Poetry of Life: Learning to Grow Jade

Davis, 2012-05 Poems are an expression of who we are and what we feel. As we get older our understanding of the world changes. We go from innocent children, to confused adolescents, and then to young adults where we end up with more questions and not enough answers. Through everything: the tears, heart breaks, and let downs; we learn to adapt and to adjust. This book was inspired by my own personal endeavors and what I've seen around me. For every occasion, there are words to describe what is felt and what is believed. Then we take that moment and we can learn from it and better ourselves. Or we pretend that the event never happened and continue with our lives as before. I hope this book inspires every reader to take a look at their own lives. Only by critiquing ourselves will be able to find the strength to learn to grow. -The Author, Jade Davis

Home Treatment for Acute Mental Disorders David S. Heath, 2005-09-26 In the U.S., when a patient is in need of rigorous psychiatric care, the first

step is hospitalization. However, elsewhere in the world, psychiatric home treatment is proposed as an alternative. Model programs in Canada and the United Kingdom are publicly administered by community health agencies or teaching hospitals. Home Treatment for Acute Mental Disorders provides a review of the literature on home care and describes working programs around the world. This timely volume reviews treatment plans for different disorders with case illustrations, explains the administration of a PHC program and offers guidelines to case workers. It will be of interest to psychiatrists and policy makers working on the issue of patient hospitalization.

Astrid's mother, Cassie, and best friend, Willa, have spread themselves thin. Astrid attempted to take her own life not long ago, and they are doing everything they can to keep her from sinking to those depths again. Cassie has even turned to an eccentric new psychiatrist-a one Doctor Barbara Loonsfoot-to aid in Astrid's ongoing recovery. But Loonsfoot and Astrid's ship needs one more thing: uranium. And there happens to be a nuclear power plant nearby.
