscope cast for that date and time becomes the annual horoscope and the Varshaphal is decided on the basis of this horoscope. In a similar manner prediction for any year of the person's life can be given on the basis of the annual horoscope. In other words the annual horoscope is based on the longitude of the natal Sun and not on the date and time of birth. This also means that the date, day and time of the annual horoscope is generally different from that of the birth horoscope.

The Astrological Magazine, 2007

Winners or Losers Saurabh Takkar, 2016-12-09 There are two kinds of breeds in this world one who always thinks about the problems, who keeps on crying and blaming the system for it. Then there is the second breed of people, who understand problems and find solutions rather than leaving it for someone else. Welcome to *Winners or Losers*, a story of two friends Sam and Jassi, who were sitting idly after completing their MBA. They were idle out of their own choice. They didn't take jobs as they felt that doing nine-to-five jobs were not their cup of tea. They were waiting for some miracle to happen in their lives, but parents and peer pressure was mounting every day. Parental support was

weaning away, and friends had starting taunting and laughing at them. An idle son at home is a curse for the parents, and parents could no longer tolerate their idleness. Sam and Jassi were known as losers in their circle, and neighbors had started looking down on them. Neighbors had started advising rather than compelling their children to abhor their company. Out of compulsion, they accept a difficult challenge from the parents. Did they win or lose?
