*Signed, Sealed, Delivered* Nina Sankovitch,2014-04-15 The author of the much-admired *Tolstoy and the Purple Chair* goes on a quest through the history of letters and her own personal correspondence to discover and celebrate what is special about the handwritten letter. Hailed as witty, moving, enlightening, and inspiring, *Signed, Sealed, Delivered* begins with Nina Sankovitch's discovery of a trove of hundred year-old letters. The letters are in an old steamer trunk she finds in her backyard and include missives written by a Princeton freshman to his mother in the early 1900s. Nina's own son is heading off to Harvard, and she hopes that he will write to her, as the Princeton student wrote to his mother and as Nina wrote to hers. But times have changed. Before Nina can persuade her child of the value of letters, she must first understand for herself exactly what it is about letters that make them so significant—and just why she wants to receive letters from her son. Sankovitch sets off on a quest through the history of letter writing—from the ancient Egyptians to the medieval lovers Abelard and Heloise, from the letters received by President Lincoln after his son's death to the correspondence of Edith Wharton and Henry James. Sankovitch uncovers and defines the specific qualities that make letters so special, examining not only historical letters but also the letters in epistolary novels, her husband's love letters, and dozens more sources, including her son's brief reports from college on the weather and his allowance. In this beautifully written book, Nina Sankovitch reminds us that letters offer proof and legacy of what is most important in life: love and connection. In the end, she finds, the letters we write are even more important than the ones we wait for.

**A Letter to the Editor** Henry A. Buchanan,2012-07-25 *A Letter to the Editor* is a collection of letters written over a period of more than a half century. The first was in May 1954. It was the herald of the racial crisis called the Civil Rights Movement. It got the author hanged in effigy. Many of the letters are about the wars in the Middle East, but others are about the issues that have arisen while war raged, and involved people in unusual circumstances. The letters were written at the time the events were at the top of the news. They are sometimes indignant, bitingly critical, insightful, and even humorous at times, but always honest. The Three Hundred Dollars letter got the most attention. The Jill Carroll letters reveal the deepest tragedy of our wars. Letters to and from Presidents reveal the authors concern for the nation and the Presidents growing interest, in his correspondent. The Only Good Woman in Texas stirred a hornets nest among the female readers. Overall, *A Letter to the Editor* is a history of this nation at war, and broke, and torn, and trying to heal itself, but not yet succeeding.

*Gift of a Letter* Alexandra Stoddard,1990 A world of difference separates a phone call from a letter, says Alexandra Stoddard. She urges the reader to make letter-writing a natural habit, evaluates different kinds of papers, and praises the traditional fountain pen as a natural extension of the hand. Illustrated.

**How to Write Letters (Formerly the Book of Letters)** Mary Owens Crowther,2017-03-25 F A LETTER The mechanical construction of a letter, whether social, friendly, or business, falls into six or seven parts. This arrangement has become established by the best custom. The divisions are as follows: 1. Heading 2. Inside address (Always used in business letters but omitted in social and friendly letters) 3. Salutation 4. Body 5. Complimentary close 6. Signature 7. Superscription 1. THE HEADING The heading of a letter contains the street address, city, state, and the date. The examples below will illustrate: 2018 Calumet Street or 1429 Eighth Avenue Chicago, Ill. New York, N.Y. May 12, 1921 March 8, 1922 [Illustration: In the business letterhead appear the name of the firm, its address, and the kind of business engaged in] When the heading is typewritten or written by hand, it is placed at the top of the first letter sheet close to the right-hand margin. It should begin about in the center, that is, it should extend no farther to the left than the ce

**To the Letter** Simon Garfield,2014-11-04 The New York Times bestselling author of *Just My Type* and *On the Map* offers an ode to letter writing and its possible salvation in the digital age. Few things are as exciting—and potentially life-changing—as discovering an old letter. And while etiquette books still extol the practice, letter writing seems to be disappearing amid a flurry of e-mails, texting, and tweeting. The recent decline in letter writing marks a cultural shift so vast that in the future historians may divide time not between BC and AD but between the eras when people wrote letters and when they did not. So New York Times bestselling author Simon Garfield asks: Can anything be done to revive a practice that has dictated and tracked the progress of civilization for more than five hundred years? In *To the Letter*, Garfield traces the fascinating history of letter writing from the love letter and the business letter to the chain letter and the letter of recommendation. He provides a tender critique of early letter-writing manuals and analyzes celebrated correspondence from Erasmus to Princess Diana. He also considers the role that letters have played as a literary device from Shakespeare to the epistolary novel, all the rage in the eighteenth century and alive and well today with bestsellers like *The Guernsey Literary and Potato Peel Pie Society*. At a time when the decline of letter writing appears to be irreversible, Garfield is the perfect candidate to inspire bibliophiles to put pen to paper and create “a form of expression, emotion, and tactile delight we may clasp to our heart.”

**Kind Regards** Liz Williams,2012-09-06 All the signs show that the worthy art of letter writing is in decline. One third of 16-year-olds have never written a letter, and in the next ten years it is predicted that first-class mail will drop by 37%. Emails and texts have overtaken the humble pen and paper as the most popular method of communication. In *Kind Regards*, Liz Williams explores the popular history of letter writing and how it has shaped the world today - from the early Greek philosophers, to the great letter writers Byron and Walpole and famous letters that changed the world. It also covers the invention of the fountain pen and the growth of the mail delivery system. This is the fascinating story of how a simple piece of paper revolutionized global communication and how, despite the ever-growing influence of technology, handwritten letters are regaining their value, meaning and popularity

**Letters of Note** Shaun Usher,2021-10-28 *Letters of Note*, the book based on the beloved website of the same name, became an instant classic on publication in 2013, selling hundreds of thousands of copies. This new edition sees the collection of the world's most entertaining, inspiring and unusual letters updated with fourteen riveting new missives and a new introduction from curator Shaun Usher.
